

TROUBLE IS JUST STARTING

Row at the Beatrice Institute Far from Being Settled.

DR. FALL WILL MAKE A HARD FIGHT

Does Not Intend to Give Up His Position Even if the Board Does Insist on His Resignation.

LINCOLN, May 4.—(Special.)—The trouble at the Institute for Feeble-Minded Youth is not yet over. In fact, many think it is only just beginning. The resignation of Dr. Fall has not been received, and at last accounts the superintendent of the institution was adhering to his resolution to resist the action of the board in asking for his discharge.

Today one member of the board stated that the attorney general had guaranteed to have the resignation forthcoming by tomorrow, but so far Mr. Smyth has not made public the arguments he will use in getting the desired document. In the meantime Dr. Fall is doing his best to prevent the appointment of Mr. Sheridan to any position in the future by making some very sensational charges against the late steward.

ANOTHER "CLERICAL BLUNDER."

The bill providing for the appointment of a state printing expert carried with it no appropriation for the salary of such officer. In the last session the conference committee inserted in the bill appropriate \$12,500 for state printing the words "and for such clerical help as shall be necessary" and the attention being thus provided a way for the payment of a salary to the expert.

Dr. H. W. Webster, superintendent of the Girls' Industrial Home at Geneva, has sent a very good report to the Board of Public Lands and Buildings. He says that since he took charge of the institution, March 1, there has been a great improvement in its condition and in the conduct of the girls.

ADAMS COUNTY'S PREDICAMENT.

County Treasurer Lyman and two members of the county board of Adams county were here today to request the Board of Educational Lands and Funds to allow their county to invest a part of its funds in Adams county bonds, now held by the state.

The State Banking Board made an important decision today, relating to banks in the hands of receivers. It was decided that it is the duty of the attorney general to look after the interests of the depositors in such cases, the aim of the board being to protect the interests of the institutions, and to provide a protection to depositors who have heretofore been obliged to pay attorneys' fees in order to be heard.

For the information of attorneys, an extract from rule 9 of the supreme court, with reference to the time for filing appeals, was served and filed. It is printed here:

Within twenty days after the docketing of a cause in this court, and in the same time after the docketing of a cause in which the party holding the affirmative shall furnish a brief in support thereof, to the opposite party or his attorney in reply thereto, who shall be served within twenty days after service of the brief, and the same shall be served within twenty days after the expiration of the time allowed for the filing of the brief.

The coal rate case brought by George W. Gribben against the Missouri Pacific Railroad company, which was argued before the State Board of Transportation yesterday, was again postponed by mutual consent of the parties, the state board of Missouri now continuing the hearing on the same case. It is charged in the complaint that the rate on nine coal from Panama, Mo., to Lincoln is too high.

The case of A. O. Wyman against the National Bank of Commerce of Omaha, involving the \$35,000 deposited in the bank by the old Nebraska national company, will be argued orally before the supreme court tomorrow morning.

LINCOLN NOTES. Ross Curtis, a Lincoln business man who thoughtlessly rode his wheel on the sidewalk yesterday evening, was arrested and brought before Judge Waters this morning. His case was continued until tomorrow morning at 9 o'clock, after having given a bond and set up a box of cigars for the police force.

The Lincoln Light Infantry organized a bicycle corps last night. The following officers were elected: President, Ed H. Wilkinson; secretary, F. E. Hurd; captain, E. J. Straight; first lieutenant, H. H. Morse; second lieutenant, L. H. Morse; bugler, D. J. Waldron. The company's colors, purple and gold, were adopted as colors of the corps.

The annual meeting of the Lancaster County Aid Society association will be held at the council chamber, Saturday afternoon. Officers will be elected and arrangements made for the annual picnic. Any one having lived in Lancaster county fourteen years or more may become a member of this association.

Second Presbyterian church has commenced a series of revival meetings. Billy Sunday, the base ball evangelist, has been engaged to assist in the services. The lecture on "Expendency of Continuing the National Banking System," which was given by N. S. Harwood at the University tonight, has been indefinitely postponed.

FINDS GOODMANSON GUILTY

Pender Physician Declared by a Jury to Have Poisoned His Wife.

SENTENCED TO IMPRISONMENT FOR LIFE

Persons Who Heard the Evidence Hold the Opinion that the Case Against the Doctor Was Convincing.

PONCA, Neb., May 4.—(Special Telegram.)—The verdict in the noted wife poisoning case against Dr. J. Sidney Goodmanson was pronounced this afternoon at 5:15, and the prisoner about two hours later was found guilty and sentenced to imprisonment for life.

Meil C. Jay of Dakota City closed the argument for the state. The jury retired at 5:30, after the court had given the instructions, and at 7:30 p. m. returned and announced that they had agreed upon a verdict. The prisoner and his attorneys were hastily summoned and as the jury filed into their box, an ominous silence prevailed through the entire court room.

We, the jury, duly empaneled to try the case of the State of Nebraska against Joseph Sidney Goodmanson, do find him guilty as charged in the information, and fix the penalty at hard labor for the period of his natural life. The verdict was returned while the verdict was being read the prisoner bore himself with the same composure that has characterized his actions throughout the trial.

Thieves Are Followed and Whipped.

WINSIDE, Neb., May 4.—(Special.)—A person who made himself notorious here last winter, returned to the village Saturday night last in company with two strangers.

There has been numerous beavers stolen near Elgin during this winter and one very fine cow stolen from Mrs. Ingram, a lady here in town. He was several fat dogs and other small articles.

The hide of Mrs. Ingram's cow was found and she identified the same as hers. The man who was charged with the hide was taken to jail Sunday night and brought back Monday morning for preliminary hearing.

DR. FALL GETS AN INJUNCTION.

Secures an Opportunity to Be Heard Before Being Removed.

BEATRICE, Neb., May 4.—(Special Telegram.)—That Dr. C. P. Fall, superintendent of the Institute for Feeble Minded Youth, does not intend to peacefully give up that position was evidenced today, when Judge Letton torneys appeared before District Judge Letton and asked for an order restraining and restraining the State Board of Public Lands and Buildings from removing him until he can have a hearing on the 12th of this month.

Dr. Fall's friends say the change will be effected until the new law, giving to the governor the power to appoint, goes into effect, and then Governor Holcomb will appoint Dr. Fall, and then the new law will be in effect and that the plan is to get rid of Dr. Fall and permit Mr. Sheridan to remain in possession of the stewardship.

Election of Teachers at Fremont.

FREMONT, May 4.—(Special.)—The Fremont school board held its regular meeting last evening and elected the teachers for the coming year. The old corps were nearly all appointed. No action was taken on salaries and the teachers were not assigned to positions. The decision of the supreme court on the constitutionality of the free high school law gives general satisfaction to the school board, the expense for tuition in the Fremont high school being more than the amount fixed by the law. Non-resident pupils have paid tuition and will continue to do so. There are yet a few vacancies to be filled in the list of teachers.

One of Mrs. Pinkham's Talks

Concerning a Mother's Duty to Her Young Daughter. Together with a Chat with Miss Marie Johnson.

The balance wheel of a woman's life is menstruation. On the proper performance of this function depends her health. Irregularity lays the foundation of many diseases, and is in itself symptom of disease. It is of the greatest importance that regularity be accomplished as soon as possible after the flow is an established fact.

Disturbance of the menstrual function poisons the blood. In young girls suppression develops into inherited tendencies to scrofula or consumption. At no time must be lost in restoring regularity. Many a young girl goes to her grave because this difficulty has been thought lightly of, and mother has said, "Time will bring about a cure; she is young, I don't worry about her."

Mother, when you see your daughter languid and indifferent to things that usually interest a young girl, when you note that flush on her cheek, that glassy appearance in her eyes; when your daughter tells you that even the weight of her dress waists oppresses her, and that she has terrible pains in her stomach shortly after eating, don't ignore these signs. If you do, you will be following your daughter to the grave, for she will die!

This is gospel truth—she is developing consumption of the bowels! Lydia E. Pinkham's Vegetable Compound is the greatest regulator known to medicine. Make haste to use it on the first appearance of the tell-tale symptoms; it will restore all the female organs to their normal condition. Miss Marie Johnson's letter to Mrs. Pinkham, which follows, should interest all mothers and young ladies. She says: "My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I would have the headache so badly that everything would appear black before my eyes, and I could not go on with my studies. I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity. Words cannot express my gratitude, and I cannot thank you enough for your kind advice and medicine."
