# HOPEFUL VIEW OF THE SITUATION.

#### Mine Workers' Officials Issue a Bulletin on the Strike.

COLUMBUS, O., July 29 .- Bulletin No. 1 from the headquarters of the United Mine Workers to the miners and mine laborers of the country says in part:

We have greater confidence of victory than ever. The supply of coal on hand is still low, and would have been entirely consumed before this time were it not for a few sections of West Virginia, southern Illinois and a portion of Kentucky, central and northeastern behavior

Illinois and a portion of Kentucky, central and northeastern Pennsylvania (anthracite), where no effort as yet has been made to have them join our movement, which, when done, will soon decide the contest. The organized labor of this country, with-out respect to forms or past differences, are making our fight their fight and have thrown all available force, morally and financially, into the movement. In western Pennsylvania 1,000 men have stopped work since the last bulletin was issued. This makes a total of 21,090 men now idle. In Ohio, 25,000, or all, are kile. In Kentucky and Tennessee little change has occurred since the last bulletin was besued. About 4,000 miners are idle there. The miners are compartulated on being peaceful and are counseled to continue so. In Indiana the congratulated on being peaceful and are counseled to continue so. In Indiana the supply of coal is almost shut off and 8,660 miners are idle. Fully 55,000 mine workers in Hilnois have laid down their tools. The suspension is practically general. West Vir-ginia has been the main battleground. The Fairmont district is completely tied up with 13,000 mine workers ible. Indications point to a complete cessation of work before August 1.

#### Labor Leaders Separate.

CHARLESTON, W. Va., July 29 .- Messrs Gompers, Ratchford and Sovereign, the committee which came here yesterday to con fer with Governor Atkinson, left early this morning. Gompers went to Washington, Ratchford to Columbus, O., and Sovereign to Fort Wayne, Ind. #### Strikers Under Arrest.

WASHINGTON, Pa., July 29 .- The first conflict between the law and the striking miners at McGovern took place this morning, when Jim McManus, Tom Haves, Ted and Andrew Savage were arrested and brought to Washington. The men are charged with having trespassed on the Alli son mine property in contempt of the in junction recently granted by President Judge J. A. McIlvain. It is said they loitered along a path leading to the pit mouth and used abusive epithets to the men going to work. such as "black sheep." Marchers Attempt No Violence. PEORIA. July 29 .- Only about 300 of the coal miners who had gone toward Roanoke entered town this morning, and that was about 7 o'clock. It is estimated that there are as many more about a mile and a quarter out in the country, and the leaders suc ceeded in keeping them out of town, having learned that the sheriff was there and had sworn in about 100 deputies. Nobody was working at the mines this morning and it thought no one will go back to Visiting miners did not meet with local but held a conference with mine miners. operators, which was without result. Women the Aggressive Fighters. WHEELING, W. Va., July 29 .- Today there is renewed indications of trouble in the Monongah district. The wives of the striking coal miners, to the number of about 200, have taken up the fight. The daily encounters between the women and the Italian and negro nonunion diggers are occurring. The eviction of strikers from com-pany houses along the Monongah valley is in rapid progress today.

Grant a Raise to Miners. ST. LOUIS, July 29 .- A special to the Post-Dispatch from Odin, Ill., says: The striking miners from Breese are still encamped here, but have caused no trouble. A raise in wages has been granted by the mine operators here and the men seem pleased. They want to continue at work and will probably do so if not molested by the strikers.

# NEW JERSEY TOWNS ARE FLOODED.

Great Damage Done to Property, but No Lives Lost. NEW YORK, July 29 .- The floods which did such damage in New Jersey yesterday for the carrying on of his business, but have somewhat receded today. In their wake is a trail of wrecked barns, ruined crops, impaired railroad tracks and all the traces of a full-fledged deluge.

At Elizabeth, which fared worst of all, the waters which filled the streets to a depth in some places of eight feet, began to ebb in the early morning. The night had been one of anxiety. The city's electric light plant had been inundated, the trolley cars stopped and almost all means of land transit to the drier and higher surrounding country had been cut off. The frightened inhabitants of Elizabeth imagined the danger even greater than it was and unfounded rumors spread of what would be a fair and reasonable rethat the reservoir had bursted.

The electric light company's plant, which lights Elizabeth, Roselle, Cranford and Westfield, was flooded, and all through the night these places were in complete darkness The pumping station of the Elizabethtown Water company had been rendered uneless by the flood. The Worthington Pump com-pany sustained damage estimated at \$15,000. Lumber firms on the banks of Staten Island sound lost much of their stock. An approximate estimate of the losses through the flood at Elizabeth will not be obtainable for some little time, but it will prove costly,

The heavy rains of the last few days have oded Rahway, Fanwood and other places in New Jersev. The residents of these places spent the better part of the day dragging soaked merchandise from flooded stores At Rahway the people who live in the low-lying parts were taken from their houses in The towpath of the Raritan canal at New Brunswick was submerged. Canal traffic between that city and Trenton has been suspended and the factories along the banks have been compelled to shut down.
