COMMERCIAL AND FINANCIAL!

Everything Shows Weakness on the Grain Market at Chicago.

BEARS HAVE THINGS THEIR OWN WAY

Prospect of Another Large Wheat Crop is the Main Factor, and This is Alded by Wenk Outside Markets.

CHICAGO, May 27.-Weak outside markets and a fast growing belief in another large wheat crop made easy sailing for the bears today and caused a decline of %c. Corn lest %6%c of its previous value and oats closed a shade lower. Provisions ruled heavy, but closed at only trifling declines. In wheat the tendency of the price was downward for the most part, although starting firm and a little higher than it closed

yesterday. July was wanted at the opening at from 70c to 70%c, but the shorts covering caused this little spasm of strength were so freely accommodated that the mar ket soon drooped, the price by 19:30 getting down to 5%c. A slight reaction followed. but about 11:30 the market got an increase of heaviness and broke its crevious bounds reaching 69%6694c by noon. The early news was not of a character to influence the market much either way. The decline at Liverpool was scarcely the equivolent of the drop here and at any rate. From having been expected, it did not attract much attention. Receipts at Chicago were four carloads and quantity inspected out of store was 53,000 hushels. The Minneapolis and Duluth receipts were 404 cars, against 185 a week ago and 428 on the corresponding day of the year before. Export clearances of wheat and flour from the seaboard were only moderate at 265,000 bushels. The weather being still favorable, the traders saw in anticipation a large crop harvested. The hearness of cutting time in Texas and Oklahoma was used for all that could be got out of it and for much more than it was worth to scare the buils. A break of ic at St. Louis, caused probably by the nearness of the time when new wheat will come on that market, went a long way toward accentuating the weakness of the local murket. The trade was active while the break was in progress and it continued in a nervous condition for half an hour thereafter. July recovered from 69½n694c to 69½n694c then dropped to 69½c and kept close around 69½c for a time before it disped to 69½c. The latest trading was at 694c.

Corn was weak, with prices averaging 3½c under yesterday's close. The talk was that receipts next week will, average 900 cars a day. There was a big cash trade, but holders of futures liquidated and the market was lower from the start. Receipts were 734 cars. July opened a shade lower at 24c, soil at 246;24½c, then declined to 23½c, where it closed.

Oats were steady at a shade under yesterday's close, the slight decline be ing the market much either way. The decline at Liverpool was scarcely the equivolent of the

Oats were steady at a shade under ye

caused by local receipts of 453 cars. The shipping demand was not -s good but offerings west showed a falling off. Good suport was given the market at the decline. July opened unchanged at 17426178c, declined to 178c and recovered to 178c, where it closed.

it closed.

Provisions were oppressed by a large run of hogs and the weak grain markets. Liquidation and some short selling caused an early decline, but before the close nearly all of this had been recovered. At the close July pork was 2½c lower at 38, July lard a shade lower at \$3.60 and July ribs about 5c lower at \$4.32\frac{1}{2}464.35.

Estimated receipts Friday: Wheat, 6 cars: corn, \$50 cars; oats, 560 cars; hogs, 25,000 head.

Demand Good and Business Reasonably Brisk at Stendy Prices. Hogs Sell Slowly at a

Five-Cent Decline. SOUTH OMAHA, May 27.—Receipts for the days indicated were: 1,524 1,908 1,854 1,716 3,130 3,060 2,070 1,176 2,443 2,240 2,772 3,294 8,652 8,377 7,501 6,621 9,670 1,418 4,235 5,349 6,705 5 403 3,293 3,271 1,715 1,539 6,916 2,390 The official number of cars of brought in today by each road was: Cattle, Hogs, Sheep.

Total receipts The disposition of the day's receivts was as follows, each buyer purchasing the num-

ber of head indicated: Cattle. Hogs. Sheep 1,863 202 1,630 119 643 3,514 40 349 2,914 5,800

Totals 1,450 CATTLE-After the runs of the past two days the receipts looked small this morning, as there were reported in only fifty-nine loads, as against 157 yesterday and 185 on Tuesday. About half of the cattle were cornfed beeves of fair quality, but nothing year, axis. the were cornfed beeves of fair quality, but nothing very extra.

The demand was good for all kinds of cattle and the market reasonably active, so that an early clearance was effected.

Desirable cornfed steers commanded strong yesterday's prices and the market was at least steady on other kinds. The most of the cattle were sold at \$4.00\alpha 4.30.

Butchers' stock sold freely at steady to strong prices and the demand was sufficient to soon absorb the ten or a dozen loads on to soon absorb the ten or a dozen loads or Stockers and feeders sold at about yester

NATIVES.

England, the deficiency in temperature being very slight, generally from 1 degree to 2 degrees, except over a few limited areas, where it ranged from 3 degrees to 4 degrees. On the guif coast and over the southwestern districts from Texas to southern California nearly normal temperature conditions prevailed, although for the most part there was a very slight excess. Over the northern portion of the guif states and generally throughout the Mississippi valley the temperature excess ranged from 1 degree to 4 degrees, and from the Missouri valley westward over the northern Rocky mountain and plateau regions, including the interior of northern California, generally ranged from 6 degrees to 9 degrees, being greatest in northern California. There was also a slight excess on the southern New England and middle Atlantic coasts.

The minimum temperatures of the week were below freezing in the western portions of the Dakotas and northern Minnesota; throughout the central vaileys and middle Atlantic states they generally ranged from 40 degrees to 50 degrees, and in the guif states from 55 degrees to allove 60 degrees.

East of the Rocky mountains the highest temperature of the week, 98 degrees, occurred in the south Atlantic and east guif states, and in the south Atlantic and east guif states, and in western North Dakota. The highest temperature of the week, 98 degrees, occurred in northern California and in Alixonia.

Over much the greater part of the country the week ending 8 a. m. May 24 was drier than usual. Except over portions of central and eastern Texas there was an almost entire absence of rain in the southern states, with only light showers over the greater portion of the lower Ohio, lower Missouri and central Mississippi valleys. In the states of the lower Mississippi valleys, In the states of the lower Megland and the middle Atlantic states the deficiency amounts to half an inch or more.

In the lake region and over portions of the middle Atlantic states the rainfall exceeded the average for the week, as marked .1162 3 26 .740 3 25 .1150 3 25 .901 3 25 .935 3 25 .883 3 25 .1950 3 50 .1154 3 60 .1370 3 65 HEIFERS. ... 612 3 50 ... 621 3 65 ... 628 3 65 ... 640 2 65 ... 650 3 70 ... 720 3 75 .1825 3 10 1240 3 15 1150 3 15 1350 3 15 .1350 3 20 1900 3 25 .1410 3 25 .1680 3 25 .1850 3 25 . 630 3 25 .1680 3 35 .1770 3 35

HOGS-Receipts of hogs were liberal again today, though considerably smaller than yesterday or the day before.

The market was lower, the decline amounting to 5600c, and the big string of hogs sold at \$3.55, as against \$2.60 yesterday. Salesmen were a little slow to cut loose at the decline, but when trading was once under way the market was fairly active, the great bulk of the hogs changing hands early.

The market has been lower every day this week so far. After a slight reaction on Thursday and Friday of last week the market started down hill on Saturday, and has kept up the pace ever since. The args sold today a strong 26c lower than on Friday of last week and 45c lower than on the first of the month. Representative sales:

able for some crops, while the need of rain is beginning to be felt in the central Mississippi and lower Missouri valleys and in the south Atlantic states.

Cotton has experienced general improvement in Texas and has made rapid advancement over the southern part of the state, where squares and bolls are forming. Decided improvement is also reported from Alabama, with favorable reports from Arkaneas and Georgia. Cool nights have proved injurious in Tennessee, and but slight improvement is reported from Louisiana, where the plant is sickly and is being injured by itc. While cool nights have unfavorably affected the crop in Mississippi it snows improvement. In the Carolinas the plant is small but healthy.

In Indiana and Ohio, where corn planting has been made during the week. Planting is well advanced in Michigan and continues in Wiscorsin, Minnesota and North Dakota. Cuitivation has begun in routhern lilinois, Iowa and Nebraska, where planting is practically completed. Considerable replanting is necessary in Nebraska, where planting is practically completed. Considerable replanting is necessary in Nebraska, Missouri, Illinois, Kentucky and portions of Kansas, owing to poor stands. Cool nights have proved unfavorable in the Ohio valley, Tennessee and east Gulf states.

The promising conditions of winter wheat previously reported in the middle Atlantic states and Tennessee continue, but in Kentucky the outlook is less favorable than in the proceeding week. In Kansas the crop is much improved complaints of chinch bugs are reported from Missouri, and in Illinois the crop is unimproved and some fields are still being plowed up for corn. Harvest has begun in Georgia and Texas and will soon begin in Arkansas. In Washington the crop is needing rain, but in Oregon and California the conditions have been favorable. Spring wheat has male good progress in Iowa, Wisconsin, Minnesota and South Dakota, although needing rain in some sections of the last ramed state. In Norta Dakota the crop has made but little improvement.

from \$5.25 to \$5.30. Choice cattle were scarce and steers sold mainly at from \$4.30 to \$4.80. The stocker and feeder trade has fallen off this week, but prices are still high, with sales at from \$3.70 to \$4.55. Butchers' and canners' stuff continues in moderate supply and in good de-mand at somewhat lower average prices. Calves were slow and fully 50c lower than earlier in the week INDIAN TEACHERS' CONVENTION.

were slow and fully 50c lower than earlier in the week.

In hope prices suffered a further decline of about 5c per 100 lbs. Heavy and medium weights were numerous and there were fewer lightweights than usual. Sales were made at an extreme range of from \$3.25 to \$3.624, the bulk of the hogs crossing the scales at from \$3.25 to \$3.60. Heavy packing lots sold at from \$3.25 to \$3.45 and prime light hogs brought \$3.624.

With an active demand, prices were strong for sheep, but weak for lambs. Sales were on a basis of from \$2.50 to \$5 for inferior to fance, sheep, few going as low as \$3 or above \$4.75, for fat native sheep were again scarce. Texas sheep were numerous and in demand at from \$3 to \$3.56. Sales were on a basis of from \$3.25 to \$3.55 for the poorest to the best lambs, while spring, lambs brought from \$4 to \$5.

Receipts—Cattle, \$5.50 head; hogs, 40,000 head; sheep, 12,000 head. Supt. Hallman Consults Omaha People About the Gathering. W. N. Hatiman of Washington, D. C., superintendent of the Indian schools, is at the Murray. He comes to the city to complete arrangements for the convention of Indian trachers to be held in Omaha on July 12-17. He has been on a visit of inspection to many of the schools in the west and northwest and leaves here this evening for Washington He will consult today with some of Omaha's citizens who have interested themselves in the coming convention. Upon his return to Washington he will complete the program for the convention, which will then be given to the public. Mr. Hallman expects to be present during the entire convention and an-KANSAS CITY, May 27.—CATTLIS—Receipts, 5,000 head; best barely steady, others weaker; Texas steers, \$2,75074.00; Texas cows \$2,75074.00; native cows and heiters, \$2,00674.25; stockers and feeders, \$3,25074.85; buils, \$2,50674.25; tleipates that the meeting will be a great gathering of people who are employed in

Total amount of transfers

PROGRESS OF THE GULF ROAD

Mortgage Given with Which to Secure Money to Construct the Line.

TRUST DEED HAS BEEN PLACED ON FILE

Parties in Interest Are Those Wha Furnish the Money for the Construction of the New Line to the South.

Another evidence of the progress being made by the Kansas City, Pittsburg & Gulf railroad is offered by the filing of a mortgage, or trust deed, for \$15,000,000, conveying all rights of the Omaha, Minneapolis & Buffalo Railway company to the Missouri, Kansas & Texas Trust company of Kansas City. The former company has no railroad, nor part of a railroad, in operation. It was incorporated to build a railroad from Omaha through Iowa, Minnesota, Wisconsin, Michigan and Canada to Buffalo. The Missouri, Kansas & Texas Trust company is the corporation that is looking after the financial end of the Kansas City, Pittsburg & Gulf railread. The principal offices of the railway company are to be in Omaha.

The trust deed was filed Wednesday afteroon at the court house in this city. Similar deeds have, or soon will be, filed in every cunty in which the proposed railroad will, when constructed, operate. The deed re-cites that at the meeting of the stockholders of the Omaha, Minneapolis & Buffalo Railof the Omaha, Minneapolis & Buffalo Railway company, held in this city March I, 1897, it was resolved to issue bonds for \$15-000,000 at \$15,000 for every mile of railroad built, purchased or acquired. The board of directors resolved to ssue 30,000 coupon bonds of \$500 each at 5 per cent interest, due in thirty years. The bonds will be payable in gold of the present standard value, or in sterling money, free of all government tax or duty, which, if levied, is to be paid by the company. The mortgage inbe paid by the company. The mortgage in-cludes all lines and branches built or to be built. The bonds are to be issued at the rate of \$15,000 for each mile of the railroad as it may be built.

The mortgage was executed in Kansas City by J. L. Brown, president of the Omaha, Minneapolis & Buffalo Railway company, and J. McD. Trimble, vice president of the Missouri, Kansas & Texas Trust company. It is attested by P. E. Brown, Jr., secretary of the former corporation, and A. C. Robinson, secretary of the latter company. RATES FOR THE SUMMER MEETING.

General Reduction to All Points East

The reduction of California rates on account of the Christian Endeavor convention rally in July has brought about the reduction of rates on all the local lines from Omaha to points between here and San Francisco for the period just before the convention convenes and between here and Chicago just after the close of the convention. Passenger men are looking for a large amount of travel in the fore part of July, not only to the Pacific coast but to intermediate points While the rate from here to San Francisco will be \$22.50, there will be cheap rates offered for shorter distances on these days; June 29 and 30, and July 1, 2 and 3. From Chicago to Omaha the fare will be \$7.75; to Colorado common points, \$12.50, and to Utah points, \$20. From St. Louis to Omaha the

fare will be \$7.75; to Colorado common points, \$10.50, and to Utah points \$18. From July 15-20 inclusive and on every Thursday and Sunday thereafter till August 12, there will be offered a rate of \$9.25 from Omaha to Chicago, and of \$10.65 from here to St. Louis. On these dates the rates from west portion; variable winds becoming southerly.

For Missouri-Threatening weather and Juneton, Colo., \$17.50, and from Colorado

common points, \$10.

It will be noticed that the westbound For South Dakota—Fair; warmer; north winds, becoming variable.

For lowa—Showers and thunder storms; coler; north winds.

For Wyoming—Fair; warmer; south winds.

Just why the intermediate rates should be only that the westbound rates have been cut much lower than the eastbound rates, The Christian Endeavor rates, however, are the same both ways. OFFICE OF THE STATIFUL BUREAU cut lower from Chicago westward than eastexplained only by the passenger officials of the western roads, who combined together and agreed upon the rates announced. Ansponding day of the past three years:

1897, 1896, 1895, 1891, 1895, 1891, 1895, 1891, Maximum temperature ... 77 78 92 70
Minimum temperature ... 64 56 59 54
Average temperature ... 70 67 76 62
Rainfall 41 42 .00 T
Record of temperature and precipitation at Omaha for this day and since March 1, chairman, the supreme court decision against the transmission of the transmis

the transmissouri freight rate committee to the contrary notwithstanding. The lines east of Chicago have agreed with the western lines to make reduced rates of one and one-third regular fare for the round trip for the following occasions: Congregational Home Missionary society, Saratoga Springs, N. Y., June 1-3; Loyal Legion of United States, Detroit, June 2; National Association of Master Plumbers, New York, June 15-19; American Whist league, Toledo, July 5-10. Western lines will also grant reduced rates of one and one-third regular fare for the round trip from all points in Nebraska for the meeting of Knights and Daughters of Tabor at Atchison, July 12-16. FIRE IN A CAR LOADED WITH WOOL,

Exciting Times on a Union Pacific Freight Train.

The crew of a Union Pacific extra eastbound freight had an exciting experience near Nichols, on the third Nebraska division, at a late hour Wednesday night. Fire was discovered in a furniture car loaded with wool. Every effort was made to save the car and its contents, but with no avail. The train was cut and the car turned over on it side, but the wool kept right on burning. The entire carload of wool, as well as the

car, were burned completely.

The wool was being shipped to Hollowell & Donald of Boston and was from Mountain Home, Idaho. The origin of the fire is un-known. As the locomotive was throwing out no fire at the time, and as the car was ightly sealed, it is thought the fire originated from spontaneous combustion.

More Room for Buckingham Painters and plasterers have been busily ngaged for the past few days in renovating the room in the northwest corner of the Union Pacific headquarters formerly occu-pled by the Union Deput company, now deceased. Soon after the death of the company that undertook to build a union depot and failed the office it had occupied was vacated. The car service department of the Union Pacific has been cramped for room for some time, and the management of the company has fitted up the additional room for Superntendent Buckingham of that department.

Railway Notes and Personals. General Passenger Agent Francis of the & M. will return from an extended trip

The 16-year-old son of Adolph Bowman of the Union Pacific mail department died Wednesday night at 6 o'clock from the effects of a severe cold contracted while in swimning a few days ago.

Six sailors of the United States steamship Detroit passed through here yesterday after-noon on the Northwestern Union Pacific western express. They were bound for San Francisco to join their vessel. James Dewar, private sacretary to Presi

dent Clark of the Union Pacific, has just returned from a visit to his home in On-tario, Canada. He is accompanied by his sister, who will be his guest for several weeks.

A. C. Dunn, city passenger agent of the Union Pacific, has resigned, and will be succeeded by George E. Abbott, now general agent of the same road at Des Moines and Sloux City. The change will be made on Sloux City. The change will be made on June 15. Mr. Dunn retires to go into bus-iness with his brother-in-law. He came here from St. Paul somewhat over two years ago.
