TROUBLES OF THE FIREMEN.

False Alarms the Principal Source of Annoyance to the Department.

WORK OF PRACTICAL JOKERS IN OLD TIMES.

Under Present System of Call Boxes Alleged Wages Are Out of a Job-Other Causes for False Alarms.

"False alarms make us no end of trouble," said a prominent fire official the other day.

The percentage of calls turned in by humorously inclined persons, however, is on the increase, in days gone by it was considered a good joke to pull a box and then, from some secluded spot, watch the panting horses as they pulled the heavy apparatus to the place.

"When the clowheel system was first placed in operation by the city, boxes were equipped with a heavy brass handle which it was only necessary to give a good twist in order to send the companies flying.

This was a rare chance for the wag and he lost no time in improving it. The boxes were next hooked and keys substituted for handles nearby. This knocked out the practical joker, but was unkindly for persons who had a right to the department. The boxes are now equipped with a heavy brass handle which unlocks it and the call is turned in from a hook placed on the inside. The last change was made in the call boxes.

"Outside of the work of the war there are numerous causes for false alarms. The turning out of chimneys is perhaps the most frequent cause of false alarms. Chimneys overcharged with soot and when a big fire is placed in the grate or stove it ignites with the spontaneity of gun cotton.

Very few of the chimneys which are so frequently overcharged with soot and when a big fire is placed in the grate or stove it ignites with the spontaneity of gun cotton.

The Shirt Business

Is a peculiar business. Several people have been known to get rich just from selling shirts.

The way we sell them it would take about 99 years for us to get even half way rich, for we don't sell shirts like anybody else on earth.

We sell a good shirt for 35 cents. We sell a better one for 45 cents. There's more than a dime's worth of difference in regard to style if you care for that, but we only charge for the difference in cloth.

The soft basom shirts we sell at 45c, 65c, 75c, 85c and a dollar are the same as some stores sell for 75c, \$1.00, \$1.50 and \$1.75. We have as many different kinds of shirts as any store in America, and if we don't get as much money for them as other people it is because we haven't got the nerve that some people have.

The man who marks our shirts contracted nerve weakness years ago and he hasn't got over it yet. The finest madras cloth shirts are only a dollar here.
