The city council and the Board of Edu cation will meet tonight. The school board will meet in regular session, and in addition

to the regular business will make the final preparations for the graduation of the High

The motor people found it necessary to increase the train service and shorten the time of the regular trips. The park is very beautiful at all times, in the case of Denny against the City of but at this season of the year its attractive-ness is greatly enhanced by the brilliancy of the vegetation.

The dedication of the new church building erected by the congregation of St. John's Lutheran church drew a large attendance. The church is a handsome structure of pressed brick and stone, located on the corner of Willow avenue and South Seventh street. The church has been built largely through the efforts of the pastor, the Rev. G. W. Snyder, who has been working most earnestly for the last year to secure the necessary means. It is a great satisfaction not only to the congregation but the pastor and his friends to know that every dollar of the debt has been provided for.

D., May 10-I write you in hoics to set a wronged person right, even at this late day. You remember the little boy who was drowned in the reservoir about three years ago. I do not remember the name, but I believe you were acquainted with him and you know what unjust things were said of the adopted mother at that time, but Bertie tells me now he saw him fail in the water. It seems strange he should keep it to himself so long and then tell if, but it came about this way: I was cautioning him against going into the water here, and told him he did not realize the danger as i did, for he had never seen any one drown, and he said "Yes, I did; I is w that boy in Hamburg," and when I began to question him he told me that they were looking at the tonds and things on the edge of the water, and the little boy crawled in through an opening in the wire and went down to catch some of them and fell in, and he began to cry, and he (Bertie) ran home and was afraid to tell us, for we had forbilden him to ever so up there. He was between 6 and 7 years oid, and out among the children at play and probably did not hear or understand the talk that was going the rounds about it. I am very sorry he could not have told this at that time, and I Denny's case was very similar to a great many that are now being prosecuted in the district and superior courts of this city, where the property owners have made no effort to pay their taxes for the reason that they believe the property is worth less to

them than the amounts charged against it on the tax books. In the briefs laid before the supreme court the question was raised as to hear or understand the talk that was going the rounds about it. I am very sorry he could not have told this at that time, and I trust to you to find those people and let them know of this, and that the people in Hamburg may know that no wrong was done (only a neglect on the part of the city in leaving the fence in a condition that any child might fall into a death trap.
