been ones. Money is easier than a transfer of two years.

"At the railway headquarters freight men heast of locreased traffic, and do not heattate to predict marked further improvementate to predict marked further improvementate to predict future.

in the in mediate future.

"The amount of defaulted liabilities was the smallest for May since September, 1855. Failures of general stores throughout the country are less in number than for any month on record. At the same time the valume of business is now larger than in 1852, though prices are remarkably similar to 1855, just before the remarkable perial of properity which followed that year. Locally the retail distribution is large and necessing and credits are exceptionally uture. defaulted habilities was

flourishes in all kinds of sells and all kinds of sensons, requiring no cultivation except the placing of the seed in the ground and the harvesting of the crop. The great trouble, however, attending this latter industry is the difficulty of separating the fiber from the wood of the plant without breaking it up into short lengths. A Nebraska man has now invented a process of doing this work, which is known as degumming, both cheaping and easily and at the same time preserving the full length of the fiber. From the fiber thus obtained the cloth above alluded to was manufactured. It is claimed by the promoters that if present hopes are realized this

manufactured, it is claimed by the promoters that if present hopes are realized this will in the near future become one of the great industries of the state.

The Frement twine factory is manufacturing low from hemp and shipping it east, where it meets with ready sale.

In England manufacturers frequently label their goods, "Made in Germany," the consumer being favorably impressed with the idea that the goods have been imported. In this country manufacturers adopt the same policy with the change that the label reads, "Made in England." One of the largest hosiery mills in Khode Island has contracted with a large jobbing house for its entire output and every pair of slockings turned out has the words, "English make," stamped upon it. There are a good many boyers in the world who do not like to patronize home industry if it can be avoided.

There has been a great deal said through

many buyers in the world who do not like to patronize home induscry if it can be avoided has been a great deal said through the newspapers about the work of the Agricultural department at Washington in trying to introduce American buffer into England. A Nebraska dealer says that the great difficulty in the way of the success of such an enterprise is that the Englan and American markets require a different grade of butter. Nebraska creamery men make a butter to suit the American taste, and it is a question if they could be induced to manufacture butter that would be saleshie only on an English market and take the chances of its finding an importer who would buy it on its arrival at the scabbard. Nebraska carriages are winning their way into favor and the man who goes outside of the city to buy is now an exception rather than the rule. The Drummond Carriage company has recently sold Hai McCord an elegant concord, Judge Woolwerth a surrey, E. W. Nash a family carriage, Mr. Talliaferro a phaeton and family carriage, and A. H. Noyes a concord. These wagons were all, or nearly all, supplied with rubber tires. Local business houses are also buying their delivery wagons entirely in the city instead of having them built in the east, as was the custom a very short time ago.

During the past week the manufacturers of Kansas City have been holding an exhibit of home products with the object of attinuinting public interest in the various manufacturing enterprises that have been

CURDITION OF ORARIAS TRADE

COMPRISON FOR COMPANY STREET

COMPANY TO THE COMMAN PROPERTY STREET

COMMAN PROPERTY S to secure it, and in the doing of it they caused it to advance sgain to around \$60. Cold weather in Manitoba—cold enough, it was said, to freeze wheat at the roots—was an element in the closting reaction in prices. July recovered to from 67c to 67%c and closed at 567%c bid.

Trading in corn was fairly active and firm in the main. People who were supposed to have a desire to cover corn already sold short made a drive at the market early in the session. That caused a decline in July from 23%c and 2%c at the obening to 23%c, but as soon as the previous sellers commenced to show a disposition to buy at the decline the price went up again quickly to 2%c and a shade better. Reports from the country were sor the most part of an unfavorable character regarding prospects for the growing crop. The Kansas state report gave the condition of growing corn at \$4.7. The closing price for July was 2%c, at which there were many buyers and few sellers.

The improved tone of the market in oats was the result of sympathy with corn. July opened at 17%c, touched 17%c, advanced to from 17%c to 18%c, at which price it closed. Provisions were in fair acmand at a slight reduction in prices which the trading started with. The decline was recovered from near the ond under the encouragement of the strength in corn. Closing prices were substantially the same as Friday.

Estimated recepte for Monday are: Wheat, 20 cars; corn. 80 cars; coals. 550 cars; hogs, 600 head. For the entire week, 175,000 hogs are expected.

STOCKS AND BONDS. Dealers Show Greatly Increased Con-

fidence in Business Outlook. NEW YORK, June 5.—There was no mistaking he strong buil character of today's market for tooks and bonds, nor was there any room for atocks and bonds, nor was there any room for doubt that the motive for buying was greatly increased confidence over the general outlook for business in the country. The bear element was not a factor in the market at any time diring the day, except as eager buyers to cover stort contracts before prices should rise beyond treit reach. There was some profit taking at intervals by the more conservative minded traders, but apparently their only purpose in selling one stock was to put the proceeds into another. Such realizing sales as were made were well also realizing sales as were made were well also realizing sales as were made of the close of the day's short session. The dealings were remarkably well distributed, Sagar showing the largest number of shares of any one, stock soid with 15,500 shares. Calleago Gas and Burlington followed close with over 15,000 shares seet, and St. Paul was not far behind. Of stocks that were dealt in to the extent of from 1,80 to 7,500 shares that were dealt in to the extent of from 1,80 to 7,500 shares there were about twenty, and a large number of wales, made up in part of odd for bought by commission tonses on outside orders. The general attempth of the market was dealtilest assisted by the aggressive strength shown by some of the most active stocks, notably Sugar, the granulers and New Jorney Central, Reports from Washington that a treaty with Spain was being cunsilered looking to the regulation of the maturalization of Spanish subjects as cittiens of the United States had their effect in helping prices as indicating values. With the favorities of the bears thus sinified to the builties as cittiens of the United States had their effect in helping prices as indicating values. With the favorities of the bears thus sinified to the builties as cittiens of the Consolidate Gas, Belleving of Spanish subjects as cittiens of the United States had their effect in helping that a company to the process of specific inflaences in buying and holding of securities, especially radicated as for th oubt that the motive for buying was greatly nereased confidence over the general outlook for business in the country. The bear element

CHICAGO LIVE STOCK MARKET.

Cattle Higher Than a Week Ago-Hogs Slow and Lower. CHICAGO, June 5.—The week closed on a strong market for beef cattle, prices averaging from for to lie per 100 lbs, higher than a week ago. Only 43,450 cattle have been received. against 47,921 last week and 47,428 the corresponding week last year, and as there was a fairly active demand from exporters, eastern shippers and the dreamed beef trade, the offerings were easily disposed of. Builts have been very dult and prices are off in some instances as much as Ec, heavy builts suffering the most. Caives are selling at high prices, owing to a good demand. Steers today ranges from \$4 to \$5.29; cows, at from \$1.50 to \$4.0, and Texans at from \$2 to \$4.70.

With an estimated run today of 18,000 hogs, trade was slow and prices were on an average of against 47,924 last week and 47,428 the correspond-

With an estimated run today of 18,000 hogs, trade was slow and pribes were on an average of 23c per 160 lbs. lower than yesterday, the buik selling at from \$3.475 to \$3.50 or about the same as a week ago. Heavy packing lots brought from \$3.25 to \$2.45, and prime logs sold at \$2.90. The provision market has ruled decidedly lower this week under an extensive liquidation of speculative and weak holdings, and this heiped to keep hogs from advancing, despite the decrease in the receipts.

There was the usual light Saturday supply of sheep, and they were largely consigned to focat slaughterers. Sheep are selling at from \$2.50 to \$3 for the poorest to from \$4.75 to \$5 for the best, chiefly at from \$5.75 to \$4. Spring lambs are active at from \$5 to \$6.50 per 160 lbs.

Receipts: Cattle 400 head; caives, 75 head; hogs, 16,500 head; sheep, 4.300 head.

New York Live Stock. New YORK LIVE Stock.
