THIRTIETH STREET MAY NOT BE PAVED

Property Owner Holds Off Because He Maintains that He Did Not Receive Fair Treatment from the City.

The paving of Thirtieth street from Fort street north to the beginning of the elder roadway in Florence now rests entirely with the owners of property abutting upon Thirtieth street between Fort street and the north line of the city of Omaha.

Without an exception, the members of the county board are opposed to paying any more county roads unless the streets inside the city are paved to connect with the paving outside the limits.

When \$150,000 was voted by the people of the county for the paving of the streets there was a great scramble by the residents of different sections to have the money expended in their particular localities.

The new city charter given the mayor and council the power to order the paving of any street and to carry out the order unless a protest signed by a majority of the property owners is filed within thirty days after the work is ordered.
