GENERAL MANAGER BABCOCK RESIGNS

Conduct of Affairs, Refuses to Change His Policy and

Union stock yards at South Omaha, sent his resignation to President Paxton and the directors of the company yesterday morning. In speaking about the matter Mr. Babcock said he had offered his resignation to the directors, but as yet it had not been acted upon. move on his part was that differences existed as to the policy to be pursued in the manage. ment of the yards. Some of the directors and officers did not exactly like the policy he was pursuing, and were inclined to request him to make radical changes in the management. He had in a measure refused to change the policy he had outlined, and as constitutionality of the new charter is left they could not come to any agreement he undecided. The new bill of rights of the had concluded to settle the matter by send- city reduced the salary of the police judge

Mr. Babcock has been general manager of declined to say on what points he and the

& Northwestern railway, with headquarters

Railway men generally were greatly surprised at the announcement that William N. Babcock had resigned from the position he has held with so much credit. A few of the traffic officials, however, those who have en-joyed the most intimate relations with the for a change any time within the past few months. A prominent traffic man said to a Hee reporter yesterday: "I've frequently heard that there were dissensions within the company. There have been conflicting interests there, and these have been pulling in different directions for some time.
All has not been harmony between Armour, who now holds the high card in the Stock Yards' company, and local interests. Yards' company, and local interests. I am sorry that Mr. Babcock has resigned, for the company has lost one of the very best men that ever was. It will be hard work to anywhere near fill his place."

It is generally agreed among the prominent men of the various South Omaha concerns and among the traffic officals in this city and among the traffic officials in this city that the most likely successor to William N. Babcock is A. C. Foster, who has just resigned the position of general manager of the Swift company. It is known that Mr. Fosapplicant for the position made Mr. Babcock's resignation. He himself is out in the country and it is to secure a personal statement

It is even intimated that the two big changes in South Omaha companies fell so near together by no accident, but that Mr Foster had his eye on a place that would soon be vacated when he resigned his other \$10,000 position. The most prominent offi-cials of the railroads doing business with the South Omaha concerns credit the report that Mr. Foster will be the new manager of the Union Stock Yards company. They eay the only possible barrier that would keep him out of the place is that he is not an experienced transportation man. In all other respects it is believed that Mr. Foster is qualified to assume the arduous duties of the place today made vacant.

When asked last night as to the probability of Mr. A. C. Foster's acceptance of the position left vacant by Mr. Babeock's the position left vacant by Mr. Babcock's resignation, Precident Paxton stated that the board of directors had made no selection as yet and that he did not know what would be done in the matter. He said that no offer of the position had been tendered to Mr. Foster and that neither had he made any application for the same. During the time that the position of general manager was left vacant Mr. Paxton stated that he should perform the duties of the office.

suld perform the duties of the office. applicant for the position, he expressed con-siderable surprise and said that he had made

iterviewed on the subject.

Receives Appointment of Manager for

Swift and Company. E. C. Price returned from Chicago yesterday morning and with him he brought an appointment as general manager of Swift and Company's business at South Omaha. This appointment gives him full control over the management of the local business, a position that A. C. Foster resigned a couple of days

In 1883 E. C. Price entered the employ of the Swifts, serving in the capacity of an office boy in the Boston house. He remained there two years and went to Chicago, where he had charge of the weights for a time, Promotions came rapidly, and five years ago Mr. Price came to Omaha, since which time He did not know whether it would be ac- he has been the general purchasing agent cepted or not. The reason he said for this for the South Omaha house operated by Swift and Company.

NOT WAIVING ANY OF HIS RIGHTS

Police Judge Gordon Presents His Bill for Salary. Police Judge Gordon does not intend to waive any of his salary rights while the from \$2,500 to \$1,200 a year. This cuts the monthly stipend of the judge from \$208.33

Yesterday Police Court Clerk Schwenk directory differed.

Before accepting the position of general manager of the stock yards, Mr. Babcock was general western agent of the Chicago will be paid on this basis up to the date when the new charter went into effect, and on the new basis from that time. By agreement with the city attorney, however, the city records will show that this is but "part payment" of the salary. Police Judge Gordon said that he did not

intend to make a fight alone on the cut in yed the most intimate relations with the his salary, but would stay with the city buth Omaha market, have been prepared officials who are intending to attack the constitutionality of the entire charter.

> ANNUAL MEETING OF THE GERMAN BAPTISTS, FREDERICK, MD.

The B. & O. R. R. will sell round trip tickets from all points on its lines west of the Ohio river, for all trains May 31st to June 2d incluse've, valid for return passage until June 30th. The rate from Chicago will be \$17.25, and correspondingly low rates from all other points on its lines. Tickets will also be placed on sale at all coupon stations throughout the west and northwest

SOUTHERNERS APPLYING FOR SPACE

Alabama is Preparing to Exhibit the Many Products of Its Rich Mines and Its Vast Forests.

The Department of Exhibits of the exposition has received a most flattering application for space in the Mines and Mining and the Forestry buildings from an unexpected source. The state of Alabama is evidently in the field, and the indications are that the western mining states are to be crowded very vigorously by the mining and forestry industries of the south. A letter was received by the department yesterday from a special committee appointed by the Alabama Industrial and Scientific society asking for the maximum amount of space in the Mines and Mining and Forestry buildings for an exhibit of the mineral and forestry resources of Alabama. The letter quotes a resolution which was adopted at a recent meeting of the society providing for the appointment of a special committee to consult with Governor Johnston, State Geologist Eugene A. Smith and Agricultural Commissioner Culver in reference to placing a display of the resources of the state at the Transmississippi Exposition. The resolution referred to cites the fact that the state of Alabama did not take the fullest advantage of the opportunities offered by the expositions held at Atlanta and Nashville to display the many industries of the state, and resolving to make amends by making a large resolving to make amends by making a large exhibit at the Transmissiscippi Exposoltion. The special committee appointed in accordance with this resolution writes that the state will make a liberal exhibit and asks how much space can be allowed them under the rules of the department, and for other the rules of the department, and for other data in connection with exhibits. It is stated that the exhibit to be made by the state will consist of coal, coke, red and brown iron ores, bauxite, granite, sandstone, dolomite, limestone, iron pyrites, cop-per and gold ores, kaolin, roofing slate and a full geological and forestry exhibit. Another evidence of the interest which the southern states are taking in the Transmississippi Exposition was received yesterday by the Department of Exhibits the shape of a letter from a prominent merchant of New Orleans, who writes that the exposition is the subject of a great deal of favorable comment in that section and he

SEWERS FOR EXPOSITION GROUNDS Bids on Material Will Be Invited at

asks a number of pertinent questions regarding the making of exhibits, etc.

The next step to be taken on the exposition grounds will be the construction of a system of sanitary sewerage. A sewer will be laid in Pinkney street on the south, and a similar sewer on the north side of the Kountze tract. These sewers will be of a temporary nature unless the owners of prop will agree to bear a part of the expense, in which case the sewers will be of such a size and elevation as will allow of their being used by the abutting property. They will be sanitary sewers only, and will not be

calculated to act as storm water sewers.

Both of these sewers will be connected with the 36-inch main sewer now in Twentyfourth street. The connecting sewer will be twenty-four inches in diameter, and this OUITS AT THE STOCK YARDS no effort to secure the place. He said that his own business affairs occupied the greater portion of his time at present, and that he did not know what he should pursue in the future. He, however, did not state that he would not accept the position if it should be offered him, but otherwise declined to be under the future. The however will be constructed as soon as possible for the purpose of draining the lagoon now being dredged. The lagoon has got to the point where it rains, and several days delay is caused by reason of the fact that the water tanks are cannot escape. The 24-inch sewer will be constructed as soon as possible for the purpose of obviating this difficulty. This portion will be constructed at once for the purpose of draining the lagoon now being dredged. The lagoon has got to the point where it rains, and several days delay is caused by reason of the fact that the water tanks are carnot escape. The 24-inch sewer will be constructed as soon as possible for the purpose of obviating this difficulty. This portion will be constructed as once for the purpose of draining the lagoon now being dredged. The lagoon has got to the point where it rains, and everal days delay is caused by reason of the fact that the water tanks are carnot except the point where it rains, and everal days delay is caused by reason of the fact that the water tanks are carnot except the point where it rains, and everal days delay is caused by reason of the fact that the water tanks are carnot except. obviating this difficulty tion of the sewer will be built by the De-partment of Buildings and Grounds in order PROMOTION COMES TO MR. PRICE. o avoid the delay required by advertising fourth street to the west end of the lagoon being but a few hundred feet. Bids for terial will be called for at once, and the work f construction will be pushed as fast as

This 24-inch sewer will also be used to empty lagoons whenever this becomes neces-sary in order to draw off stagnant water and keep the lagoons purified.

The construction of the remainder of the sanitary sewer system will be done by con tract. Bids for this work will be called fo early in June. Unless the abutting property owners join in the expense of constructing this portion of the sewerage, the pipe will be placed in a shallow trench and will be removed after the exposition is over. expected that the lagoon will take care of the storm water which falls on the exposition grounds and the drainage will be

arranged accordingly. The system of water supply for the exposition grounds and buildings will not be finaly determined until the artesian well is completed. It is confidently expected that this well and possibly others will supply lagoon with all the water that will be needed, but it is the present intention to supply the buildings, etc., with water taken from the supply pipes of the company. If the artesian well should prove to be a failure it will be necessary to have large supply pipes from the mains of the water company and this matter will, therefore, be allowed to rest until the result of

ENTHUSIASTIC OVER EXPOSITION. Judge Groff of California Consults

the well driver's work is known.

Judge L. A. Groff of Los Angeles, Cal. is in the city for a few days, the guest of C. S. Montgomery. He is here on a profes sional errand, to look after some private property and to consult with the exposition directory regarding the exhibit of southern California. He is enthusiastic over the prospects of the exposition and is willing to do

all in his power to promote its success. Judge Groff was a district judge here, sit-ting on the bench with Judges Wakeley, Doane and Hopewell. For eight years, 1879-1887, he was the law partner of Mr. Mont-gomery. In the spring of 1887 Governor Thayer appointed him to the bench. He served out the term for which he was ap-pointed and then was selected by the people to the same position. He was appointed by ex-President Harrison to be commissioner of 10:15 p. m.
the government's general land office. He Mr. J. Y. Calahau, General Agent, 111 discharged the duties of this office with great credit, but resigned shortly before the close of the Harrison administration. Instead of over, etc. returning to Omaha from Washington he

In Los Augeles Judge Groff occupies a prominent position. He is one of the leading lawyers there and he is a director of the Commercial club. Concerning his interest lished in a Los Angeles newspaper just be-

fore his departure: Judge L. A. Groff, who starts for Omaha Judge L. A. Groff, who starts for Omaha this evening on matters pertaining to his own business affairs, is incidentally going to care for the interests of the Chamber of Commerce while in that city. Judge Groff is an old resident of Omaha and acquainted with most of the officers concerned in the Transmississippi Exposition to be held in Omaha in 1888, all of which puts him in a position to gain important concessions for southern California as to space in the coming exposition. It is perhaps worth mentioning that the chamber formulated a bill whick was presented to the last legislature asking that the state of California make appropriation for an exhibit at this exposition. Although this bill, along with all others from the same source, was tabled, there is no law forbidding southern California to have an exhibit in the Transmississippi Exposition which shall be all her own, and this she intends to do.

Exposition Stock Certificates. The special committee, composed of Mesars Wattles, Lindsey and Wakefield, appointed at the meeting of the executive committee Wednesday afternoon to look after the prepar-ing of stock certificates to be issued to sub-scribers of exposition stock, has taken this matter up for consideration and is prepared to receive suggestions from everybody regarding the general form and design of such ways give just what you ask for," and lives urged to buy something "just as good" certificates. It is desired to make these up to his promise, is certain of a good trade.

COMING TO THE EXPOSITION certificates a souvement of the exposition and a thing to be presented among the family archives and for the exposition as to the design of the certificate. There are about 7,000 stockholders in the exposition association and each of these will be entitled to a certificate upon the payment of the full amount of his subscription.

Certificates a souvement of the exposition and a thing to be presented among the family archives and for the exposition as to the design of the certificate. There are about 7,000 stockholders in the exposition association and each of these will be entitled to a certificate upon the payment of the full amount of his subscription.

DENIAL OF A STREET RUMOR

No Truth in the Report that Employment Agenetes Furnish Men The over-supply in the labor market has caused a large number of the wildest kind of rumors regarding the employment of labor on the exposition. The latest report is to the effect that no laborers are being employed except through a local employment agency and that all applicants for work are told to go to this agency and make applica-

At exposition headquarters this story was met with a flat and positive denial. Super-intendent of Construction Geraldine stated very positively that there was not a word of ruth in the report. He said the exposition had only twelve men employed on grounds and these men were employed after careful investigation to establish the facthat they were residents of Omaha, married men with families and in need of work. He said no man had been employed through labor agency and that no such means will e used in employing men for the exposition

Black Hills and the Exposition. Commissioner J. P. Hymer held a meet ing of the citizens of Whitewood Tuesday evening, which was well attended by the business men. After the address by Mr Hymer the citizens expressed themselves in favor of being represented at the exposi-tion and a motion was carried to have a committee with full power to act for White wood. H. T. Cooper, ex-county treasurer, is at the head of the committee. The Black Hills towns are waking up to the importance of making a first class exhibit and will have one of the finest showings of mineral and agricultural products. They will run excursions to and from the Black Hills during the exposition, so that those who never saw a mining country will have a chance to visit the best mining country in the world at very little expense. Many from the east and from across the waters will no doubt invest in Black Hills mines when they see the great opportunities. Public meetings will be held by Commis-sioner J. P. Hymer in all the Black Hills towns during June and July and it is ex pected every locality will take part.

ice of fast express trains with through Pullman cars from Chicago to Philadelphia. All over is allowed at the National Capital within the life of the tickets For further information address B. N. Aus tin, G. P. A., Grand Central station, Chi

NAUGURATION SERVICEI

28 Hours to New York-30 Hours Beston.

Taking effect Sunday, May 30, the Nickel Plate road will run three through trains daily, in each direction, between Chicago Fort Wayne, Cleveland, Erie, Buffalo, New York and Boston. This line has grown so in popularity that it has become necessary to increase the train service in order to meet the demands of the traveling public.

Mr. J. Y. Calahan, general agent, 111 Adams street, Chicago, Ill., will be pleased to furnish all information in regard to this

SERIOUS ACCIDENT TO A CHILD. Her Eye is Penetrated by an Old Buttonhook.

A peculiar and probably fatal accident befell Lizzie Treiner, a 2-year-old daughter of James Treiner, an employe of the smelting works, vesterday afternoon. The family live on the bottoms at the foot of Hickory street. Shortly after dinner the little tot was playing around in tront of the house and found an old rusty buttonhook. She started with it toward her mother, who was standing in the doorway. In running across the yard the little girl fell, and the hook was thrust into the right eye until it pierced the outer membrane of the brain.

The distracted mother tried to wrench the siece of metal from the wound, but only succeeded in increasing the suffering of the child. Dr. Swoboda was called. The eye child. Dr. Swoboda was called. The en truding from the eye the little sufferer was taken to Clarkson hospital, where an operation was performed by Dr. Summers. It was found that the hook had passed through the upper portion of the optical cavity, but that it had not penetrated the eyeball. There are slight hopes of the child's recovery.

Ningara Falls. With its beauty and grandeur reveals to the tourist each year some new harmony. There is no place in America where the summer tourist could spend his time more profitably than at this world-famed cataract. The Nickel Plate Road with its solid trains, through sleeping car service and unexcelled dining car service, between Chicago, New York and Boston, is the recognized highway to this resort. With the new train service which becomes effective Sunday, May 30, stop-over of ten days will be given on both first and second-class tickets to patrons who desire to visit the Talls. Trains leave Chicago daily at 10:20 0a. m., 3:05 p. m. and

ROTATION OF STREET EMPLOYES

Only Men with Families Are Given

The system of rotation among the en ployes of the street!department in order to give a few days' employment to men who are in needy circumstances was begun yesterday, and about thirty men were put to work in place of those who have been on the pay rolls previously. Only men who have families consisting of four or more children and are citizens of Omaha are employed. There was more than enough of such to complete the force. The work will be given to the men with the largest families first, the most destitute cases being rejected. the most destitute cases being selected. These men will be allowed to work for a week or two weeks and must then make

KNOW NOTHING OF ANY GAMBLING

of Witnesses in Case Against Morrison and Cummings. The case in which the Municipal League of South Omaha is proceeding against Jack Morrison and Robert Cummings on the charge of keeping a gambling house over the saloon at Twenty-fifth and N streets, South Omaha, was on trial before Judge Bax-ter yesterday morning. About a dozen witsses were examined, but so far as making a case against the defendants was concerned, the trial was decidedly farcical. Assistant County Attorney Jefferis, who represented the state was plainly disgusted, and the

spectators were highly amused.

The first witness was J. A. Harvey, the proprietor of the saloon over which the alleged gambling rooms were located. He testified that there had been two or three tables in the rooms which were used high-five and whist for the drinks. There had been no gambling there to his knowledge, nor was he aware that Morrison of Cummings had anything to do with the

L. A. Scott and Leroy Davis said they had been in the rooms several times, but had seen no gambling devises except two or three card tables and chairs. They had seen whis played for drinks, but had seen no gambling A half dozen other witnesses, includin the two constables who made the arrest Saturday night, gave similar testimony. Three witnesses testified afterward that they had seen fare and roulette played in the rooms since May 16, but none of them connected either of the two defendants with the premises. Two of these witnesses were John and Fred Peyton, father and brother respectively of the Peyton boys, who were recently victed of shooting Blanche Kennedy. third witness was F. P. Freemen, who swore out the warrant on which Morrison and Cummings were arrested.

The trial was then continued till 2 o'clock

at which time the assistant county attorne announced that there seemed to be no further evidence, and he dismissed the case.

You will be in the very heart of the city, at Cortlandt street, at Desbrosses street or at Twenty-third street, providing the trip is made over the Pennsylvania Short Lines. Passengers over this route have choice of entering New York at either of the three con venient locations mentioned. Full informa-tion free by addressing H. R. Dering, Assistant General Passenger Agent, No. 248 South Clark street, Chicago, Ill.

Permits to wed have been issued to the following parties by the county judge: Name and Address.

TRIAL GOES OVER FOR ONE WEEK.

State Not Ready to Proceed with the

Bennett Libel Case. The preliminary hearing of Theodore Bennett, charged with libeling E. E. Howell by calling him an A. P. A. during the late city campaign, did not continue at 9:30 o'clock yesterday morning in police court as had been intended. When the case was called, it developed that Assistant County Attorney Winter, who is one of the counsel in behalf of the state, was not on hand. As a conse-quence the defense demanded a continuance for a week and got it. The hearing is to

be taken up again on Thursday, June 3, a 9:30 o'clock. Attorney Shoemaker, who is assisting i the prosecution, is hardly satisfied with the manner in which the case is progressing He is not pleased particularly with Judge Gordon's ruling in not allowing witnesses to be called to testify that they did not vote for alty candidate was an A. P. A. The stat relied on such testimony to show that the charge against Howell had tended to bring about his defeat. It is therefore considered that the absence of the county attorney this morning was a move to gain more time in which to complete additional plans of prosecu-

FARMER MLEYNEK HAS SUSPICIONS Has an Idea that He May Be Killed

by His Son. Barclay Mieynek, a Bohemian farmer whose home is about two miles from Yale, Ia., is being detained at the police station on an apparently well-grounded suspicion that he is mentally deranged. The city physician examined him yesterday and discovered indications of insanity. man's relatives are to be notified of his con-

The man was taken into custody yesterday morning at the Union depot. He came in from Herndon, Ia., and tried to buy a ticket to Oklahoma City. The most suspicious ac of which he was guilty was in trying to give away his money. When the police got hold on him, however, he still had about \$30 in his possession.

The prisoner, who is about 55 years of age, says that he has left his home because his two sons at Yale wanted to kill him Wednesday to get possession of his 120 acres of land. He gave each of them forty acres. He says he is on his way to Oklahoma City to the home of another son.

SUPPOSED WORK OF AN INCENDIARY

Early Morning Fire Results in Death At 4:35 yesterday morning a blaze was

badly burned that it was killed. The loss on the horses and the contents of the barn was \$200, and on the building \$50.

The fire also communicated to three coal sheds on adjoining premises, and these were badly scorched. The damage on these was in the neighborhood of \$100. The New 28-Hour Train to New York.
