

MANY AMUSEMENT FEATURES

Numerous Novelty Exhibits Already Secured for the Transmississippi Exposition.

MORE ABOUT THE GIGANTIC UMBRELLA

Electricity Section to Be of Unusual Interest - More Entries Now Than at Atlanta Just Previous to Opening.

Everything now indicates that the amusement features at the Transmississippi Exposition will be of a high order, and that they will be fully as numerous as at the World's fair.

Last week a concession was granted to R. E. Sherman, a draughtsman in the office of the recorder in the county of Illinois, for permission to erect and maintain during the exposition a gigantic umbrella, which is to eclipse the Ferris wheel.

The mammoth umbrella will stand on a bluff at the head of the Platte river, and when the arms of the umbrella are extended the passengers in the cars will be 275 feet above the ground.

The arms are to be 110 feet in length, at the extremities of which the cars are to be suspended. From the center of the standard, connected there with counter weights, which travel up and down on the inside of the standard.

SIXTEEN CARS WILL RISE. The cars are to be 110 feet in length, at the extremities of which the cars are to be suspended.

The whole machine will be operated by electricity. Each car will be lighted with different colored electric lights, and on the top of the standard will be a searchlight, which will be kept burning all night.

On Chicago day a free ride in the umbrella will be given to the Chicago person attending the exposition.

Electricity, applied in different ways, scientific, industrial and decorative, will form the most attractive feature of the exposition.

WILL ATTRACT ELECTRICIANS. Prof. R. B. Owens of the University of Nebraska has been appointed commissioner of the electrical section of the exposition.

CONVENTIONS FOR OMAHA

Many Have Been Secured for This City in Exposition Year.

SUCCESS STIMULATES NEW ENERGY

Now Organizing to Go After Some of the Larger National Gatherings with Good Prospects for Winning.

When the Transmississippi Exposition directors, the Commercial club, and the societies of the city started in several weeks ago to secure conventions for exposition year, they felt that they would do well if they succeeded in landing half a dozen.

The annual convention of the Travelers' Protective association was the first secured and this success naturally caused a general good feeling, as it is known that the meeting will be in session fully one week, and will bring not less than 1,000 delegates to the city.

The Swedish Evangelical conference decided by a unanimous vote to meet in Omaha next year. This conference is usually attended by from 500 to 750 ministers and laymen.

The American Institute of Homoeopathy will convene in Omaha during exposition year. It is estimated that the attendance will be between 1,500 and 2,000, and that the meetings will continue over one week.

The annual convention of the American Nurses' association will be held here during the summer and will bring fruit and sherry men from all over the country.

The National Electric Medical society, which has just concluded its annual convention at Lake Minnetonka, Minn., voted to come to Omaha next year.

The Danish Lutheran church of America, which held its annual meeting at Marinette, Wis., last week, voted to hold next year's meeting in Omaha.

The annual convention of the Association of Railway Agents will be held in Philadelphia this year, but next year it will be held in Omaha.

The National Electric Medical society, which has just concluded its annual convention at Lake Minnetonka, Minn., voted to come to Omaha next year.
