ST. PAUL, Minn., July 6.—A Glenwood, Minn., special to the Press—A cyclone of a destructive nature passed through the town of Lewy this afternoon about 3 o'clock. It started a half mile east of Lewy, destroying the barn and part of the home of Lee Leinen.

The next point of injury in the path of the storm was Thomas Anderson's house, where the family took refuge in the cellar and escaped with bruises. All his farm buildings were blown away.

From here the cyclone moved about due east to San Morrow's where it left death in its path. The family were preparing to enter the cellar when the storm struck, sweeping every article of the building from the ground. Several were killed and several were injured.

Representatives of the Gate City Working Hard for the Convention. OMAHA IS FULL OF PEDAGOGUES. Sessions of the Association Open with Appropriate Exercises—All Parts of the Country Are Represented.

MILWAUKEE, July 6.—(Special Telegrams.)—A large part of the Nebraska delegation to the National Educational association convention is on the ground and all will be in by morning. Everybody from Nebraska and a great many from neighboring states are working hard to get the location for next year's meeting for Omaha.

Superintendent Pease, who is in charge of the Omaha effort, has been here since last week. He is the promoter of the effort and will call a public exhibition at the grounds. The exhibit will be a series of photographs of Omaha intended as a persuader to the delegates to select that city for the next convention.

The Nebraska delegation feels quite encouraged in its campaign because of the promises of support it has received. Colorado, Iowa and South Dakota are on the ground and have secured in favor of Omaha and assistance in leading a helping hand and assistance is expected also from New York, Ohio and other states.

Business begins. The national council of education met in Toledo, Ohio, at the beginning of the week. Its second annual session, for its second year's session, the morning session of the Toledo meeting was devoted to the "University of the Future." Prof. A. S. Cronin of Princeton university opened the discussion with one of the best addresses of the session.

Prof. Cronin expressed his belief that an institution of learning is not to be regarded as an isolated unit, or as endowed with an abstract responsibility. It can only be judged in relation to the society in which it exists, or to the place in the educational system of which it is a part.

The first general session of the National Educational association opened in the Educational building at 8 o'clock tonight. Addresses of welcome were given by the president, the secretary and the general secretary. The first session of the association was devoted to the "Study of History in Our Public Schools."

The board of trustees of the National Educational association met tonight. Treasurer J. C. McNeil read a report showing a total membership of 1394 at \$29,518.75 and a total expenditure of \$10,000.00.
