Stops the Family Horse and Saves

His Master's Good Name. The intelligence of a little solte of a dog and his excipctic efforts to stop a runaway horse attracted a great deal of attention on Brondway yesterday afternoon. The horse an old fashioued sedate family animal, took fright and ran away after its owner had entered a store to do come shopping. The little dog was comfortably dozing on the scat when the horse started, but he quickly awakened to the fact that the old horse was scandalleing the family and putting property into jeopardy by running away. The little dog sat up in the seat and raised his voice in a serious of shrill shricks, calling upon the borse in the plainest of dog language to behave himself. The borse paid no attention to the canine commands but went lumbering down the street. The heroic little dog scemed to realize that something must be done to prevent disaster, although the old horse was picking his way very carefully and avoiding contact with other vehicles, and with a parting yelp the little dog sprang over the wheels. He turned a dozen somersaults when he struck the pavement, but without waiting to shake the dust from his little coat rushed in front of the horse and made the most desperate efforts to spring up and catch the swinging reins. The little fellow's yelps were still such shrill shricks that the attention of everybody on the street was attracted. After dozens of failures the dog succeeded in catching the reins with his teeth, and held The old horse trotted a block further with a pound and a half dog swinging on the bridle reins and then stopped and endeavored to push the little animal loose with his nose. FINDS LIONS IN HIS CELLAR. Strange Inhabitants of a California

Man's Home.

SAN FRANCISCO, May 4.-The cellar of a house inhabited by human beings is a strange place for wild beasts to make their home, yet this has happened far back in the hills near Sunol, Alameda county, where Antonio Nunez, a farmer, lives with his family. Antonio is a thrifty and industrious man and has prospered. Two weeks ago he moved from his old home into another house that had not yet been occupied. For several days after Antonio and his family moved into their new home they heard strange sounds coming apparently from the cellar. As Anonlo was busy with his farm work and those at the house were engaged in setting things to rights, no effort was made to ascertain the cause of the sounds. But when day after day passed and the noise from the cellar did not cease, Nunez determined to make an investigation. Though courageous, Antonio is discreet, and he called in a few friends to his assistance. Armed with shot-guns they made their way into the cellar, They had hardly reached the side of the stonewalled place when from the space beneath the stairway bounded a splendid speciof a California lioness. Before a shot could be fired the animal escaped through the

A second later and the lion, a big, ugly beast, made a jump for the stairway. But this time Antonio was ready, and killed the

animal at the first fire. While his friends stood guard at the door-way Antonio made a search underneath the stairway, and found four cubs. They were as comfortable as kittens, having an old coat and a quilt for a bed. Nunez took the biting and scratching cubs upstairs, and for the rest of the day and far into the night waited for the lioness to return, but the brute did not come back. Nunez is going to try and raise the cubs. The dead lion measured six reserve, but at 11 o'clock Duchesse de Alenfeet from tip to tip.

It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleas ant necessity of being compelled to get up many times during the night to urinate. Honest Vs. Dishonest Advertising. A pleasant feature of the advertising put orth by the Royal Baking Powder company frequently commented upon by consumers, is the absolute confidence that may be had in the truthfulness of all its claims and stateats. There is evidently the same care and accuracy in the framing of the Royal adver-tisements that there is in the compounding

of the Royal powder. It appears, unfortunately, that not all baking powder people are to scrupulously careful. The recent letter from the judge of awards on Baking Powders at the Chicago World's fair, exposing the falsity of the claim of another house that its baking pow-der had received the highest reward for strength, purity, excellence, etc., is a scath-ing rebuke to those manufacturers of inferior baking powders who have no regard for th truth, but habitually seek, in their public announcements, to deceive consumers. Total receipts for both the month and the year to date show a handsome increase over 1896, and from all competitive points a marked increase. The enlargement of the sheep market is shown by the heavy increase of supplies, which always go where good prices are paid. Nebraska makes a good showing of return to normal conditions by the largely increased marketings of all kinds of live stock. The increase last month from Kansas and Missouri was very flattering. The records show an increase of 17.986 cattle 25,196 hogs, and 48,725 sheep over April, 1896.
