NO MORE DODGING POLL TAX

City Council Announces Its Folicy in Regard to Collection.

INTENDS TO GET IN EVERY DULLAR DUE

Collector Blood Authorized to Go to the Full Extent of the Law to Secure the Money or Labor.

"We have a poll tax collector this year, and we are going to collect all of the poll tax that belongs to the city," remarked Alderman Casper yesterday. "The council will back Mr. Blood in his efforts to collect this tax, this, her first stellar tour. During her and there will be no question whatever about the Grand hotel this evening for the purpose of arranging for the first matinee, to be given in a short time. cuted. The law is not burdensome, and bill for the first two nights of Miss Cayvan's there is no question about its justness and stay and "Mary Pennington, Spinster," will its constitutionality. We do not intend to keep Mr. Blood at work playing hide and seek with delinquents. Where notices are properly served, payment will be enforced

where it is resisted." The city ordinance under which the poll tax collector operates was passed by authority of section 939 of the code. The same law also provides for the levying and collecting of the tax by the county authorities. An examination of the state laws on the subject, shows that section 1498 of the code, governs the manner in which poll tax notices shall be served. The road supervisor must give at least a three days' notice to the person liable to the tax, to appear at the place designated with the proper tools, and perform two days labor on the roads. In cities of the first-class, the place of the road supervisor is taken by a commissioner or collector, acting under the authority of the Board of Public Works and the council. On the matter of serving the notices, depends largely the ques-tion, whether the roads are collective. tion whether the poli tax is collectible. Section 1498 fixes the penalty for those who fall to work out the tax. In case a person is notified, and falls to appear within three days, he is given two more days in which to appear with an excuse. If, at the expiration of five days, he does not appear, he is liable to a forfeit of \$3 per day for each day he fails to do so, for ten days. If at that time he has not appears. he has not appeared, then the road super-visor may recover by action at law, in the name of the road supervisor. The city has a similar power, though it is never exercised.

The treasurer is given his authority by section 1502, which says: "If it appears that any person has falled to perform the two days' labor required or any part thereof, and that the supervisor has registed to called the amount in money as reglected to collect the amount in money re-juired to be paid in case of such failure, the clerk shall add the amount to be paid in case of such failure to such persons prop-erty tax and certify the same as required in

A dozen of the neighbors crowded around the reporters and the officers and whispered the reporters and the officers and whispered some rather sensational things concerning the cause of the woman's illness. May Buy Another Grader. The Board of County Supervisors may soon

arrive at the conclusion to purchase another \$1,000 road grader machine. The one already purchased and in operation has given such great satisfaction that the demand for a sec-ond one has been created. The resolution of the board authorized the purchase of one or more of the machines, but at the time the first was ordered, there was such a feeling of timidity among the members for fear the machine would not prove to be a wise investment, and be used as the basis of political criticism in the future that any oppo-sition would have prevented its purchase. But this fear has now been allayed and a strong sentiment has grown up favoring the purchase of at least one more of the ma-chines. Pottawattamie county is nearly fifty miles long and forty wide, and the great amount of roadway to be built would make it several years before the grader could get over the county. The work done by the new machine so far has been confined to the east end of the county, and the members of the board, who represent that portion of the county, are being overwhelmed with requests to keep the machine there, and keep it at the work and buy another for the west end. There does not appear to be any objection to this demand from any source, and it is probable that the board will act favorably upon it.

The supervisors have been engaged all week on a stretch of bad road in the vicinity of the old Chautauqua grounds, praparing it for the grader. A number of the abrupt hills are being cut down, and the earth carried into the low places. Beyond the soint where this work is bring done there is a stretch of low flat roadway, where the grader.

the world's record for four miles.

Splendidly ridden by Jockey Clawson, a clever lightweight pilot, and paced by Peter II over the third mile and installator the fourth, both of the horses owned by Boots, Lucretia Borgia covered the distance in the wonderful time of 7:11 and that, too, in the face of a strong wind blowing down the back stretch.

The record for four miles against time has stood for nearly twenty-one years, having been made by Ten Brock, the celebrated long-distance horse, on September 27, 1876, at Louisville, Ky. The competition record for the same distance has stood for twenty-three years at 7:19½, made by Felloweraft at Saratoga on August 20, 1874.

The following morning he reported that "Mrs. Hazard had taken a great fancy to Postum," but would give no opinion one way or the other of how Mr. Hazard regarded it. The fourth or fifth morning after, he was moving around from desk to desk in their great office on Hudson street, when one of he oldest travelers of the house said: Hazard, I hear you have tried Postum Cereal Food Coffee, what is there in it?" "Well, I'll tell you, George, this is the fifth morn-ing I've had it for my breakfast and it is on ing I've had it for my breaktast and it is on my table for good.
