NOT CONSIDERED SERIOUS.

WASHINGTON, May 31 .- The Indian trouble in southern Montana, reported from Helena, was made known to the authorities Helena, of the War department last week, and in the opinion of the officials is not likely to be followed by serious results. The first news of the affair came to the department in telegram from Colonel Sheridan, the adjutant general of the department at St. Paul. WASHINGTON, May 31 .- From the large number of inquiries now being received by the Postoffice department there seems to be a general belief that congress has authorized the issue and use of private postal cards, mailable at 1 cent of postage. This belief is unfounded. The department has called the attention of all postmisters to this fact and has notified them that no law has been enacted on the subject, so that private mailing cards, bearing written messages, when deposited in the mails, are still
