DEMOCRATS WILL

Will Not Accept the Proposition of Their Republican Brethren.

WANT TO HAVE A VOICE IN TARIFF BILL

Insist Upon Being Heard in Committee Before the Measure is Reported to the Senate-Their Position Stated.

WASHINGTON, April 26 .- The democratic members of the fluance committee will not accept the proposition made by their republican colleagues to allow the tariff bill to be reported direct to the senate without passing through the hands of the full committee, and have so notified the republican members. Senator White, a member of the finance committee, was asked his views regarding the matter, and is believed to have voiced. the views of all the democratic members in his reply. He said:

his reply. He said:

STATES THEIR POSITION.

I would be glad to gratify the personal inclinations of any senator, but, speaking for mynelf only, I am unable to perceive the propriety of such a course, and cannot acquiesce in it. When the bill is reported to the semate the democratic members ought to be able to insmediately by before their collengues a zonaparatively full statement of the infirmities of the proposed measure. This cannot be done unless the zubject is properly discussed in committee, and if examined there with care much labor will be saved when the proposition is submitted to the senate. If the democratic members are to be of any use on the committee it must be because they will be able to give this inferention. Besides a fair presentation of the views of the minority may lead to immediate changes in the improvement of the bill. If we consent to the indeption of the plan outlined by the republican members it will be said that we have given away our case.

If our republican brethren have improved the bill so as to make it passably digestible they can afford to submit it to careful and conservative criticism in the committee room. The country, of course, understands that the republican members of the finance committee have had the bill since it passed the house, and the minority dave interposed no obstruction and have not been in a position to intelligently examine a single schedule, and the situation will not be altered until the details of the measure are disclosed. I do not complain of the delay. The subject is of grave importance and the gratemen who have been preparing amendments have worked assiduously and are no doubt troubled because of the extraordinary burden imposed upon them by the bouse. Thus far there has been no real debate on the bill, and while I am most anxious to see this session closed I knew that quite a time will necessarily be consumed in legitimate discussion. I have been frequently asked whether the retroactive clause will be retracted. I can only say that I thoroughly agree no formal meeting yet.

UNDECIDED AS TO TIME. The democrats have not yet decided how much time they may want for the consideration of the bill in committee, and will not be able to decide until they see the amended bill, and also ascertain the position that Senator Jones of Nevada will assume toward the measure. He will hear the baltoward the measure. He will bear the bal ance of power in the committee, and if he throws his influence with the democrats, they can hold the bill in committee for an indefinite length of time. He has told the republican members of the committee that he still holds views favorable to protection and has given them to understand that he will support the bill if it conforms to his ideas. He has asked in a general way for increased protection on the products of the If these concessions are made, it is not believed that he would assist in holding the bill in committee for any length of time, even if the democrats should so desire. The republican members of the committee express surprise at the refusal of the perats to allow the tariff bill to go direct to the senate, instead of passing through the They say the democratic mer bers have indicated no desire to suggest amendments; that it would be unusual if they should attempt to modify the bill in committee, and the proceeding to put i through the full committee will be purely perfunctory. They show confidence in being able to secure an early report, even though there is opposition to immediate presentation to the senate, and they count confidently upon the assistance of Senator Jones of Nevada in getting the measure out of committee. The republican members now expect to be able to send the bill to the printer Wednesday night and to present it to the full committee on Thursday.

HEARING ON LAKE FRONT CASES. Motion to Compel Claimants to Show

Their Title. WASHINGTON, April 26.-The Chicago lake front case, on which hinges the posses sion of lands in the Chicago city limits valued at upwards of \$15,000,000, was given a hearing at the general land office today. The case is the famous one arising upon the application of Mathias Benner and Harvey M. La Foliste to locate with McKee scrip lands in fractional section ten, north of the Chicago river and east of the United States meander line of 1821. The hearing, which will occupy three days, is before Commissioner Herman. Assistant Commissioner Boat and Chief Shaw of the public lands livision also sit with the commissioner. The arguments today were largely over the mo Mon filed by the counsel for the scrip lo cators. Benner and La Follette, both of whom were present asking the commissioner to require each of the prosecutants and object-ors in the case, who claim title to any part, by deed of conveyance or by contract, to show, by full and complete chain of conveyance or abstracts of title, the source or nature of such alleged title. They made the contention that unless able to show in-terest in the lands persons should not be permitted participation in the case. This important phase of the controversy will be passed upon tomorrow.

In support of it the scrip locators' counsel cited conflicting statements in the protests to the application, one saying title was derived from Kinzle, and another that the protestants "are advised by counsel that they have good title." He said that if Kinzle only took title to the eastern line of what is now St. Clair street, then those claiming inder Kinzie on these tracts have no title

the Fairbanks-Ogden estate and the Newberry library, represented by Attorney Need-ham and F. H. Cox, who, he explained, was the grantee of persons who occupied the lands for a length of time sufficient to bar all other persons by the statute of limitations. Mr. Needham stated that the city claimed the lands under its sovereignty as a state and under an act of the legislature. He protested against the requirement for the examination of abstracts of title and asserted that though expensive to the litigants would rest on nothing material. Cox made no claim on the Kinzie patent and asserted the United States had no jurisdiction, fee having passed to Illinois on its admission to statchood.

CHICAGO MEN ARE THE RINGLEADERS

oday sent the following nominations to the Reserve Rule and the System of Fines. and Dockage the Principal Causes of Complaint-Forming an Organization.

> -ST. LOUIS, April 26.-The Post-Dispatch, in a leading item in its sporting column,

says today "If there is any truth in the old saw, 'Coming events cast their shadows before,' the Edward G. Bradford, district judge for the end of the base ball season just commenced will witness one of the strongest coalition of players that has ever existed, not excepting the brotherhood, which seceded from the managers and organized a league of its

and the peculiar conditions existing between the players and magnates are entirely responsible for it.

"Primarily, the reserve rule which converts a skillful ball player into a chattel. who can be sold and forced to play with a team obnexious to him and with no voice in the matter; the agreement between the club owners regulating salaries; the power to fine. suspend and discipline a player, with no redress to the performer from consequent loss of salary, and several other grievances among which are the docking of men when unable to play from injuries received in the game, are the causes which are compelling the active agents of the pastime to band to-

gether for self-preservation.

"The players believe, and with the best of reasons, too, that with the support of the men who constitute the strength of the various teams as an organized body behind them, that the rights of individuals would command a consideration that does not now exist. This sentiment is growing fast, and be trail of the Chicagos lies over it all. Just why this team should be the crusaders in he movement it is hard to say. ANSON HAS A SAY.

"Captain Anson is well aware of the feeling which exists. 'Of course, I know there is a revolt,' he said when approached today. Clark Griffith is at the head of the mutineers on the Chicago team, and he has some will ing lieutenants. They have been doing mis ionary work in Cincinnati, and I under stand intend to try it here, but let me say this,' and the captain's face took on a serious expression, as he leaned forward and sale mpressively: 'The ringleaders are known The league has spotters everywhere, and no steps can be taken without the club owner eing posted as to every detail.' "It was not so much what Anson said as

what he left unsaid, that makes his conclud ing words so important. He inferred that i would be unpleasant for a player who b came too zealous in his reform movement. "The brotherhood,' the captain said. 'was still enough of a recent disaster to cite as an instance of the big cague's ability to hold its own and weather all gales stirred up by players.

"Clark Griffith, the pitcher of whom Cap tain Anson was so open in speaking of as the big chief of kickers, is the only man on the White Stocking team who has not yet written his name on a contract. He has pitched in four games, and if he goes in against the Browns this afternoon, as is a probability, or any other afternoon, during the Chicago's three-day stay here, he will have pitched the five games allotted all players to participate in without signing. When he pitches his next game there will be a showdown, and he will either have to sign at \$2,400, the limit which is offered him, or not play at all. It is understood that Griffith is holding out for \$2,500, and it is useless to say that he will hardly get it.' "Naturally enough, the Chicago players are reticent in talking to a newspaper man about the situation and their plans for forcing the magnates to consider their claims. In a personal and friendly conversation, however, three or four of the men said to a Post-Dispatch reporter today that there was exaggeration in the statement that boys were setting about initiative toward throwing yoke. They admitted also expected to keep up the that they work and lose no opportunities to gain converts to the cause. While talking freely over the sentiments of the disgruntled players, the men would not say what policy they would open and follow in case the magnates

declined to hear their grievances and satisfy or partly satisfy their requests." GAMES OF THE NATIONAL LEAGUE.

State Meet for Omaha. Representatives of the Nebraska division of the League of American Wheelmen me in this city last night to decide upon in this city last night to decide upon a place for the annual meet. The place was quickly settled for Omaha, but the date is still a matter of some donot, although the probabilities are that the meet will be held on July 1, 2 and 3. The session was very short, the meeting not being called to order till quite late, and this was all the business transacted. transacted.

New things are just what Omaha wants-and Dave Mercer's efforts to secure the Indian supply depot for the Ex-position City are right in line with Drex Shooman's promulgation of the 'green shoe"-the only stock of them in the city-others will tell you that's a sample in the window-but they waited for us to lay in a complete stock of them -this is the green age everything runs to green-then why shouldn't shoes match the costume?-We have them in all sorts of styles to suit all sorts of people-men-women and childrenprices no higher because of the novelty of them-it is the coming style. DEADLY EXPLOSION IN LONDON. Several Persons Badly Hurt at an Underground Railway Station.

LONDON, April 13 .- A tremendous explosion occurred on the underground railway at 5:30 o'clock this evening as a train filled with men from the city was making its usual stop at the Aldersgate station. The glass roof of the station was blown out and the platform was strewn with debris. Many of the gaslights in the waiting rooms and on the platform were extinguished and the station was left in semi-darkness. A panic ensued. When comparative quiet had been restored it was found that a first-class coach had been completely wrecked and that its occupants were lying about maimed and bleeding. Ten of the injured were found to be in a precarious condition and were removed to hospitals. A number of persons who were standing on the platform were hurt. Much of the wreckage was hurled across the station. The cause of the explotion is not known, but is believed to have been from an accumulation of gas which became ignited in some way. Many think the explosion was caused by a bomb which had been placed in the station with the intention of wrecking it.
