To begin with they have to ntend with the first spell of bad weather. A heavy rain dreached the camps and prevented the marchers from carrying out their regular program. At Plum Creek the rain and continued absence of a band kept them in quarters, with the result that little, if any, necessary work was undertaken. The storm also had the effect of preventing the march to the Spring Hill mines between Wilmerding and Wall Station, which are owned by Alexander Dempster. able, the score being 6-1, 6-0, and Nisbit defeated Eaves in two long drawn out deuce sets. Wrenn and Mahony appeared upon the courts for the final match of the day. The American champion was in good form and stained many aces by brilliant net play, while his opponent was show in warming up and appeared slightly nervous. Wrenn, therefore, took the opening set with com-parative ease by a score of 6-2. The second set brought out tennis par excellence, and required elighteen games for a decision. Wrenn executed clever cross court returns and lobbed when put to the defense. Ma-hony, on the other hand, was strong in by the ground strokes and volleyed with good effect. Games ran to 8-all, and deuce was called six times in the following game, Wrenn winning. The champion promptly ran the following game to 40-love, was overhauled by Mahony only to finally win the game, set and match on a netted ball. FOR NEBRASKA'S INTEREST

Senator Allen Starts for Washington in Behalf of Cattle Industry.

TRAIL THROUGH IND AN RESERVATIONS

Thinks it Will Be of Incateniable Benefit to Feeding Fields and Stock Markets in This State.

Senator William V. Allen was in Omaha yesterday on his way from Madison to Washington. He was joined at Omaha by Traffic Manager John A. McShane of the Union Stock Yards company, and together they will endeavor to secure important concessions to the cattle industry at South Omaha from the Interior and Agricultural departments.

"The chief thing which takes me to WEShington at this time," said Senator Allen, "is to secure from Secretary of the Interior Bliss an order establishing a cattle trail through the Pine Ridge and Rosebud Indian. agencies. Such a trail would be of incalculable advantage to Nebraska, and at the same time confer benefits upon cattle raisers of South Dakota. At present these two Indian reservations cut off the cattle ranges of South Dakota from the feed fields of Nebraska, and the market of South Omaha. To get cattle into South Omaha they have to make a big detour around the west of the Pine Ridge reservation, and for this reason most of the South Dakota cattle aceks the Chicago market. Upon feedors bought at South Omaha for South Dakota the increased haul is doubled in case they are sent back to that market for sale, and it estimated that it will amount to about \$22 a car. If this trail is established, not only will that money be saved to cattlemen on cattle sent into Nebraska, but will also oring a great deal of cattle here that would otherwise not come at all. It is estimated

that between 30,000 and 40,000 head of cat-tle could be brought through the reservations and fed in the northern tier of Nebraska ounties, and finally marketed at South Omaha.

The short-ness of the force is, I am told, preventing the packing houses from filling orders for export, because they cannot have the meat examined and officially certified. At Kan-sas City they have a force of twenty-five, while at Omaha there are only nine. If we can get the force at Omaha increased one half it will help out immeasurably. Whil While Secretary Wilson is not at Washington, I think Dr. Salmon, the head of the Burcau of Animal Industry, has full power to act in this matter, and I look for no difficulty in securing this concession. The Agricultural department is very anxious to assist in de-veloping the cattle industry in the west. I had occasion to call upon Secretary Wilson before leaving Washington in respect to shipments of sheep which now avoid South Omaha because they must sometimes be dipped before reshipment where they show signs of being scabby. Secretary Wilson promised to see if something could not be done to secure inspection at the place of shipment and to protect the sheep raiser
