Fear of a Corner Makes Wheat Nervous All Day Long. FINAL PRICE SHOWS A MARKED ADVANCE

Corn and Oats Are Neglected and Make Slight Fluctuations. Provisions Dull but a Trifle Higher.

CHICAGO, June 25.—Wheat was again strongly affected by the heavy man of the shorts, fear of July manipulation. The result was a good many violent fluctuations and a closing advance of about 1/8 cent.

What, the main question was again the July deal and the trading in that future soon disclosed the fact that it will have some advantage from the rapidity of the opening bulge in July, for the former dealer at a quite leisurely pace, while the latter was scattering the shorts by the force of his first explosion.

At the close of the day the influence of the early items of news were generally heeded. Liverpool showed a slight advance in response to a 1/4 cent rise yesterday. The most noticeable feature of the market, however, was the heavy harvest prospects.

A winter wheat crop of over 300,000,000 bushels is generally admitted, and the news from the northwest was that the spring wheat in the Dakotas, Minnesota and Manitoba was very excellent. The wheat market, however, New York reports foreign buyers buying freely.

Receipts of wheat from the south and southwest, Chicago receipts of wheat were 10 cars, Minneapolis and Duluth 10 cars, and St. Louis 10 cars, responding day the year before. July opened from 87 1/2 to 88 1/2, and declined to 87 1/2 at the close yesterday. It hovered for a few minutes between 87 1/2 and 88 1/2, and then shot up to 89 1/2, and then declined to 88 1/2 at the close.

Provisions were also but firm. The opening was rather quiet, but the market soon recovered on some short covering and outside support. Trading at no time was very active.
