the meeting to disperse, but it was evidently unfounded. The crowd was orderly all day. It was announced that but twenty-nine men were at work today in the Plum Creek mines, while only two or three were in the Sandy Creek mine. The policy of the miners is to form camps at these mines as well as at Oak Hill and maintain a large party on guard. President Dolan announced that could get land from private parties on

which to pitch his camps. A large number of men who attended the meetings were nearly dead from hunger. Some of them had eaten nothing since 4 o'clock yesterday, and the commissary wagen had not yet arrived when the meeting was over. It was not until nearly 2 o clock the wagon carrying the provisions got to the camp, and when it arrived there was a mad rush for bread which would put to shame any foot ball rush ever seen on the local gridiron. After the meeting was over and the men had satisfied their appetites, they went back to their camp at Turtle Creek in an orderly manner, where they rested and made preparations for tomor-

The force of deputies was kept busy during the entire night. Every move was watched and trouble seemed to be in the air. The condition can be said to be critical. Three hundred strikers from the Beach Cliff mines, on the Panhandle railroad, marched through the city at 2 o'clock this morning. They were bound for Camp Determination, at Turtle creek. The men were mostly foreigners and carried canes and clubs. About an hour after the Beech Cliff men marched through another regiment entered the city from the west and marched silently toward the De Armitt mines. They were the Imperial miners, 400 strong, headed by a brass band. The first delegation also had a band. The march was without noise of any kind until the Oakland power house was passed, when the band started up a lively march.

Four hundred men from the third Monongahela pool mines passed through McKeesport at 2:30 this morning for Turtle Creek. They were headed by two bands an American flag. The procession was an

PRESERVE GOOD ORDER The battle of the striking miners to in-duce De Armitt's men to come out was waged last night and this morning with apparently no further gains over last week. The marchers at 9 a.m. in the vicinity of the Turtle Creck mine numbered 1,500. This is by actual count of a body of 1,026 men and a careful estimate of smaller bodies of men. If reports received by the leaders are true, and there is no reason to doubt them, there will be 3,500 men on the recovery there will be 3.500 men on the ground by 2 p. m. to try to shame De Armitt's men to come out. Other bodies of men are arriving continue the good order among the men. So far, during the march, not a striker has shown any sign of the use of liquor.

While the ranks of the strikers at Turtle Creek were being augmented parties of marchers were in the field to induce the miners not to go to work. About 200 gathered at the Turtle Creek mines before the men started to work. A line was opened up and as the diggers neared the pit mouth they passed between the lines of the strik-ers. There was no attempt at force, but a number of the diggers stopped and talked with the strikers and then passed on into the mine. Some were induced to come out About an hour later the strikers moved off

At Plum Creek mine 250 gathered. At the Oak Hill mine a demonstration was made, but no men were induced to quit. How many men are in the mine is not known. The strikers say only eight, but is is known that fifteen new men went in. At the Sandy Creek mine many men are out. The com pany officials say 100 are at work, while the

strikers say only twenty-two went in ARREST PRESIDENT DOLAN. At 9:15 o'clock the strikers left Turtle Creek about 2,000 strong and started for the mass meeting at the McCrea school house. The procession was headed by four brass bands. The meeting was scheduled for 11 o'clock. Precident Dolan, who was arcested early this morning on a charge of riot and unlawful assemblage, gave ball for a hearing on Wednesday, and again joined the strikers. Speaking of his arrest, Mr. Dolan commented bitterly on the action of Superintendent De Armitt. He accuses the operators of trying to incite riot by causing an arrest at such a time and place. He says he was not disturbing any one and that his arrest was made without cause. He thinks brass bands. The meeting was scheduled for

Great Opposition.

The detachments sent to Plum Creek mines this merning found that De Armitt had stolen another march on them. It was the intention to hold a meeting at the Bethlehem school house and invite the Plum Creek minera there to attend. When the marchers reached the place they found that a fence had been erected around the school property and notices posted that no (respassing would be allowed. This move engendered consid-erable ill-feeling, as the school house grounds were the only public place in the vicinity of the mines where a meeting could be held The leaders of the marchers said they would not disobey the notices and the men marched back to McCrea's school house.

Speeches were also made in the Italian and Hungarian languages by interpreters. Between 5,000 and 6,000 miners were present The greatest enthusiasm was manifested, but there was no disorder. KANSAS CITY, Aug. 2.—A Star special from Pittsburg, Kan., says: Notices were bosted today at the different mines in this district calling for a mass meeting of miners to be held in this city tomorrow. The powder question, 60 cents per ton for mine run in every mine in the district, is also being agitated. The miners at Wear Coal company shaft No. 5, it seems, are in a quandary because of the fact that the local agitators who caused the suspension of work Saturday have deserted them. Miners Did Not Go to Work.

ST. LOUIS, Aug. 2.—A great effort was made this morning to stamped the striking miners back to work at and around Belleville. Ill. but it was a diemal failure. OVATION TO AMERICAN BISHOPS. Farewell Dinner by the Board of Mis sions a Remarkable Event.

Copyright, 1897, by Press Publishing Company. LONDON, Aug. 2 .- (New York World Cablegram-Special Telegram.)-The American bishops, and indeed the nation, received an ovation today at a farewell dinner given by the Board of Missions at Grocers' hall to the bishops of the Lambeth conference. The archbishop of Canterbury, who presided, gave a toast to the precident of the United States immediately after the toast to the queen and was received with tremendous enthusiasm. The bishop of Loudon, in giving the health of the American bishops in a most genial speech, referred to the impression they had made on their English brothers by their shrewd common sense and fund of humor. The bishop of Minnesota in a feeling reply said America would ever be grateful for the reception accorded, and it was impossible that any real difficulties would ever arise between the countries.
