# THE OMAHA DAILY BEE TUESDAY, JULY 6, 1897.

Test of Endurance Likely to Follow on Tariff Bill.

SENATE MAY SIT IT OUT

ALLISON WANTS CONTINUOUS SESSION

Unless Opposition Disappears There Will Be a Long and Hard Pall to Pass the Pending Measure.

WASHINGTON, July 5 .- Senator Allison in charge of the tariff bill, announces shortly before the adjournment of the sen ate tonight that which an agreement had been reached for a final vote on the tariff bill he would ask the senate to remain in neurion tomorrow at least until the bill was reported by the committee of the whole to the senate. This promises a test of en durance unless the opposition to the bill gave way, Mr. Allicon's statement was after another futile effort to have time fixed for the vote. In some respect the senate made good progress today, di posing of two amendments, that placing stamp tax being agreed to with little or n opposition, and without the formality of vute, while the Spooner amendment, pro posing a tariff investigation, was with drawn after a protracted struggle. The stamp amendment, as agreed to, fixes the following rates on bonds; etc.

Banda, debeatures or certificates of in brethress issued after September 15, 195 any association, company or corporation is each hundred dollars of face value, o by any association, company of corpora on each hundred dollars of face valu fraction thereof, **3** cents, and on each final beaue, whether an orscatization o organization of certificates of stock by such association, company or corp-on each hundred dollars of face y on each hundred dollars of face value of fraction thereof, 5 cents; and on all trans-fers of shores or cortlicates of stock it any association, company or corporation of each hundred dollars of face value or frac-tion thereof, 2 cents. Exemptions from the flamp taxes are made in the case of state, sounty and municipal bonds, and the stocks and bonds of concentrations, and the stocks als of comparative building assoc ations.

Late in the day several new amendment from individual senators were voted on. On by Mr. Mantle, Mont., reducing the internaper gallon was defeated, 38-41. An amend ment by Mr. Mills of Texas proposing ( tax of five per cant on manufactured prod-ucts, the proceeds to go toward reducing the bonded debt, was rejected, 19-38; also a amendment by Mr. Mills granting 29 per cen reduction in dutics to those countries ad mitting gold and silver to their mints at th rate of 16 to 1, years 26, mays 31. On the vote one republican, Mr. Carter, voted with the democrats, populists and silver repub licand in the affirmative, and two, democrats Caffery and Gray, voted with the republicant in the negative.

Mr. Mills, of Texas, moved to amend para graph 395-D by strikin gout "books of al kind" his purpose being to place books on the free list; rejected 18-28. An fort by Mr Mills to have the Bible admitted free was do feated.

The stamp amendment as, a whole wan i nally agreed to on a viva voce vote, no cal for an ave and no vote being made. At 5:30 the bill was laid aside and after scenion of ten minutes the ser an excentive ate adjourned.

# GROWING TEA IN THE CAROLINAS. High Labor Cost the Great Obstuele

#### to Profitable Culture.

WASHINGTON, July 5-Secretary of Agri culture Wilson has received a report from a veteran agriculturist whom he sent recently to investigate the tea farming in dustry carried on at Summerville, S. C., with a view to ascertaining the prospects of profitable growth to the tea plant in this country. The report eays the labor question of this business in this country. It country timates the minimum cost at about eight times as much to pick one pound of tea in South Carolina as that paid for the same ate favored with sufficient heat and rains the plants furnish from fifteen to twenty pickings yearly. In the South Carolina fields the conservation of mosture by draining is enhanced by sys-tematic surface culture. The report suggests tematic surface culture. that it seems impracticable to compete with the cheap Oriental labor, and while some of the processes of development have been delegated to machinery, the picking of the leaves requires discrimination, but the prob lem has been met by establishing a small school, where tea picking is included.

Firestone, who had been imbibling freely of late, made a deal whereby, for a con-sideration of \$5 is inrue-l over to Whitesoli a mileage book. Whitesoli them canleavored to dispose of this book to J. J. Philbin, a local ticket broker, but Philbin took the book and refused to pay Whitesell, alleging that they Midnes parties were the real own-ers. Whitesoli was accordingly out his money and had Firestone arrested. SHORT

blame. She has made a lot in Tobacco, 100 But she's dropped \$16,000 in looking at the tape, just as she is doing now."

GLIMPSE OF THE GAMBLERS I took occasion to look about the room On the opposite side, and near the black. On the opposite side, and near the black- men at the meeting foright. Barrett of the board, was a mite of a woman who rocked Second ward favors an owl car, as do also constantly and nervously in her chair. She the other members. He thinks that the com-was very old, with her face full of wrinkles, pany should be compelled to put on a borse and her thin hair was while. I could see her watching eagerly every number as it omaha after mithight. Another thing that was placed upon the board, but no sigh escaped her. Two women dressed in deep mourning en-

tered and took my attention from the little old lady. They operated only in wheat, and in that they had made a great deal of money for themselves. I was told that they would manage deals for any one else who wished to

could their money to their keeping, learned that these two were mother a in that way. Well," said my friend, "what do you think

of it by this time? Take the advice of an ago, old hand at it and don't begin. Save your Th

est labor and not by gambling. You'll eleep better. It's different with us; we've been at t for years. We all know one another and seldom a stranger onters our ranks Don't begin it

She turned her attention to the ticker. which was bringing in the news that some one had made money, but it was not the lit-tle old woman, who sighet is she gathered up a few things and put them in a black slik bag which hung on her arm. She smoothed her stray locks and fastened her bonnet strings, got up slowly from her chair, and, with faltering steps, passed out the door. After 3 o'clock, at which time the Stock exchange closes for the day, a woman who had already given me so much information and good advice, explained to me the me

of operating in this kind of a place-a "bucket shop," as she called it. 'I don't know where the name came from.

she said. "unless it is due to the smallness of the amount of stock usually traded in a each transaction by the majority of people who frequent them. Perhaps the Stock ex-change is regarded as the great well or spring of speculation, and these small affairs ear the same relation to the exchange that a bucket does to the floating stream. The method of dealing is wholly different. A genuine broker on receiving an order to buy evidently somewhat chagrined, -1 or sell stock or grain or cotton executes it openly on the floor of one of the exchanges. When told of the adventure I felt a burn-The bucket shop receives on the ticker quotations of the prices of the different com-modifies, and a customer may make a deal in the bucket shop at the latest received quotation. The bucket shop alone records whit quotation. The bucket shop alone records and stands behind the transaction. If you

buy ten shares of sugar at 123 in the bucket shop, you need put up only \$10, that is \$1 a share. If the market price goes down to 122 the bucket shop keeper 'wipes you out As I entered the house one morning last week I met a well drissed woman at the door, who, apparently noticing that I was and your money is irrevocably lost. But it price goes up, whenever you are sath fied with the amount of profit you can close

'Can I help you? Are you looking for out your deal and reserve your margin back, with the difference between the price When I replied that I had understood at which you bought it and the price at which you close it out. Most bucket shops charge one-cighth of 1 per cent comthere was a broker's office in the building shook her head and said, with much mission, but bucket shops for women are not satisfied with less than \$3 on each \$10 After waiting a few moments until the hall was clear, I opened a door upon which transaction, which is equivalent to more than one-quarter of 1 per cent on the face value of the stock bought or sold. This is, was the legend, "Ladies' Parlor-Private." It was an ordinary room, simply furnished. Around a nedestal surmounted by a maof course, a most unjust discrimination, amounting practically to robbery, but we chine exactly as my friend had described

to me, and as one of the women at the distance in series and as a series and a seri tape this girl wrote down the prices of each

If any woman doubts the certainty of being son's Legislative Experience.

## Farry S. New of the Indianapolis Journal s one of the best Scandinavian dialect story tellers in the country. Senator New was at the Fifth Avenue hotel the other day, relates the New York Sun, and the following is the latest which he produced. It is en-titled "Tellefone Polson's Legislative Exserience." and runs thus:

Seeds have been imported from all tea re-gions, especially from high altitudes. A veg etation of one-third of the seeds is a gen eral average and the loss of a whole im portation is no novelty. With careful prun ing plants here should maintain their pristine vigor for forty years, but pruning 1 costly manipulation. The report urges the development of knowledge as to tea raising by means of schools.

# ADOPTS THE STAMP TAX CLAUSE

Amendment to Tariff Bill Agreed to Without Division.

WASHINGTON, July 5 .- The finance co mittee amendment to the tariff bill propos ing a stamp tax on bonds, debentures, certificates of stock, etc., was agreed to in the senate without a formal vote.

#### Bering Sen Correspondence.

WASHINGTON, July 5 .- The fact that the State department is preparing for transmission to congress the correspondence that it has had since the beginning of the session respecting the Bering sea scal fisheries ap-pears to have been construed in some quarters, and by the London Chronicle, as an indication of a purpose on the part of our government to make a radical change in its policy in the treatment of that long-standing diplomatic issue and to solve on this opportunity to announce its adoption of a "bald American policy." The truth is that this particular correspondence was called for b congress weeks ago and has been delayed transmission principally because Mr. Foster, who conducted personally the greater part of it, in conjunction with Mr. Hamlin, was absent in Europe. Now, however, it is it shape and probably will go to congress this week.

#### Confirmations.

WASHINGTON, July 5 - The senate today confirmed the following, nominations:

R. Wildman of California, consul to Hong kong, China; C. S. Ruasell of Missouri, to b receiver of public moneys at Ironton, Mo. L. Patrick to be agent for the Indians at the Sac and Fox agency, in Oklahoma; W. A. Cutkin of Buffalo, Mion., to be register of the land office at Duluth, Minn.

## Republican Senatorial Caucus Called.

WASHINGTON, July 5 .- A caucus of republican senators has been called for 10 o'clock comorrow maining to consider the dvinnhitity of reintroducing the sugar bounty amendment.

House Adjourns Until Wednesday. WASHINGTON, July 5 .- The house, by a party vote, without transacting any business took a recess until Wednesday, to be ready for the tariff bill, if completed before that time by the senate.

Local Record.

Sormal for the day .....

Reports from Stations at S p. m., Seventy-fifth moridian time

As I closed the door the girl approached and in a gentle voice asked me whether wanted to see any one. I asked for th nunnager.

LADIES' PRIVATE PARLOR.

'Which manager?" she replied. "Any manager; any one whom I can see about dealing in stocks," In an instant a rather thickset man with a gray moustache and bald head came over to where I was standing.

"What can I do for you, madam?" he asked At this moment my courage began to de

ert me, and I felt the glances of the women who looked up curiously at me. "I have some money to invest in stock and would like you to give me some advice as I am absolutely ignorant about it all. "No, madam, that is a thing I never do, he answered. "It is impossible, of course to tell how stocks may fluctuate. In losses cannot sympathize, and of gains I am ever sure. If you wish to deal, you may have the privilege, but not advice," "You will tell me, will you not, what yo

think about Chicago Gas? I have \$150 that I intend to invest, but must make money with it." "Chlcago Gas was good yesterday, but i to excuse me, as I am very basy," and with a way of the hand he left me. I was about to go out of the place, when

woman who was sitting nearby motioned

'Won't you sit here?'' she asked. "I heard what you said to Mr. Blank, and I shall be very glad to be of any assistance I can to 3'011. The brusqueness of the manager in reply ing to my questions had rather surprisme, as I had expected that he would be glad o secure another customer, but I now unerstood his apparent indifference. He kney that I would soon get all necessary informa-tion from the women already there.

I drew up a very comfortable rocking chair secide the woman who had spoken to me. BEING INITIATED. I tried to show her how anxious I was f

rcap a harvest from a small investment. She was a friendly person, with a kind face and

could be desired and the crowd was large than a year ago. It was noon before the parade was formed and ready to start. The

streets by this time were packed with people and every motor train from Omaha brought additions to the number already on the ground. Nearly all of the business houses were decorated with flags and bunt-ing, the decorations along the line of march

being especially noticeable and elaborate. While not as large as expected the parade was very creditable, considerable taste being displayed in the decoration of the floats, etc. The Thurston Rifles, Sons of Veterans, Stock fards Equestrian club and Transmississipp rcopers attracting a great deal of attention After parading through the business part of the city the procession wended its way to Syndicate park, where addresses were made y Hon, W. G. Whitmore of Valley and hampion S, Chase. At the conclusion of the addresses the crowd scattered through the park and settled down under the trees and listened to the music from the bands.

Thuring the afternoon the old settlers of sarpy and Douglas counties got together and 'ormed an old settlers' association. No one not having lived in the county twenty-or years was eligible to membership. The a The as sociation was formed with John Q. Goss of Bellevue, president; Martin Dunham, vice resident for Douglas county; Louis Lesuire Papillion, vice president for Sarpy county Ed Johnston of this city, secretary, and A

U. Wyman, treasurer. Forty-five members signed the membership roll. A committee of three was appointed to draft a constitu-tion and by-laws. This committee, which is composed of Messre. Allen Root, Martin Langdon and William Huglebaum, will report at the next meeting. It was decided to

hold two meetings a year, one on July 4 and the other on December 24. On account of the heat the crowd did not take a great deal of interest in the sports, apparently being satisfied to rest under the

shade of the trees in the park. The Thurston Rifles gave an exhibition drill on Twenty-fourth street near O street at 1.29 which was very good and showed the result of hard training. At the conclusion of the drill the Rifles were loudly cheered by
