COMMENTS FROM THE OTHER SIDE.

Britishers Regard the Contest as a Decided Success.

(Copyright, 1897, by Press Publishing Company.) LONDON, June 1 .- (New York World Cablegram-Special Telegram.)-The scandalous statement was current in the lobby of the House of Commons this afternoon, before the resumption of the parliamentary chesa tournament, that there was reason to suspect the American team had the benefit of professional advice. At that time it was feared the English team would be beaten. specific assertion was made that the move by which Mr. Bodine beat Mr. Straura was too brilliant for any but a professional player.

I instituted inquiries and obtained the view of the professional chesa reporter who was recording the match. He said Mr. Strauss his game through miscalculation and that there was nothing in the play of the American team beyond that of first rate amateurs.

Mr. Strauss himself expressed the same opin-ion, acknowledging he had been defeated perfectly fairly. There was not the elightest discoverable foundation for the story prevalent in the lobby, which apparently originated in sheer prejudice.

Great excitement prevailed when late tonight the curious situation existed by which the honor of the British House of Commons in chess matters rested on the shoulders of John H. Parnell. He is notoriously a slow player, and it was feared at one time he uld not finish his match tonight. Arthur Balfour came up and was a patient observer of the game for a considerable time with his brother, the Irish secretary. The former was much amused at Mr. Shafroth's bimetallic greeting, expressing the opinion that it was very smart. Just before midnight word was brought to the lobby that Parnell bad resigned, so honors in the tournament were divided, whereat the English members expressed modified satisfaction, their hopes of victory, having been raised earlier in the night by too sanguine reports from the chess

The contest is regarded as a decided success, and will probably become an annual fix-ture; in fact the suggestion is mosted to-night that another competition should be arranged this session, so that the trophy pro-vided by Mr. Walter of the Times should be BALLARD SMITH.

PHILADELPHIA, June 1 .- Philadelphia efeated Louisville today in a game that was replete in sensational field plays. The most noteworthy features were running catches by McCreery, Clarke, Cooley and Geier and a one-hand catch of a wildly thrown ball by Nash. Clarke's drop of Ja Joie's hit in the seventh, when two were out, was followed by hitting which netted four runs. Hallman and Harley will join the St. Louis club at New York tomorrow. NEW YORK, 3: PITTSBURG, 0.

NEW YORK, June 1.—Umpire McDermott gave this afternoon's game to the New Yorks in the latter part of the sixth inning because the Pirates refused to play ball. The game had been characterized by the kicking of Killen and Donovan on points as to which they did not agree with McDermott. With the score 7 to 0 in the sixth, the Giants got onto Killen and hammered out three good singles and a double, which netted them four runs. With Holmes on first, Wilson hit to Paiden, Paiden fumbled to touch Holmes, He then threw the ball to first, too late to catch Wilson, McDermott declared both men safe, and the entire club left the field and surrounded the umpire. Killen was sent to the bench and the men were ordered to their positions. As they continued to kick, McDermott declared the game in favor of New York, 9 to 0. No. 5494.

Second race, won, Suise He game was called and two men were on bases. Both teams played poor ball, Donnelly was hit on the arm in the third and was replaced by Gardner:

South Omaha News.

Charles of the Charles of the Charles of the Charles In the Mutelbrought by Frank Pivonka against the city of South Omaha to recover was a puzzle. The game was called at the end of the eighth inning to allow the vis-tiors to catch a train. Attendance, 100.

Score: 4-14 pelled to bly tent for two sets of city offices.
About the middle of December, 1895, the city council moved the jail and city offices from the Pivonka block to the Redick building, notwithstanding the fact that the Pivonka block lease had two years to run from De-

cember 4, 1895, Pivonka sued for two months' rent, alleging that the city had never given him possession of the keys of the rooms vacated and in fact has not up to this time turned over the keys. The agreement between Pivonka and the city was like this: The city entered into a five years' lease for the rooms in the Pivonka block with the privilege of vacating at the expiration of three years. The three-year term expired December 4 ,1895, but the city still held on and did not move into the new quarters in the Redick block until along about the end of the month. Pivonka made a demand for his rent,

at the end of December, and did not get it. He waited another month and renewed his request, but again he was given the go-by and then he sought an attorney. Now that the first suit has been decided in his favor Pivonka will sue the city for the rest for the two years of the unexpired lease, as the court held that the full five years lease was in force by reason of the city not moving out at the end of the three years. The lease ends December 4 of this year and Pivonka's attorneys are confident they can collect he full amount.

The city is now paying \$68 per month for he rooms in the Redick block, to which must be added \$15 a month allowed the mayor for ffice rent, making the total rent for city offices to be paid \$173 a month, or \$2,076 a

A similar case was brought up at the meeting of the city council Monday night. Councilman Mort advanced the idea of ob-taining a reduction of rent for fire hall No. l. on Twenty-fourth street. The city now pays \$35 a month for this building. Hannon put up the structure for a fire hall ome years ago, and entered into a five years' lease with the city. The lease expired January 1, 1896, but a new lease was not entered into. According to the decision yesterday Hannon can hold the city for rent for another five years and intends to try to do so if any attempt is made to reduce the rent or move the fire department to other quar

Considering Sidewalk Improvement. It is understood that an attempt is to be made by the city authorities to have the delapidated sidewalks all over the city placed in repair. Possibly the ordinance designating permanent sidewalk district will be enorced, as some of the members of the councll are of the opinion that it should be. Last year a plan was arranged whereby the street commissioner was allowed to make repairs on a walk where only one or two planks were missing and the cost was borne by the city. In cases where the repairs cost less than 75 cents the work was not charged up against the property. This was done in order to place the walks in a passable condition at once, thus saving the time neces-sary to give the owner a notice to do the work. This plan has resulted in considerable work being done that would not other-wise have been done, but it has been expensive for the taxpayers. Councilman Barrett favors sood sidewalks, but he does not think it is fair to make taxpayers in the suburbs pay for repairs to sidewalks in the business or residence portion of the city, and at his suggestion some other scheme will be devised whereby the walks can be kept up and the cost go where it belongs and

COURT ORDERS A VERDICT OF ACQUITTAL

Rules that the Questions Asked by the Senate Committee Were Not Pertinent and He Was Not

Bound to Answer.

WASHINGTON, June 1 .- In the case of John E. Searles, the Sugar trust witness, Judge Bradley this morning ordered the jury to bring in a verdict of acquittal, holding that the questions asked the witness by the committee were not pertinent and so were not within the jurisdiction of the committee. days. The judge's opinion was exhaustive. It

had been reduced to writing. He pointed out that Mr. Scarles had testified specifically that no money had been contributed by the Sugar trust to the national campaign or for the purpose of influencing legislation or the election of United States senators. As to the local contributions Mr. Searles had testified that he did not know how the contributions had been used; by whom, or for what purpose. The questions put to the defendant were asserted to be pertinent to the second and third divisions of the senatorial inquiry, namely as to whether the Sugar trust had contributed sums to campaign funds with the purpose of influencing the election of a United States senator, and whether any senator had been a party to a compact with the Sugar trust. the judge said, a simple investigation as to whether the Sugar trust had contributed to a campaign fund would be an unwarranted search into the private affairs of the com-pany, and plainly beyond the power of the senate

IMPERTINENT OR UNWARRANTED. The senate committee had reported that no testimony had been produced to show that the Sugar trust had made any contributions to any national campaign fund or for the purpose of affecting legislation. If money had gone for the purpose of electing members of state legislatures, who in time would elect a United Stries senator, it was beyond the power of the United States senate to go behind the election of legislative members if this were frue se to state matters, how much more true was it of local elections? It would be the wildest conjecture to assume that the money so contributed in any way had gone to make up the sugar schedule. It appeared from the report of the commit-tee that it was not in the possession of any facts upon which it could base the most remote hope of showing an ultimate connection between the Sugar trust's con tributions and the sugar schedule. Under these circumstances it must be held that the questions asked were not pertinent, and if constructed to be pertinent they were an unwarranted prying into the private affairs o

the company, and therefore beyond the jurisdiction of the senate. Judge Bradley therefore sustained the motion of the defense and ordered the jury to return a verdict of acquittal. The jury accordingly rendered a verdict of not guilty, and Mr. Searles was free. The cases of E. J. Edwards and John S. Shriver, the newspaper correspondents, were postponed until next Monday.

PECULIAR POISONS

GENERATED IN THE HUMAN BODY.

Every living thing, plant or animal contains within itself the germs of certain decay and death.
In the human

In the human body these germs of disease and death (called by scientists Ptomaines), are usually the result of imperfect ligestion of food; the result of indigestion or dyspepsia. The stomach, from abuse, weakness, does The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay), poisoning the blood, making it thin, weak, and lacking in red corpuscles; poisoning

the brain, causing headaches and pain in Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, caus-

ing Bright's disease and diabetes. And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in less of appetion shows itself not only in less of appe-tite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly because they lack the proper quality of

digestive acids (latic and hydrochloric) and pentogenic droducts; the most sensible remedy in all cases of digestion is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach. They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from

wholesome food well digested. Nearly all druggists sell Stuart's Dyspen-sia Tablets at 50 cents full sized package, or by mail by enclosing price to Stuart Co.. Marshall Mich., but ask your druggist A little book on stomach diseases mailed
