The announcement was made yesterday that the local city ticket office of the Bur-lington would be moved from its prosent company asking the city for a bill of \$1,000 location to one that had not yet been relected. The move was made necessary by another firm offering the landlord, Locaard Everett, \$300 a year more than the railway people were paying for it. The office is on the corner of Pearl street and Drosoway, and is one of the most central locations in the city. The Burlington Railway company has occupied it for more than twenty-time. MOVES AFTER MANY YEARS PROCEEDINGS OF THE CITY COUNCIL. Many Important Matters Given Partial

> Attention at the Meeting Mayor Care on submitted a communication at the opening of the maeting of the council last evening asking that an ordinance bepassed regulating the speed of bicycles on the streets. Some of the aldermen had been shocked by the spectacle of the humpbacked scorcher speeding through the streets and they readily acquiesced in the recommenda-tion and lostructed the city attorney to draw up such an ordinance and report it at the next meeting of the council. The speed at which wheels may bereafter travel without danger of arrest will not be fixed until the ordinance is submitted for discussion.

> L. C. James was appointed special watch-

man in the western part of the city.
A communication was received from Presi as the portion of the motor company's con-tribution to the Broadway macadam. The tribution to the Broadway macadam. The communication stated that the bill would be submitted to the board of directors at their

regular meeting in July.

C. D. Jones notified the city that he had appealed to the district court from the rouncil's equalization of his taxes on lots 15 and 16, in block 5. Hayliss first addition.

The ordinance granting a franchise to the

special committee instructed to prepare it The ordinance only grants the comp the company to put its wires underground, whenever the council shall order it. He stated that underground wires would seriously interfere with the efficiency of the service, and that at no place had his company been required to accept such a franchise. He said that the company had not been asked to do this even in New York City, and that its lines were the only above-ground wires in that city. The council, however, refused to recede from the position taken and passed the ordinance with the objectionable clause. Mr. Johnson promptly notified the council that he believed his company would refuse to accept the franchise and would build its line around the city. The city clerk was notito publish the ordinance until the city had received a written acceptance from the company.

The objectors to the enforcement of the

wide-tire ordinance were given some atten-tion. Alderman Pace, from the special com-mittee to investigate and suggest a compromise, reported that this committee had been unable to agree upon a compromise; that there were too many conflicting interests involved to be easily settled, and favored reference of the matter to the committee of the whole. Gilbert Bros. asked for a modification that would permit them to operate their ice wagons with less than fourinch tires. Protests from implement dealers who handle traction engines were sub mitted. Alderman Shubert, who suggested that adverse action might drive these large business firms out of the city, as adverse action had once driven a large stock yards enterprise away. Alderman Atkins said he was tired of hearing about driving business away by adverse legislation, and he thought the time had come when the rights of the poor property owners should be taken into consideration, as well as the privileges of the big firms, and corporations. Alderman Shubert presented a motion that prevailed directing the mayor to appoint a committee of three aldermen to confer with the city engineer, city attorney and the mayor, to draft an amended ordinance, and the opera-tion of the present ordinance be suspended

for thirty days to permit the amended or-dinance to be prepared.

Alderman Shubert called attention to the beheading them. He moved that the tele-graph company be instructed to move the wires at once from the south side of Broadway from the Northwestern railway to the river, and that the marshal eee to it that it was done. The council was uncertain whether the wires belonged to the Western Union or the Postal Telegraph company. and the matter was deferred to the next regular meeting. The plan is to force the wires into one of the parallel alleys.

The North First street bridge was ordered to be closed until it could be repaired. A partially burned building on avenue and Twenty-eighth street was declared nuisance and ordered torn down.

Fire Department Display. Chief Templeton marshaled the entire fire department last night in front of the city building, just before the council met. He brought out all of the apparatus with the exception of the big platform track. The equipment was sufficient to fill the street in front of the city building and attracted a great crowd of curious people. The object was to show the new hook and ladder truck that has just been completed and put int service. The chief also took advantage of the occasion to emphasize some of the wants of the department that had been recommended by the fire committee in the council Among them were some slight repairs on a couple of hose carts. The chief showed up the new ladder wagon in fine style, and ex plained to the aldermen that its cost was money well spent. Such a truck, he as serted, bought in the regular way from factories where such things are made cost at least \$1,500, but owing to but owing to the facthat all of the work had been done in Coucil Bluffs, and a great deal of it by the members of the department themselves, the total cost of the truck was only \$300 lengths. The shortest one is an eight-for extension, designed especially by Chief Templeton to supply an oft-recurring necessity The ladder is a light affair that can carried by a fireman under his arm when he first enters a building, where there is a fire. Heretofore, when it has been necessary go into a garret or through a scuttle he where there were no stairs, the members have been obliged to use each other for a ladder, one man climbing upon the shoulders of another. With the aid of the extension ladder a sixteen foot ceiling can be reached. It is the intention of the chief, if he gets e approval of the council to equip all of e hose carts and chemicals with these ort and handy ladders. Another object of Templeton's little display was to permit all of the members of the council to see the necessity for adding a fifty-foot extension ladder to the new truck. The ladder is of a new pattern, that can be handled by two men, and can be used in confined localities where the big ninety-foot platform truck ladder could not be made available. The members of the council examined the new truck with a good deal of interest, and lis-tened to the suggestions of the chief with a good deal of attention.

The rail roads have a strong lobby on hand to op pose putting the amendment in the plat form and the Sixth and Eighth congres-sional districts have been organized against by the representatives of the Chicago, Burlington & Quincy railroad, but despit these efforts the delegates from these districts say they will control both caucuses in favor of the measure. On this subject the only fight is being made in the democratic convention. It is conceded that the populists and silver republicans will endorse it. The fight is bitter, because to endorse the amendment would be a slap at all the democratic members of the state senate except one. STANDING ROOM ONLY IN LONDON. Crowds of People Take Up Their Positions Over Night.

Copyright, 1897, by Press Publishing Company. LONDON, June 21 .- (New York World Cablegram — Special Telegram.) — Imagine New York's first night of the constitutional centennial, with the Grant day crowd added and you get an idea of London tonight. The world's metropolis has gone mad, and the mania is noise. Nothing like it has ever been seen or heard, here or elsewhere.

The decorations were practically completed on Saturday, and the crowds then were trehumanity in the narrow streets continually increased until tonight.

The route of tomorrow's procession pre sents a speciacle beyond belief. Progress is simply impossible. One man walked from St. Paul's to Trafalgar Square (about the oie

tance from Fourteenth etreet to Porty-second street in New York) in six hours, and worked hard at that. Thousan's who hope to see the procession from sidewalks took places a early as 2 o'clock this afternoon, women authrough the crowds, appeared with supportand went away. At midnight they are coming back again with breakfast in pails and packages, and taking their places with the women to spend the rest of the night in the will see they saw Saturday, when the great military procession made the streets gor-geous. Almost the only additions will be a few carriages, in one of which an elderly rit on a swinging seat and box

Foreign anarchists almost certainly will do nothing to injure England's queen, because England is their only asylum in Europe. The queen herself, it is said, has no misgivings.

HOT TIME IN HOUSE OF COMMONS.

Irish Members Array Themselves Against the Government.

LONDON, June 21 .- (New York World Cablegram-Special Telegram.)-The proceedings in the House of Commons tonight on the rish protests against the address congratulatory to the queen were of a very heated. ance, both on the ministerial and the liberal benches. The Irish nationalists had come over from Ireland in unexpected strength for the occasion, and the thirty-eight followers of Dillon voted with him against the address. Healy and his section were conspicuous by their absence, while seven out of eleven Parnellites were present. Dillon spoke with great vehemence on denouncing the adminis-tration of Ireland during the queen's reign, and he was frequently interrupted by indig-nant cries and exclamations from the tories but he grew more fierce as the tories jeered and a concerted movement on the part of a large body of them to put him out by leaving the house entirely failed of its object.
Dillon declared that he would vote for no amendment to the address and would only vote against it absolutely. At this the Irish members cheered him frantically.

members effected him frantically.

Redmond, following, attacked him for this, and was only cheered by the tories in the hope of bringing the affair into an Irich quabble. Redmond's speech was much nilder than Dillon's, and he expressed personal regret at striking a jarring note on an occasion of the kind. For Redmond's amendment only seven Irish members voted. Dillon's followers abstained from voting, but Dillon himself voted in the negative, as did orty-three other Irish members.

The action of the Irish members is bit-terly resented by Englishmen and it is said at the House of Commons tonight that if any of the Irish members are seen in the worth a minute's purchase

ROW OVER RATES FOR THE ELKS.

Chicago-St. Paul Lines Still Pull Each Other's Hair. CHICAGO, June 21.-The meeting of the Elks which is to be held in Minneapolis in July has stirred up a hornet's nest between the Chicago-St. Paul roads, and there is likely to be trouble before the matter is settled. The roads of the Central Pacsenger association have made a round trip rate of \$13 between Chicago and Minneapol's for the meeting and three of the lines between Chicago and Minneapolis say they will not agree to the rates nor recognize hem in any way. The Great Western the other hand, has declared that it will accept the rates and has invited all of the roads of the Central Passenger association to route business over its line. The roads which are members of the Westeren Passen ger association say that the action of the Great Western is a violation of the recent agreement made by the executive officers mendous, there seemingly being standing of the Chicago St. Paul roads to maintain room only in London, but the masses of rates; and the Great Western says it is meetrates; and the Great Western says it is meetng well-defined competition and has given tice of the rates it intends to make, and that it therefore cannot be cutting the rates or ignoring the agreement. In this stand i a upheld by some of the roads which are members of the Western Passenger association, but with those who differ from the Great Western there is much feeling and the chances are bright for a fight if the

KANSAS CITY, Mo., June 21. The pay car run last week by the Santa Fe Rallway company over its Chicago division be-

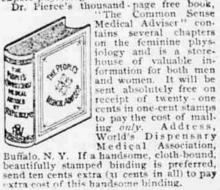

dom understands the various complications of these delicate complaints. He has no time or opportunity to become a spe-cialist. He gives the regulation conven-

tional "local treatment" and that's usually all the good it does. No wonder women sometimes make the mistake of resorting to some advertised preparation compounded by an uneducated nurse or other incompetent person. But there is no need of all these difficulties. Dr. Pierce's Favorite Prescription cures these ailments in a natural and thoroughly scientific manner. Dr. Pierce is a regularly graduated physician, a skilled and eminent specialist of thirty years successful experi-ence in treating diseases of the intricate, feminine organism.
