in Roca, Neb. They will be absent several weeks. Mrs. Charles Swain and son departed for

New York last evening. They will spend the summer at Buffalo. Large front room and alcove furnished, ith or without board; also side room. 221 South Seventh street.

Captain Toms of the Salvation army here received a telegram announcing the dangerous Illness of his sister in Wisconsin. Members and friends of the Epworth lergue will participate in a trolley party to-night. It is given under the auspices of the league of Epworth church.

Unity Guild will meet in regular session with Mrs. G. H. Jackson, South First street, this afternoon at 2:30. A full attendance is requested and visitors are welcome

Rev. L. P. McDonald, rector of St. Paul's and Mrs. McDonald will start next week for extended European tour. They will be absent two months or more. A large por

tion of their time will be spent in Eng Buy a 10-cent waist for the boy to play

Metcalf Bros. F. H. Evans returned from Chicago yesterday and will spend several days visiting friends and relatives here before going to face is covered with about two inches of dry sand and dust, mixed with publics and very rich gold mines in Southern California. Five motor carloads of picnickers came over from Oniaha yesterday morning and spent the day and evening in Fairmount park. The party was composed of the members of the Episcopal Cathedral Sunday school. Abundant refreshments had been provided and a very hot day was most heartly enjoyed in the cool and shady park.

A one and one-half story frame cottage or Avenue M, between Twenty-third and Twenty-fourth atreets, occupied by Fremont West and family, was consumed by fire yesterday between 1 and 2 o'clock. The building was owned by Mrs. West. The fire orig-inated in the lower back portion of the house, the cause being unknown. Lors, \$600 covered by insurance,

Clearing sale of boys' waists at Metcali

The street thermometers, the kind tha shows just how hot it is where people have to live and do business, recorded 93 in the shade yesterday. In some localities, where the instruments were exposed to reflected heat, a temperature of over 100 was regis-tered. The oldest inhabitant is admitting very freely that the last two days have bee the hottest June days within memory.

Four young Council Bluffs people hav announced to the public that they have been married for three weeks and have succeeded in keeping it a secret. Both of the husbands are clerks at S. T. McAtee's grocery. George Appel and Miss Minnie Bar-tell went to Glenwood where they were made man and wife, and Archie Arnold and Mrs. Cora Crawford made a visit to Logan for the same purpose.

C. D. Allgood complained at the polic station last night that a neighbor, Charle Curley, was making trouble at 716 Nintl avenue. Allgood stated that his landlore had directed him to prevent Curley and other neighbors who did not pay water tents. prevent Curley and getting water at his hydrant. A box was constructed around the hydrant and it was locked up. Curley objected to this and threatened to use an axe on the wooden box and any member of Allgood's family that might interfere. He also used profane and abusive language to Mrs. Allgood. An officer will go down there today and investigat

Henry Rabel, who said he was a stranded actor working at brick laying for amuse-ment, was locked up in the city jail last night on a charge of vagrancy and intoxication. Rabel and a company of tramps spen a large portion of yesterday afternoon in the vicinity of the Northwestern round house drinking beer and rehearsing drama and tragedy. They were assisted by a two gal-lon pail which was filled with beer at neighboring saloons. Ranel entertained the crowd at the city jail for an hour by reciting selections from the plays be has helped to act. To make the police feel good he also informed them that he was a really ball man, and before he lett town he would "make a touch of some place" and give the officers half of the proceeds.

The city council, acting in the capacity of a Board of Health, has made arrange-ments to make a tour of inspection of the dairies that furnish the city its milk. One attempt was made the other day and the members, in company with City Physician Cleaver and a couple of veterinary sur-geons, met at the city building for the purpose of making the trip. The distance that would have to be traveled was found to be too great, however, and the weather too hot, and the visit of inspection was postponed until a cooler day. Some vague reports have been circulated that there were inhealthy cows kept at some of the dairies There was nothing specific in the rumors. But they spurred the Board of Health into making preparations for a general tour of

NEED OF SPRINKLING BECOMES URGENT

Shortsighted Economy of the City Conneil is Discussed Generally by the Interested Property Holders Along the Thoroughfare.

The discussion in the city council at the last meeting of Contractor Wickham's proposition to sprinkle the newly laid macadam on West Broadway did not end when the city council decided not to bear any of the expense in keeping it wet down. This decision virtually removes all probability of there being any sprinkling done on the street this | purity. summer. Wickham's estimate of the cost for sprinkling the three miles of street was in the neighborhood of \$500 or \$600. He had a scheme by which the residents and property owners along the street were to contribute regularly to the fund, and had also secured promises from the motor company and several teamsters connected with the big packing houses in South Omaha, who make daily L. W. H. Barrett, age 21, died at 5.36 trips over the road. A number of these pack-yesterday evening at his home at 1212 ing house men announced their willingness Seventh avenue. He died after a two weeks to contribute \$10 a month to the fun. The trips over the road. A number of these pack iliness from typhoid malarial fever. Burial city was asked to pay a total of \$75 for the at Fairclew cemetery. season's sprinkling. There is a good deal of discussion of the matter since the action of the council, and every trip over the street causes the discussion to be more earnest and convincing. When the track was kept wet uring the month prior to the time it was finished and accepted by the council the sur-face was hard and firm, and it made a fine track for all kinds of traffic. During the

> "Wickham's contract to keep the road in repair for a year can be made good without sprinkling it this season, and he will perhaps be able to leave the street in good shape at the end of the year," said one of the advo-cates of sprinkling yesterday, "but the city will perhaps be the loser to the extent of sev eral thousand dollars by the neglect to keep it wet down at the start. Some of the members of the city council and some of the people have a wrong idea about the latter. t is not simply in answer to a demand for ocal comfort, although all of the residents of Lower Broadway would like to have the dust kept down, but the people who are most anxious to have the sprinkling done and are willing to assist in paying for it desire it because they want to see the street maintained in good condition. It is certainly greater damage than a year's wear under

gun laying the brick wall. This had been built up ten or twelve feet from the bottom at the close of the day's labor. Yester day the depth of the well was found to be in ufficient and Shields had been at work in the preparations for deepening it. mpleted the preliminaries and had the work ready to be resumed in the morning. The rape was lowered and the men at the windlass started to pull him out. When near the surface the tope broke close to the windlass, and Shields dropped to the bottom. There was only eighteen inches of water in the well, and there was nothing to break the force of the fall. Before the men at the windlage had time to scarcely realize what had happened Shields was call-ing lustily for help. Another rope with a chain and hook on the end was procured and lowered. Shields was able to clasp the hook under his arms and the windlass men pulled him out. His clothes were almost all torn off and he was a mass of bruises. He had sustained a painful injury to one hip by striking the top of the unfinished wall near the bottom of the well. One ankle was also badly sprained or dislocated. He was placed in a wagon and taken to his nome, where he received medical attention

J. H. Dollen of Avoca has enlisted the services of the Council Bluffs police in the search for his 15-year-old boy, who left his home last Sunday. The boy recently suffered from sunstroke and his parents think he was not in his right mind when he wandered away. He is a German and his Christian name is Otto. He boarded a Rock Island train and rode as far as Minden, when he was put off. The last heard of him he was continung his way toward Council Bluffe afcot.

Music and flowers at Towslee's Saturday

BORROWS GUNS AND PAWNS THEM L. E. Stubbs is Wanted by the Police

On a Series of Charges.

Two or three warrants have been in the possession of officers for nearly a week for the arrest of L. E. Stubbs, a young man well known here in and in Omaha. He is charged with larceny as bailee, obtaining money un-On Saturday evening he applied to Sam Friedman for the loan of a fine imported shotgun, saying that his grandfather, L. Kirscht, had sent him for it. A \$65 gun was given him, and he left Friedman's store about 8 o'clock. At 9 o'clock he had pawned the gun at Wolff's pawnshop in Omaha for \$5. He returned to Council Bluffs and made 35. He returned to Council Bluffs and made a similar apolication at Snyder's pawnshop, representing that his grandfather had sent him to hire a gun. Snyder gave him the best gun he had in stock and the young man left. On Sunday he procured a liviry rig from Minnick's barn, and after driving it all day sent it back to the stable late at night by a boy, whom he paid 10 cents, but neglected to one the liveryman. Friedman neglected to pay the liveryman. Friedman found his gun in the Omaha pawashop on Monday by the merest accident. Young Stubbs had realized \$6 out of the transaction by selling the pawn ticket for \$1. Cirecht was communicated with and the fact ascertained that he had not sent the young man on any shotgun borrowing expeditions,

SURFACE IS TURNED TO DUST to arrest kim. Stubbs was upstairs when they called, and the officers waited below while his mother called him down. Instead of coming down the stairway the young man vent out of a rear window and was far away before the officers discovered that he had left the house. Liveryman Minnick also filed an information in a justice's court charging 1 im with beating a livery bill, and the city and state officers on both sides of the river have since been looking in vain for him. Snyd-hea not yet succeeded in locating his gun.

No.ice to Ice Consumers-We are compelled surrounding circumstances to state that we have no agents empowered by us either to take orders or sell our reservoir or Spring Lake ice and to protect our customers we make this statement, that we have cut and handled the ice from all the Counil Bluffs city water works reservoirs ever since the completion of the same, and by handling nothing but No. 1 ice we have been compelled by the increase of our trade to build Gilbert lake, containing eight acres, and have piped pure spring water into the same, giving us a steady flow of 240,000 gallons every twenty-four hours, which

WELL DIGGER'S FRIGHTFUL FALL.

Dan Shields Drops Nearly Ninety Feet Down a Hole.

Dan Shields, a well digger, fell last evening a distance that is variously estimated at from forty-five to ninety feet. The descent was from somewhere near the top to the bottom of a ninety-foot well he was engaged in digging. He was severely bruised and shaken up, but apparently escaped serious injury.

The accident occurred at 5 o'clock on Fleming avenue. The men were engaged in shaking a well for Leonard Everett, and had gone down the depth stated on the day previous and had quit digging and had begun laying the brick wall. This had been huilt in the middle of them was a white outlado. Although they were a quarter of a mile away, there can due no mistake about it me was the mad although they were a siarge as life and quite white, and running like a deer. There was no time to much more than take in the same, the was fill gathered up the reins and was after him, determined to bag that buffalo or kill my horse.

Oh, what a race it was, mile after mile; and although all the band, with the exception of about a dozen, had spill off and gone in different directions, the white animal, with his body guard of about a dozen, kept at about the same distance ahead. I could not for many miles, At last they began to tire, and, although my horse tired also, I had good hopes of coming up and getting a shot. Alay! for such a chance. Of a sudden my horse lurched forward on his nose, sending me over his head onto the farmation of a will be provious and had quit digging and had begun laying the brick wall. This had been him the farmation of the middle of them was a white outlado. Although the was a white outlado. Although the was an with the middle of them was a white outlad

DISBANDING A MINING EXCHANGE.

Chiengo Board Proposes to Go Out of Business.

CHICAGO, June 17.—The Chicago Stock and Mining board will probably go out of a detail of six privates to report to him for business after July 2. The directors of the board have held a meeting for the purpose of bringing to an end the official life of the association. No action was taken, but it was decided instead to call a meeting of all the members to be held July 2 to vote on the proposition of closing the exchange President John Marder and Secretary Burkholder are reported to be in favor of the discontinuance of the board, and all of the directors are said to favor such a course The assets will be divided among the members of the association, if it is disbanded. In such an event each member would receive in the neighborhood of \$50.

The wedding feast is not complete without a cake for the bride to cut. The correct wedding cake this season is very heavy plumoake. It is frosted and iced until it resembles a block of purest marble, and then the artistic patissier calls all his sculptural skill to ornament it with wreaths and gar-lands and flaming torches. If the bride is one of the elect he is not permitted to mix any pink sugar vagaries in his works of art. Doves, cupids, inscriptions and hearts are allke denied him. Solidity and simplicity distinguish the correct wedding cake. Sometimes the top of the cake is perfectly plain, the sides only being decorated with fanci-ful ropes of leaves and flowers in sugar. Around the edge on top of the cake is placed a wreath of natural white roses or orange blossoms, just before it is placed before the bride to cut. At a pink wedding, which took place the other day, the cake was adorned by a nosegay of June roses stuck in the middle of the tootheome symbol.

Cancels the Church Debt. CHEYENNE, Wyo., June 17 .- (Special.)-Mrs. Sophia Braun of Denver has made a der false pretenses and beating a livery bill. generous donation to the Presbyterian church of this city. Mrs. Braun has held a mortgage of \$3,500 against the church since 1888 Today she canceled the mortgage, the church agreeing to pay her 6 per cent interest upon the amount of the debt during her lifetime. which the entire debt is to be can-

BORROWER OF COUNTY CASH

Treasurer W. D. Moore Resigns from His Position.

OWNS UP TO A HEAVY DEFALCATION

Has Used Official Funds to Pay Private Debts Until There is Now a Shortage of Probably Ten Thousand Dollars.

BOONE, Ia., June 17 .- (Special Telegram.) -Today Treasurer W. D. Moore resigned his position and turned over \$3,000 or \$4,000 worth of property to his bondemen. The supervisors had been investigating his records and the result showed him to be a defaulter to the probable amount of \$10,000. Moore was serving his second term as

treasurer. He was badly in debt when he took the office and has used the county's noney, from time to time, to pay his private debtors, who were pressing him. He has makes all of our ice above question as to been able to conceal his shortage by getting noney from the banks whenever the cash in the treasury was to be counted, returning the money after the count had been made. This time the supervisors suspected him and got him cornered. He then acknowledged that he was short, but said the amount was less than \$6,000. A count was made and \$17,256.75 in cash found in the treasury. The amount hould have been somewhere in the neighborhood of \$28,000 to \$20,000. The exact amount cannot be told until further investigation is made. It is thought Moore made no false entries in his books, so that they will show everything. He simply concealed his shortage by borrowing money and placing it in the vaults whenever a count of the funds was to be made. How he ever expected to eventually

escape is not understood.

Boone county is amply protected by a bond for \$100,000, with twenty-eight sureties Many years ago Treasurer Hamilton defaulted in this county and killed himself after being found out. Treasurer Jones in 1878 defaulted for \$14,500. He escaped punishment owing to a flaw in his indictment. Treasurer Moore has not been arrested, nor has he made any effort to get away. He is at his home in this

IOWA FIREMEN'S TOURNAMENT La Porte Wins One Contest and Nearly

Wins Another. IOWA CITY, Ia., June 17 .- Fifteen thousand people witnessed the tournament of the state firemen today. The state hose race was won by Harlan in 40 seconds. La Porte made 300 yards in 36 seconds, but failed to

The racing and coupling contest was won by La Porte in 15% seconds.

The hub and hose race was won by West Branch in 50 seconds.
In the race for leaders of hose teams Turner of Corning won in 31 seconds.

Favor Fusion of Silver Parties. CEDAR RAPIDS, Ia., June 17 .- (Special Telegram.)-The democrats of Linn county in convention today selected delegates to the state convention. Resolutions were adopted declating that free coinage of silver at the ratio of 16 to 1 is the foremost national issue and favoring the coalition and fusion of all parties which are in sympathy with this

Genevieve McNamara, Emmetsburg: Grace Brennan, Cedar Rapids; Stephen Boyle, Cedar Rapids; Mary Kirke, Chicago, and Mary Kelly, Fairfield.

Hot in Idwa. BURLINGTON, Ia., June 17 .- Today has been the hottest June weather ever known here. The mercury stood at 100 in Burlington, 102 in Fairfield, and 104 in Mount Pleas ant. No fatalities were reported.

A La De Tiella Tiella Te De Te Te Te Te Te South Omaha News.

fantry at Fort Crook who objected to acting as servants to an officer are still in the guard house. Five of them have been tried by the garrison court and sentenced to thirty days confinement and to a deduction of \$10 from their pay. The sixth one has not yet been tried. The soldiers who have been tried and sentenced are Privates James F. Brown, Byron F. Brown, Joh Joseph Rich and Henry Wleber.

The specifications charge the men with ob ecting to perform duties assigned them. They were tried by the garrison court which is composed of Captain Jones, Cap-tain Sharps, Captain Getty, Lieutenant Hamilton and Lieutenant Taylor. Private Hagan is still in arrest waiting to be tried. The prisoners have made a written state ment with the request that it be sent to the commanding officer. In this statement the

men allege that on June 5, Lieutenant W work at his quarters. The work was mop-ping the floors, cleaning windows, and moving household furniture. The detail was reported to Lieutenant Taylor by Corporal Henry G. Romine. When shown the work the men asked Lieutenant Taylor if it was request or an order, and they were told that it was an order. Permission was then asked to speak with the commanding officer of the post. Lieutenant Taylor told the met that they would be given an opportunity to speak to the commanding officer as soon a the work was completed. The men then went to work and Lieutenant Taylor walked away. He soon returned and calling Private Byron Brown aside asked him who the ringleaders were. The officer was told that there were no ringleaders. Then he asked who objected to doing the work and was told all of the men did. James Brown and John Launce were asked if they objected t doing the work and repiled that they did Lieutenant Taylor then told the men that they would get themselves into trouble. After the work was completed Lieutenant Taylor ordered Corporal Romine to report the six privates to the first sergeant as un der arrest. The men were, however, to be given credit for one day's fatigue duty. Later on Lieutenant Taylor told the men that they might make a written statement of their case to the commanding officer which was done.

It is claimed by the men that the officer

hid no right to order them to do a servent's work. Section 1992 of the military laws says, "No officer shall use an enlisted man as a servant in any case whatever."
It is this law which the men claim was violated. Attorney Patrick, who has been engaged by friends of the prisoners to ob tain their release if possible called at the fort Wednesday evening and was courteously received by the officers, who kindly laid all the facts in the dase before him. Owing to the fact that offolonei Wikoff, the commanding officer, was atsent from the post at the time no action was taken by the attorney. A copy of the evidence in the court martial was saked for yesterday and as soon as this is received Mr. Patrick will determine whether the evidence sustains the charges, and if not habeas corpus proceed-ings will be commenced in the United States court.

Postmuster Wants More Help. Postmaster McMillan yesterday zent a request to the department at Washington for three additional carriers. At present the work is being done by five carriers and they are kept on the jump the entire eight hours they are on duty. The business at the postoffice has increased sleadily since January 1, and according to the postmaster five carriers are not enough to do the work and give any kind of service. In the residence district there is only one delivery of mail a day, the territory being so large that it is impossible to get over it oftener. In the business dis-trict four deliveries are made daily and the carrier is loaded down every trip. Should the department grant the request for additional carriers one more delivery a day will be made in the business district and two

deliveries daily will be made through the

residence portion of the city.
With all the increase in the business during the last few years the number of post-office employes remains the same, there having been no increase for five or six years. A money order clerk or else a stamp clerk is badly needed. The sale of stamps increases every month, and it takes nearly all of the time of the pestmaster or his aseletant to wait upon persons purchasing stamps. A large increase in the money order business is also noted, but the post master says that he can get along with one more clerk for the present. The three addi-tional carriers asked for are needed at once. The present force consists of a postmaster and assistant, five carriers, one general de livery clerk, and two outmailing clerks making a total of ten employes. Forty out going and forty incoming mails are handled daily and this number is to be increased shortly. Citizens generally would appreciate ABERDEEN, S. D., June 17 .- (Special.) -

an increase in the carrier force as well as an additional clerk.

Wheelmen are Protesting. A meeting of wheelmen will be held at the Young Men's Christian association this evening to take some action on the ordinance now before the city council regulating the speed of bicycles inside the city limits. Besides fixing the speed at six miles an hour ordinance provides that bells shall be attached to bleycles which must be sounded at crossings and when approaching a pedes-trian. The riders of wheels will make an effort to have the ordinance modified. They object to the section requiring bells on the wheels on account of the expense. The maximum speed of six miles an hour is al-together too low, according to statements made by the wheelmen. Should a limit of ten miles an hour be fixed by ordinance the wheelmen would not object. It is the in-tention to appoint a committee to take up the matter and prepare a petition which will be sent to the council, praying for a modification of the ordinance, as regards bells and speed. The portion referring to riding on sidewalks is all right and no one objects to it.

Conductor is a Fighter. A. A. Scott, who lives in Albright, was arrested yesterday afternoon by Officer Riches for disturbing the peace. Scott came down from Omaha on a street car and just as the train stopped at N street he started a fuss with the conductor about a transfer. Bystanders tried to get Scott to go along ab his business, as he was intoxicated, but he would not do so and finally called the con-ductor vile names. Then trouble commenced The conductor elimbed down off his car and vent for Mr. Scott in great shape. A number of women who had been compelled to listen to Scott's vile language appliaded the plucky street car employe. After the conductor had finished with Scott the officer came along and towed the latter to jail.

Arrested for Reckless Shooting. Walter Berlage, an employe of the Cudahy Packing company, was arrested yesterday afternoon upon complaint of Ed McGee for being drunk and disturbing the peace. According to the complaint, Berlage, while intoxicated Wednesday night, drew a revolver and shot a number of times. One of the bul-lets went through a panel of the door in Mc-Gee's house and barely missed one of the children. All of the interested parties reside the vicinity of Thirtieth and Hoffman

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts,

GETPING RID OF HOPPERS

Persistent Crusade Being Made to Kill Off the Pests.

CAN BE EFFECTUALLY EXTERMINATED

Not Only Must the Present Generation Be Destroyed, but the Eggs as Well-Deep Plowing the Remedy.

Prof. Larger, state entomologist of Minnesota, has been investigating the grasshopper situation in South Dakota, and decides they are the kind which once did such great damage. He states that the swarm whose eggs are now hatching in this section of the state is the one that left the northeastern corner of Nebraska on August 5, 1896. They Be- arrived in time to lay their eggs, and it is a strange fact that in almost every instance they were laid in fields which had been studies irrespective of courses. A majority of them come from a three or six months course, such as will give them a fair idea ger states that if the farmers will get right after the pests and use hopperdozers freely there is little danger of their migrating into other states. The hopperdoxer is, however, only a makeshift to preserve the growing grain. In order to eradicate the pest the plow must be used. It is estimated that 7,000 eggs will be laid on a square foot of ground. In order to destroy these eggs deep plowing must be resorted to by all farmers whose sands are infested. If only a part of the land is plowed the farmer who does not plow is guilty of allowing the pest to spread and do incalculable damage another year. Circulars are being sent out to farmers generally by Prof. Lugger and it is contem plated that the grasshopper scare will be of brief duration in South Dakota. DREAM DISCLOSES A GOLD MINE.

Wonderful Story of Riches Found in a Strange Manner.

RAPID CITY, S. D., June 17 .- (Special.)-It is not every person who has the privilege of having his dreams come true. A few years ago Jimmy McNickle, a compositor on one of the papers in this city, left for Custer and purchased a ranch. Just be-fore leaving Rapid City his wife dreamed that she had discovered a gold mine of great extent and of fabulous riches. A few days ago, while out picking berries with her husband and children, she came to a plot of ground which immediately caled to her mind an exact picture of the place which she had seen in her dream. The rocks and scenars, everything accorded with it. She told her husband of the dream and of the similarity in the two places, but was greeted only with laughter. There was nothing very promising about the place for a gold mine, and the husband refused even to make investigations. McNickle was positive that her dream come true. A short time afterward she returned to the place and secured some good samples of the ore and took them to an assayer at Custer. In return the re-ceived a certificate showing her find to be worth \$22.75 gold per ton. Mr. McNickie immediately purchased the claim and is now making preparations to uncarth the riches which his wife discovered through her dream.

SOUTH DAKOTA CROP REPORTS. Sensonable Weather and Rains of

Grent Benefit. HURON, S. D., June 17 .- (Special)-One of the heaviest rain and thunder storms o the season occurred here and over this portion of the Jim river valley yesterday morning. Rain fell in torrents. An unoccupied house in the west part of the city was struck by lightning. A little hail fell, but no damage was done. The rain will prove of incalculable benefit to crops throughout this section. The crop bulletin, issued from the government weather bureau here, and based upon reports from observers in thirty or more counties, says: The seasonable temperature and sunshine following the rains of the preceding and the present week produced marked imthe present week produced marked improvement and good growth in early spring wheat, rye, oats, late spring wheat barley, flax and corn that was growing and grasses. In the localities where late wheat, corn and other staples had not started the weather conditions were very beneficial. Early spring wheat has been very much benefited and looks well generally. Growing corn has done fairly well, but reports indicate that generally the stand is not good, due to frosts, cool weather and the ravages of cut worms, and considerable replanting has been necessary or the ground sown to some later crop, such as flax or millet.

Looking for the Son and Heir. SHERIDAN, Wyo., June 17 .- (Special.)-A neat sum of money awaits a son of Charles Murray, who was murdered last spring by Fred Hyle at McShane's tie camp, this county. Murray's estate has been settled up and converted into cash, which has been placed in charge of the court. It is known that Murray has a son living, but his whereabouts are not known.

Corn Comes Un Well. VERMILION, S. D., June 17 .- (Special.)-The intensely hot weather of the last four days has brought out the corn in this vicinity so that it is in fine growing condition Wire worms and cut worms and excessive

Obenul Pitcherron. D.

moisture during the preceding twenty days left many fields with thin stands. A large amount of replanting has been done and flax has been substituted in many cases. Other crops are in excellent promise.

SOUTH DAKOTA SCHOOL OF MINES Faculty and Students Well Satisfied

With the Year's Work.

RAPID CITY, S. D., June 17 .- (Special.)-The school year of the state school of mines has closed and the instructors and students are making preparations to spend the vacation in ways suitable to all. While the actendance has not been as large as during some years, the class of work done has been pronounced by all as especially sails-factory. No echool in the state has been so maligned and talked about as this school. The work differs from that of any other institution and is not understood as it should institution and is not understood as it should be. It has been found impossible by the present faculty to adhere strictly to the courses as laid down in the curriculum for the past few years. There have been frequent controversies between the board of regents and the faculty on this point, that the school of mines should be made a "class-ical" institution. The school of mines, at present, is a "practical" institution. Stu-dents are permitted to choose their own of assaying and general mining present faculty will in all probability

be retained for another year. The school has a good name in the east and here in the Hills. It is now authority on all mining quistions and an assayer's certificate from the School of Mines is considered the very best. Like all other educational institutions in the state, the School of Mines is hampered greatly in its work for lack of appropria-

Sent to the Yankton Asylum. CHAMBERLAIN, S. D., June 17 .- (Spe-

cial.) In the sensational case of the state against Dr. T. A. Hammill, charged with shooting at Rev. E. W. Jenney with intent to kill. Judge Smith has ordered that Hammill be confined in the Yankton Asylum for the Insane until such time as it is safe for him to be turned at large. Hammill was a few days ago acquitted of the charge of attempting the life of Mr. Jenney because of his being insane, but the jury deemed it not safe to turn him at large at present. As the Yankton asylum is overcrowded at present Hammili will be kept in jail here until such time as there is room for him at Yankton. This probably ends a case which has been the talk of the central portion of the state for the past nine months.

License is Not Forfeited. PIERRE, S. D., June 17.- (Special Telegram.)-The insurance department was called upon to investigate the Merchants' Insurance company of Newark on a comof writing a rick in this through an agency outside of the state. Through the investigation the department became convinced that the act was done through inadvertance and the was allowed to stand, upon the payment of a fine.

Rains Near Aberdeen. ABERDEEN, S. D., June 17 .- (Special.)-There were heavy rains north and west of this city last night, and showers visited the outh part of the county. They will do immense good to crops. There was a sprinkle here. The weather is hot.

Manderson in the Mountains. SHERIDAN, Wyo., June 17 .- (Special.)-General C. F. Manderson of Omaha, accompanied by a party of eastern friends, is here in General Manager Holdrege's private car, and will take a camping-out trip into the

Old Settlers Will Pienic. WAKUNDA, S. D., June 17 .- (Special.)-The Old Settlers' association of this place will hold its annual meeting and pienic in the Babb grove June 23.
