#### AN IMMENSE AUDIENCE.

Inquiries for Two Weeks Past Concerning the Yaw Reserved Seat Sale,

THERE WILL BE A RUSH TUESDAY

Orders for Sents from Neighboring Towns and Cities... The Largest and Most Fashlonable Audience of the Season Will Hear Yaw.

If the numerous inquiries concerning the Yaw engagement is an indication of what the sale will be this week, it is already plain that the Creighton theater will be packed and jammed with the clite of Omaha on the night of the great singer's appearance here. That Miss Yaw and her company can draw Immense audiences is shown by the uniform enthusiasm in the great American cities. We give below a brief account of her concert

CLEVELAND. Not in many a day has a Cleveland au-dience become so enthusiastic over a song-stress as the audience at Music hall became over Yaw. The audience numbered over 4,000, the excursion trains bringing in 1,200 from neighboring cities. She sang as high as average sopranos, then piled an octave of tones upon that, and still seemed capable of adding a few more without much effort. The range of tone is certainly most remarkable, and one cannot but be astonished at the quality that is ever apparent with either high or low tones; lower tones are rich, upper tones pure and flute-like.

ATLANTA. People who went as Doubting Thomases In Atlanta—and a good many did go in that role—came away convinced that they had listened to perhaps the most remarkable vocal performance of the age. From low, deep contraito tones she went with apparenease, up to the clouds, giving with unmis-takable truth E above high E, almost at octave higher than Patti's highest tone. It estimated that there were 4,000 people

HE ASSISTED IN MOVING PROPERTY.

Doing This Lawrence is Now Charged with Burglary.

J. A. Lawrence, a bicycle repair man doing business at 106 South Fourteenth street, was made a prisoner last evening in a very peculiar case. The charge is burglary, but Lawrence indignantly denies this. Last February H. K. Clover and H. L. Chrismann ran a machine shop located on North Twenty-fourth street near the Belt line. They had a disagreement and decided to part company. In the contract they were to divide the property of the firm in equal portions and each one start in business for himself. Clover alleges that while he was absent from his place of business Chrismanu and Lawrence broke into the shop and took away machinery belonging to himself of the

It is upon these grounds that Lawrence has been placed under arrest on a charge of burglary. Clover moreover alleges that he has never been able to locate the place where the machinery was secreted and tificate becomes more valuable every year. figures that he is out of pocket in the above

Lawrence states that he was hired by Chrismann to assist him in removing the machinery and knew nothing whatever about any trouble existing between the partners. He says they did not break into the place but entered by means of a key which Chris-mann had. Lawrence gave bonds for his appearance later in the week.

Arrested.

PROCEEDINGS OF CITY COUNCIL Special Meeting to Pass the Appro

printion Ordinance for April. It took the city council nearly two hours cesterday to pass the regular appropriation ordinance for April salaries. There was a long controversy as to whether the salaries should be allowed as provided for in the old charter or whether the new law should govern. City Attorney Connell gave t as his opinion that the salaries fixed by the new charter should be paid, but the as contemplated by the old charter were allowed, with the exception of those of the legal department, which were made to conform with the provisions of the new charter. By this proceeding the firemen failed to get their extra pay as provided by the new charter.

ecommended that the items relating to the Gibbon and Buda. salaries of the members of the Board of Fire and Police Commissioners be stricken out. This was done, and then Burkley wanted to know the reason. Benawa explained that there was no question but that hat the new fire and police law was unhould not recognize it until after its statu-

had been settled by the courts. The opinion of City Attorney Connell that he new charter went into effect March 15 and that salaries should be adjusted ac-cordingly was then read. Mr. Connell added that, although the new charter might not be desirable in every respect, it was a law and the old charter had been wined out. The present city officials did not hold over under the old charter, but under the pro vision of the new charter which stated that all existing boards and officers should hold

ver until their successors were elected and Several of the councilmen took the posi tion that the provision last referred to carried with it the idea that the old officials should draw their accustomed salaries dur ing the holdover period. After some disussion the ordinance was recommitted to he committee with instructions to report at once. On its recommendation the ordi-nance was amended as stated above and it assed, Burkley and Flynn voting "No." Acting Mayor Bingham transmitted his first veto. The ordinance providing for the leaue of bonds for the new paying district on South Sixteenth street was vetoed on account of a clerical error in the description

of the property, and the veto was sustained. A new ordinance will be drawn up at once. The pay roll of the Board of Public Works for the week ending April 24 was submitted, with an explanation from Chair-man Munro in regard to items that had been approved by the board over his ob-jection. It was referred to the finance com-

mittee for investigation.
The ordinance introduced by Bechel some ime ago repealing the blanket ordinance of everal years ago, which gave any corporation the right to erect poles and wires on the streets of the city, was read for the third time and passed. Burkley and Flynn

Two documents that have been in comuittees for several months were placed on ile. One was the ordinance providing for a laduct on Twenty-fourth street, which was ntroduced about the time the railroads deided to refuse transportation to councilmen and the other was the petition of Farnam street residents for a transfer from the Farnam street to the South Omaha street car

WILL TALK TO NEW YORK

Telephone Connection Between Omaha and the Eastern City About Completed.

FOURTEEN DOLLARS PER CONVERSATION

Line is Built to Davenport and Officers of the Company Predict it Will Be Extended to Omaha This Summer.

Telephonic connection between Omaha and New York City and Boston will be completed on August 1. This appouncement was made to The Bee yesterday by President C E. Yest of the Nebraska Telephone company The long distance line stretching half way across the continent from the gateway of the new world to the metropolis of the transmississippi country has been in operation between Chicago and the eastern cities for several years. It has been gradually extended westward, the intention being to make Omaha the western terminus for the present at least. The line is now completed a point about twenty miles this side of Davenport, Ia., and it is coming this way as rapidly as experienced workmen can set the poles and hang the wires.

President Yost says that It will be ready or business on August 1 and that the man who desires to transact business in New York can do so through the telephone as easily and as conveniently as he now can talk to his friend in Lincoln or Hastings Still, it is not probable that the line will be used very frequently by men who desire to call up New York just for the fun of the thing. The charges will be somewhat steep amounting to about \$14 for a five-minute conversation. But even with the apparently high rates it is believed that the line will be used frequently by business men. The line from Chicago to New York is almost overburdened with business, although the charges are \$9 for a five-minute conver-

SIOUX CITY WILL COME IN. Omaha will also be placed in telephonic communication with Sioux Citly within a few weeks. The lines of the lowa Telephone company are now being extended south from Sloux City to Onawa and from that point to Missouri Valley. The lines of the Nebraska Telephone company already extend to Missouri Valley and as soon as the lowa ex-tension is completed Omaha will be able to

reach the city up the river. The Nebraska Telephone company, of The Nebraska Telephone company, of which Mr. Yost is president, will make more extensions in Nebraska during the year 1897 than in any other year in its previous history A number of new lines are to be constructed and more than twenty new stations will be added to the already long list. The macouncil thought otherwise and the salaries terial for these new extensions has been as contemplated by the old charter were purchased and work upon all of them will be pushed without delay.
One of the extensions will commence at

Palmyra, in Otoe county, and take in the towns of Douglas, Sterling, Smartville and Tecumseh. Another new line will commence at Elk Creek and run to Table Rock. From the latter point two branches will be built, one running to Pawnee City and the other to The ordinance as submitted was a sort the towns of Humbeldt, Dawson, Salem and of compromise. The Board of Fire and Falls City. The towns of Pawnee City and Police Commissioners had allowed the extra pay for the firemen and their pay roll was incorporated in the ordinance without change. The salaries of the city officials were left as heretofore, except those of the be continued on west to Kearney, taking in legal department. The finance committee, the towns of Alda, Wood River, Shelton

WIRES TO GO UNDER GROUND. In all these many improvements the city of Omaha will not be overlooked. President Yost returned from Chicago the latter part plained that there was no question but that there would be litigation in regard to the validity of the section of the new charter that referred to the board, and then stated that if the salaries were allowed at this time the city might be compelled to pay time the city might be compelled to pay office to Case street and will carry the great them a second time. Wheeler added the festoons of wire which now ornament the sphere in the territory immediately sur hat the new fire and police law was un-constitutional and void, and that the council adjacent to the central office.

The new metallic circuit between Omahand Kansas City is carrying a large amount of business, and there will be even more service when Omaha is connected with New York. When the latter connection is made the only way the Kansas City people can communicate with New York is by way of

ADMITS DESERTING HER CHILD.

Cora Reese Arrested and Arraigned in Police Court. Cora Reese, the 19-year-old mother of the 6-weeks-old biby left on the steps of the Sacred Heart convent a few nights ago, was arraigned in police court yesterday on the charge of cruelty to children. She pleader not guilty and the case was continued a few days. The girl was arrested at her room it Council Bluffs Friday night and was brought

to this city. The conclusion of the case will be watched with considerable interest, as it is the first to be brought under the new law passed by the legislature making it a crime to desert or abandon children. In the past there has been no section in the Nebraska statutes providing punishment for cruelty to children. The new law was pushed by the police and the humans society.

the humane society. The Reese girl says she was forced to get rid of the child, owing to the complaine o her parents. Her father accompanied her and stated in police court yesterday that he did object to the baby. The girl does not The girl does not child. The girl has deny the desertion of her child. The girl has divulged the name of the baby's father and an effort will be made by her relatives to induce her to marry him, which she at present refuses to do. If a settlement is no made in this matter, the man will be prosecuted. He lives in South Omaha,

Severed the Arteries.

Nels Anderson, a carpenter employed on a building in course of construction on North Twenty-fourth street, near Spruce, received a severe wound yesterday while at work. He ran a chisel deep into his wrist, cutting the veins and arteries. Bystanders ran to his aid, but he lost con-sciousness from the great loss of blood. He was removed to a neighboring drug store, where he was attended until the arrival of a physician. With some difficulty the flow of blood was finally stopped and was removed to his home at Twenty-sixth and Chicago streets.
