STRIKE NOT CONSIDERED.

The operators, with a few exceptions, want it distinctly understood that the passage of an agreement whereby all operators are to adopt a similar system and are to pay the same relative price for mining has bothing to do with the great strike. They wish the miners to disabuse their minds of any such

theories. The operators have also shut ou the miners' leaders from taking any part in the conference that may take place through questions arising between the operators and miners, by inserting a clause in the agreement, stating that the commission shall be composed of workmen employed by the subscribers. Heretofore the miners' officials have represented the miners, but now the miners are to grapple with the question in dispute alone.

It was decided that present contracts could not be made the basis for arbitration. Many firms b be taken contracts for a ulated period at a fixed price. It is u It is under stood that these shall have the right to supply the product to fill these contracts at the rate of mining on which the contracts are based. Here is where the miners and operators will separate.

The attendance at today's session was not as large as the day previous. Operators from eighty-five rail mines and five river again and protest against striking. Mer-mines agreed to take part in the convention chapts and business men threaten to close mines agreed to take part in the convention which is a larger percentage than it was hoped to get ingether. The operators worked to the agreement as written. There was a close vote on the question whether the commit-tee to be appointed should be privileged to tamper with the differential in the thick and thin vein regions. Frank Osborne made a motion to let it stand as usage and custom had made it, but Mr. De Armitt argued that if the differential was fair and just, none should fear to have the subject arbitrated. The vote on the question resulted in thirteen settled by a commission and eleven to have it stand as at present. All the voting was

light. Mr. Hoosack almost broke up the assemblage when he moved to make the arres-ment become operative when seventy-five operators sign it. Objections were raised to this motion and J. R. Zerbe, who arted as chairman, hestiated to put the motion. He maid the whole agreement should be void and the motion was an obstruction. The soie was then taken and resulted in six to make it 75 per cent and fourteen to make Di geer centi

ACTS LIKE A BOOMERANG

The general strike situation is less eno aging from the minors' standpoint than was a weak ago. Breaks in the ranks of the several nearby towns. Great excitement pre ment over the West Virginia slimiton hav combined to quench enthusiant in a remarkable degree. DINGLEY TARIFF LAW IN ACTION.

Passengers on Steamer Majestic Have

to Give 1 p. NEW YORK, July 28 .- The first of the big transatlantic passenger horis to arrive at this part since the Dingley tariff bill became a law was the Majestic, which tied up at its dock today. The new tariff act has materially restricted the privileges of tourists in regard to the quantity of wearing appared of foreigo manufacture that they may bring into the country and these restrictions were not cenerally understood on the other side of the ocean when the Majertic salled. In anticipetion of confusion, and in order to obviate it as much as possible. Surveyor of the Port Maguire went down the bay to meet the elements while only to be may to meet the steamer and before the sty or quarantine had all the passengers are mided on deck, where he informed them of the changes in the tariff that would be lakely to affect them. Thus propared the passengers were enabled to make ready their declaration before the steamer reached its dock, where an extra force of fifty-five inemetters had been de tailed for duty. Considering the circum-stances the passengers were subjected to but little delay. With few exceptions they met the new requirements in a spirit of candor that made the work of the imperiors easy. and the delay in pressing the bungage was redured to a minimum. More than \$1,000 was collected by the customs officials on the bag-gage of the Majortic's passengers.

WAEHINGTON, July 28 -- Commissioner Forman of the internal revenue bureau has it preparation a circular letter of instruc-tions to collectors in which he will state that measured as it has been held that the new tariff any was in effort during the en-line day of Enturday, July 24, brewers who purchased stamps on that day and received the benefit of the relate of Til only the period of barred will be required to pay the relate to the collectors. Riamic purchased prior to midnight of Friday July 22, however, may be used without further payment. The circular will be insued tomorrow

GRANT'S RESOLUTION IS LOST.

New York Police Commission Votes Against n Change in Policy.

NEW YORK, July 28 - Provident Moss at today's meeting of the police commissioners made a lengthy statement in reply to Colonel Grant's resolutions of last week, relating to the suppression of disorderly houses in which he severely criticated Colonel Grant rud charged that the adoption of his remain-tion would be balled with delight by dis-honest capitalns, "new tenderiolus" would spring up and corruption would spread through the force. President Mose further stated that he had sworn evidence that pollos min were levying blacking if for their super-tor officers on unfortunate women and other awareakers, and that same of the firest real dence districts were reptills being transformed into "tenderisins" through the cor-uption of capitalins.
