House Pursues a Policy of Inaction During a Greater Part of the Session _ List of the Bills.

WASHINGTON, July 25 .- The extraordinary session of congress just closed was support of the government and the liquidation of the public dept. No other subject of legislation was mentioned in the message

ings and preparing the bill which was to be to the senate, and exactly two months later. July 7, it passed the senate with 872 amendport was adopted by the house July 19, at OTHER BUSINESS.

Congress did not devote its attention entirely to the tariff, although it did subor-dinate everything else to this one measure. e four appropriation bills which failed on March 4 last in themselves would have comropriation bills were the sundry the agricultural, the Indian and the general deficiency. Those bills were introduced and passed by the house in the identical form in which they existed at the time of their failure of enactment into law at the preced ing congress, but they were amended in some important particulars by the cenate and when they finally became laws contained more or less legislation of interest and importance. The general deficiency bill carried a provision accepting the invitation to take part in the Paris exposition in 1900 and appropriated \$25,000 to defray preliminary expenses, and appropriated \$150,000 for a new immigrant station at New York to re-place the one destroyed by fire.

By far the most important piece of new legislation in the bill, however, was that limiting the cost of armor plate for the three new battle hips to \$300 per ton. In case the secretary of the navy should find it impossible to make contracts for armor within the price fixed he was authorized by this provision to establish a government armor plate factory of sufficient capacity to make the armor. In executing this authority he must prepare a description and plans and specifications of the land, buildings and machinery suitable for the factory, adver tise for proposals and report to congress at

INDIAN SCHOOLS.

In the Indian bill, after a severe struggle both houses, the questions of sectaria:

schools was settled by the following declara-tion of the policy of the government:

"That the secretary of the interior may make contracts with contract schools, apportioning as near as may be the amount. contracted for among schools of various de-nominations for the education of Indian pupils during the fiscal year 1898, but shall only make such contracts at places where nonsectarian schools cannot be provided for such Indian children, and to an amount not exceeding 40 per cent of the amount so used for the fiscal year 1895."

The question of opening to entry the rich gilsonite deposits in the Uncompangre reservation in Utah was also compromised by opening such agricultural lands as had not been allotted to the Uncompanie Indians on April 1, 1898, to entry, but reserving to the United States title in all lands contain ing gilsonite, asphalt or other like sub-

cided at the opening of the session to pur-sue a policy of inaction in order to throw the responsibility for delaying the tariff upon the senate, and therefore, the committees were not announced until the close of the session and only urgent matters were con-sidered. Fifty thousand dollars was ap-propriated for the relief of American citiin Cuba at the solicitation of the presi dent and \$200,000 was appropriated for the relief of the Mississippi flood sufferers. A resolution was passed authorizing the secre-tary of the navy to transport supplies for the benefit of the suffering and famishing in India and \$50,000 was appropriated for the entertainment and expenses of the dele-gates to the Universal Postal convention, which met in this city. The only expensive places of general legislation enacted by this congress, except the tariff bill, were the laws to prevent collisions at sea and to place in force regulations to prevent collisions upon certain harbors, rivers and inland waters of the United States and the bill authorizing the president to suspend discriminating duties on foreign vessels and commerce

THIS HELPS THE VOLUNTEERS Retired Officers Only Have Right to

Volunteer Uniform. WASHINGTON, July 25 .- An echo of the coronation ceremony which led to so much orrespondence on diplomatic uniforms, proedure and matters of precedence in official ceremonies, is found in an opinion just readered by the attorney general touching the respective rights of volunteer and regular army and navy officers to wear the uniforms of the highest rank which they attained during the rebellion. Colonel John F. McCook. who represented the United States army, and Captain G. H. Wadlelgh, the representative of the United States navy at the coronation, had some difficulty over the question of precedence, growing out of the fact that McCook claimed the lead by virtue of his high volunteer rank as shown by his uniform. Minister Breckinridge sustained the army officer and the State department was obliged to call upon the War and Navy de-partments for their construction of the statute granting officers the right to bear the ank and wear the uniform of their highest

volunteer rank. The direct issue was presented in a recent application of James T. Farrell, brevet major the United States volunteers and late capain of the Fifth New York heavy artillery. The two departments were unable to agree upon the matter, and it was referred to the attorney general. The latter decided that uniform of the volunteer rank, but persons who were honorably mustered out of the vol-

unteer service and who have no army con-nection now may wear it on occasions of ceremony. This is in line with the former construcion given to the law by the War department, but it appeared that the practice was a severe blow to many thousands of volun-

tear officers. AS TO STOCK YARD CHARGES.

Shipper Seeks to Recover from the KANSAS CITY, July 25.—The Kansas City Stock Yards company has been made defendant in a suit brought in the district court of Kaneas City, Kan., the purpose of which is to test the validity of the new Kansas law which fixes the schedule of charges for yardage and feed at the yards. The suit was brought by the attorneys for R. S. Patterson, a stock shipper of Jewell county, Kansas. He seeks to recover \$26.42. which represents the difference between the amount charged him by the company under its own schedule and what the same service would amount to under the schedule by law. Should Patterson succeed thousands of shippers who have sent live stock to the Kansas City market since the new law be-came operative, would also be entitled to recover. Through the intervention of the federal court the company has continued in

force its old schedule. Injured in a Wreek.

MARIETTA, O., July 25 .- As an excursion train wao returning from Zanesville, O., at 9:50 tonight the trestle work over a bottom land, three and a half miles from Marietta gave way and two of the four coaches were precipitated to a cornfield below. The coaches were filled with people, but by a miracle no one was killed. About fifteen persons were badly injured and all were more or less bruised. Miss Nellie Purdy of this city was injured in the breast and will probably die. One of the coaches took fire and some of the passengers were singed and had their clothes burned before they could

It explained the deficiencies in the revenue, reviewed the bond issues of the last administration and buildings and the purchase of grounds throughout the United States. Mr. Mercer will have a clerk at \$2,000 a year and a messenting the Sallor Prince and Sensation blood, have all been returned winners of \$500 plates.

Higher game was tried for with the 2-yearold colt Elfin, a shapely son of Sensation and offices and postroads and pensions. At Newmarket recently, in a big field, he finished fourth to Nunnicer, a filly who is pretty smart. Of the older horses, Sandia has been the trump card, and the unsexed son of the Sailor Prince scored twice at Ascot, winning the Fernhill stakes and the new Biennial valued at \$7.150. Subsequently he was very un-lucky in not winning the rich Coronation cup at Kempton. In this race he was wretchedly ridden by Nat Robinson, going several lengths wide at the bend, but in the run home made up a lot of leeway, finishing third to that prince of handicap horses, Victor Wild. He also won the Langileld summer handicap, thus adding \$5,000 to Lorillard-Beresford gains.

Drakka easily secured the Duchess of York'o stakes at Hurst park, valued at \$5,000, thus atoning for his Ascot running in the

Hunt cup.
Undoubtedly the best animal in the Lorillard-Beresford partnership is Berzac, a beau-tifully bred 3-year-old by Sensation out of Belphoebe, who was thought to have a chance for the Derby, but unfortunately a few days before that event he met with a had to be withdrawn. That he could have beaten the winner, Galte More, is very doubtful, as the latter is one of the best colts seen out for many years and twice at Newmarket proved superior to the Ameri-

Mr. August Belmont's Keenan has proved a very disappointing animal, for, after winspring meeting, he just missed the Manchester cup by a head. Later on he fell away considerably, being well beaten both at Ascot and Hurst park, Mr. Belmont however, has a very useful filly in Rhoda B for in the Eaming plate at Newmarket she spreadcagled a big field, but at Ascot had to play second fiddle to Florris Rubattino, halling from the dangerous stable presided over by Captain Machell, now the nestor of the English turf. The filly, however, beat the north country crack, a colt by Bend d'Or, out B is bred by Hanover, out of Margarine, and is evidently superior to Bendegroom Mr. Richard Croker's luck appears

a bit out, for the only winner owned by him is Roman Chief, who won a mile and a haif race at Kempton park, and has evidently been put back for a handicap at the end of the year.

CANEA, Crete, July 25.-Djeved Pasha the special Turkish minister sent by Turkey from Constantinople to mediate between the Musselmans and the admirals of the international fleet in favor of the autonomy of Crete, visited the admirals unofficially today and they returned his visit. In the eyes of the Christian inhabitants of the Island the fact that Dieved Pasha was permitted to land is a blow to the prestige of the great powers and those Cretans have already sent delegates to Admiral Canevaro, commanding the combined foreign fleets, notify-ing them that they will decline to enter-tain preposals for autonomy so long as Djeved Pasha or the Turkish troops remain on the island. Admiral Canavaro replied that they must be prepared to accept a small Turkish garrison. This only elicited a storm of angry protests and a refusal to ay down their arms until the Turkish troops had left the island.

WHEELING, W. Va., July 25.—Eugene V. Debs will be the first of the labor leaders arriving in Wheeling to attend the conference of executive officers of the various labor organizations of the country, called by Presi-dent Ratchford of the Miners, to consider ways and means to bring success to the coal strike. He comes from Fairmont, Monday afternoon, and will be met by a committee on reception appointed this afternoon by the Ohio Valley Trades and Labor assembly. Advices received by local labor leaders are to the effect that nearly all of the executive officials of national labor organizations will come to Wheeling for Tuesday's conference. As to the outcome of the conference there is much uncertainty, though it is claimed the result will be the calling upon the firemen, brakemen and conductors to refuse to haul cars loaded with West Virginia coal. There is no hope of ability to have the railroad engineers join this movement, in fact the engineers' brotherhood will not be repre-

sented at the conference.
CLARKSBURG, W. Va., July 25.—The
miners' meeting advertised for today has proven a great success from the miners' standpoint. Over 100 men said they would join the union and a meeting will be held on Monday. There is no doubt but that all will go out by Tuesday.
