Rev. John Dale's Sermon

Rev. John Dale of Omaha occupied the pulpit in the Broadway Methodist church yesterday morning. The first lesson was taken from one of the Psalms and the second was the description of Pentecost. In the beginning of his sermon he drew a wordpicture of Christ in Gethsemane, the cross and the surroundings and trials of the disciples up to the day of Pentecost. He re-viewed the actions of the disciples before and after Pentecost and brought out very forcibly their weakness before and courage and strength after the crucifixion. He used this as an example of strength to which, he said, it was possible, with God's help, for the Christian of today to attain. He re ferred to several instances of history which were strong examples of courage, and added: love this part of man's nature called courage! How I admire little Greece for her courage at the present time! Shame shame on the powers of Europe that will allow such an outrage to be perpetrated during this Christian era by any people." In speaking of power he referred to the power of nature that could resurrect the vegetable and plant life from its wintry

grave. He referred to Niagara as an example of the aggregate power of little drops of water and said that at some future date it would move machinery for 500 miles around it. "Think of the aggregate power of the churches," said he; "think of the power of one church, yea of one individual! Why, I knew Mr. Moody when he was only a drummer on the road for a Chicago house By God's help and by using the power he already had, he has made himself what he is today-the most powerful evangelist of his

SHERIFF AS A HORSE TRADER

SMOOTH WORK BY A BOLD HORSE THIEF

Real Estate Agent Hutchinson is Out a Critter Beenuse of a Very Peculiar Transaction on the Highway.

Sheriff Morgan had an exceedingly unpleasant duty to perform yesterday, but he performed it grimly and without hesitancy. Saturday afternoon he found himself in the discharge of his official duties afoot and in the vicinity of Loveland, fifteen miles from home. He was anxious to get home, but was obliged by the condition of things to watt for a train or walk. While waiting for the train, D. J. He made the contemplated call on the real estate man, but he did not extend the contemplated congratulations. The two men compared the descrip-tion of the stolen horse with the marks on the animal that helped to haul them from Loveland. There was no room for doubt, and the sheriff had to take possession of the horse. "I know a good horse when I see one. and I thought I could tell a horse thief when I got close enough to him," he remarked apologetically to Hutchinson, as he led the horse away.

The work of organization included the section of a name for the new congregation Following the usual custom the name of this branch from the parent church should have been the Second Christian church of Council Bluffs, but the members concluded to go it entirely alone, so far as the name was erned, and called the organization the Cencerned, and called the organization members tral Church of Christ. Selection of members to constitute the official board resulted in choosing for elders J. R. Speck, J. L. Mabie choosing for elders J. R. Speck, J. L. Madic and Dr. A. H. Carter. The clerk and financial sec-retary is Miss Edith Bonham and the or-

Looking Over Lake Manawa. Among the many people who drove to Lake Manawa yesterday were several members of the boat club and other owners of fast sail ing craft. The stage of water and the pleas ant breeze made nice sailing. Visits were made to the outlet of the lake and the ruined dam was inspected. Among those present were a number of experts and they took occasion to make soundings and measurements and figure on the cost of reconstructing the dam. It was found that if the work were done soon the cost would not exceed \$200, but if the water is permitted to flow out until the current flowing through the break becomes shallower and swifter, the breach will be made so deep that it will require a great deal of additional work t The current was pouring throug the break yesterday at the rate of ten miles an hour. The outflow has afforded great facilities for the fishermen to catch the strange fish that have found their way into the lake with the recent high water. They have barricaded the whole outlet with dead-sure fish traps, and manage to get every fish that attempts to pass through. One twenty foot hoop net was observed yesterday completely filled with fish. Some of the boatmen who examined it estimated that it contained at least a big two-horse wagonload of all kinds of fish.

In this work no attention was paid to the location of streets and alleys, and consequently a number of residents over in that neighborhood filed complaints with the mayor. Chief Brennan was sent over to ascertain if the company was plowing up the streets as reported, and if so to put a stop to the work. Jones and Davis Combine to Bar Zeigler from Winning_One of the Events Proves a Farce.

SAN FRANCISCO, May 9.—The bicycle races at the Velodrome today were well attended, but the sport was rather tame and with the exception of the two-thirds of a mile professional failed to arouse enthusiasm on the part of the spectators. The final of this event resulted in a spirited contest. Zeigler was the first to catch the pacemaker, closely followed by Jones and Davis. The latter two by clever maneuvering succeeded in dislodging the "Little Demon" on the fifth lap and before the latter could straighten himself out for the final sprint Jones and his team mate were a dozen yards in advance of him. Jones won by two lengths, while Davis just lasted long enough to beat Zeigler for the place.

The two mile post race, professional, proved a farce. Zeigler easily secured the first four points, but Jones and Davis resorted to team work and as a result Davis secured a lead of fully half a lap. It was practically impossible to catch him at this stage and he secured the remaining six points and the race. Summarles: points and the race. Summaries:

Mmc. Teresa Carreno, the great planiste, who will give a concert at Boyd's thea er next Thursday evening, is at present one of the leading musicians of the world. Her success this season has been phenomenal. The following notice about her playing is from the Chicago Tribune: "At the close of the program the enthusiasm of the audience burst all barriers. Again and again the artist was called to the stage. She gave as an en-core 'The Campanella' of Liszt, which was played as it was never heard here before. The appreciative demonstration of the audience increased and Mme. Carreno again, choosing her own 'Little' waltz, and for a further encore played the closing part of the sixth Rhapsodie. Again she was recalled. People swarmed upon the stage, surrounding the piano, and Mme. Carreno re-peated the Chopin waltz. She was hugged and kissed by her impulsive sisters, and some one proposed 'three cheers for Carreno,' which were given with a will. No artist has witnessed such a scene in Chicago as the ova-tion given to Teresa Carreno." The sale of seats for the concert will commence at 9 o'clock this morning at the box office.

Conference Report on Indian Bill Likely to Evoke Debnte-Lively Oratorical Displays Probable in the House.

WASHINGTON, May 9 .- There is no certainty as to the line of procedure in the senate during the present week. The Morgan Cuban resolution will probably be taken up Monday and it may lead to a prolonged and spirited debate. Senator Morgan is quite determined to press the resolution to an issue and Senator Hale just as determined to prevent its passage. Mr. Hale undoubtedly will move to refer the resolution to the committee on foreign relations, and an effort will be made to enlist the friends of the administration against it. The committees will be filled Monday or Tuesday, but as this will be done on the basis heretofore agreed upon, there will be no friction over the proceedings. The conference report on the Indian appropriation bill may cause some debate, but the probabilities are that the agreement of the conferees will be generally equiesced in.

The house program of three-day adjourn ments will be suspended this week. sundry civil appropriation bill has passed the senate and now returns to the house for action on the amendments. TO EXTEND MAIL FACILITIES. Suburbs of Large Cities to Be Given

Better Service. WASHINGTON, May 9 .- A vigorous policy of extending mail facilities for the suburbs of the large cities as far as possible by both steam and electric cars has been adopted by Second Assistant Postmaster Shallenbarger. Many of the big cities will be given material additional service for the outlying districts if the citizens of those points cooperate with the department to make it a ccess, and the statement will be a welcome announcement to numerous places where feeling is evinced that the demands of the suburbs are not met. Mr. Shallenbarger is giving the matter careful attention, and as an initiative has just made contracts at Pitts-burg, Pa., for additional train service to various suburbs there within a range of about thirty miles from the city, where from one to three mails a day will result. Electric cars will figure largely in future postal operations, owing to the large number of settled districts where the steam roads do not touch.
