Continues to Liquidate and Wheat Continues to Drop. SPLENDID WEATHER IS THE MAIN CAUSE. Corn and Oats Lose Fractionally for Similar Reasons and Provisions Close From a Nickel to a Dime Lower.

CHICAGO, April 27.—Wheat closed at a 7 1/2 decline. Liquidation by discouraged longs was as general as yesterday, but not so heavy a sale. The main depressing factor was the splendid weather, which affected not only wheat, but corn and oats as well. Corn lost 1/8 cent, oats 1/2 cent and provisions closed at a decline of from 2 1/2 to 3 1/2 cents. Wheat started out well enough. Liverpool opened a shade higher for futures, which was not looked for in view of yesterday's sharp decline here. They found buying so easy, however, that the demand died out at once and then continued a slow but steady decline, which carried July down to 21 1/2 cents, a low for the season.
