FOR A BEET SUGAR FACTORY

Merchants and Manufacturers' Committee Discusses the Matter.

JUL FUERMAN IS INTERESTED

Will Meet the Executive Committee Next Saturday and Submit Proposals from the American Company.

The executive committee of the Merchants and Manufacturers' committee has been in correspondence through its secretary, C. H. Judson, with the representatives of the American Beet Sugar company with a view to establishing a factory at Council Bluffs. The matter has been thoroughly discussed in the correspondence and has reached a stage where the company has become sufficiently interested to act. Yesterday H. T. Jul Fuerman of Chicago arrived in the city for the purpose of making a personal investigation and reporting to his company. His visit was unexpected and Secretary Judson was unable in the short time at the disposal of Mr. Fuerman to get the members of the executive committee together to meet him and the meeting was postponed until next Saturday afternoon. Mr. Fuerman only had an hour of idle time yesterday and today he will be able to meet the committee and submit some propositions that could be considered while he was absent on a visit to Nebraska in connection with the company's business at Norfolk and Grand Island and be able to take a definite report back to Chicago when he returned on Saturday. The nature of the proposition was only partially outlined to Secretary Judson and the few members of the committee who could be called together hastily by the use of the telephone. The outline indicated a desire on the part of the company to establish a factory in this city. On Saturday there will be a full meeting of the committee and the matter will take definite shape. The analysis of sugar beets raised in this vicinity gives encouraging results. The profitable culture of the farmers and gardeners around Council Bluffs. The Grand Plaza was crowded to its full capacity. The Tyrolians were applauded with open hands; their style of singing is something new and is much appreciated by all who hear them; their stay at the Plaza is drawing long.

PURCHASING A STREET SWEEPER.

Agitation Renewed by People on the Paved Streets.

MANY CANDIDATES IN THE FIELD

Delegates Will Meet in a Mammoth Tent Which Will Accommodate Six Thousand People.

It became evident as long as three or four weeks ago that large numbers were going to attend a convention, held in every county in the state developed the fact that the greatest interest was being taken in the coming convention, and that in addition to the regular delegates large numbers of others interested in the work of the convention would be here. There is scarcely a county in the state that has not a candidate for one of the several offices. The withdrawal of Governor Francis M. Drake from the field for re-nomination as governor brought new candidates into the field by the score. Many of these are not avowed candidates, but it is known they will not run if they find the lightning is going to strike their way. It is a great multitude of candidates that is going to bring large numbers of people, not delegates, to the city for the convention.

HEADED FOR CEDAR RAPIDS

Republican Convention Will Draw an Immense Crowd.

Many Candidates in the Field

Delegates Will Meet in a Mammoth Tent Which Will Accommodate Six Thousand People.

CEDAR RAPIDS, Ia., Aug. 10.—(Special.)—The republican state convention, which will be held in this city on August 15, promises, in many respects, to be the most remarkable convention ever held in the state. It will without question be the largest.

It became evident as long as three or four weeks ago that large numbers were going to attend a convention, held in every county in the state developed the fact that the greatest interest was being taken in the coming convention, and that in addition to the regular delegates large numbers of others interested in the work of the convention would be here. South Omaha News.

Three of the large steam shovels at the American site are now working away at the big bank along Q street, while the fourth shovel is digging cellars north of the center of the site. An average of 300 cars of earth are moved every day and yet the work does not progress as rapidly as the officials in charge would like to see it. Delay in handling the dirt trains is the principal cause of the trouble. Six hundred cars are handled daily on a very small space, each car being handled twice, once loaded and once empty. The amount of track in the vicinity of the site is being handled to the best advantage. Then again the receipts of live stock continue to stay to the east of the city with care. Files were being driven yesterday for a bridge across the Swift runway at the east end of the tract, where a bridge is to be built. The work is being done in a large number of places, as test wells have showed that the earth below is too soft to support heavy timbers. Scrapers are now at work grading for the new belt line tracks, which will be moved to the north side of the tracks. The work is progressing nicely and will be completed before many days. Tracks for the dirt trains have been laid up to the front of the building, and an office for the construction force. Through an accident a car was allowed to run into the front of the building yesterday and the front was badly wrecked. The building does not amount to anything, but the tearing away of the front inconvenienced the office force to some extent. One of the houses which were removed from the site have been taken to a point on Q street just east of Thirty-third street, where they are being placed upon a new foundation. The work is being completed, and the houses will be ready for occupancy within a short time. Landak Gets His Dues. The garbage question has been partially settled by the council voting to pay Garbage Master Lenagh \$700 out of the general fund. Inasmuch as the work had been performed by Lenagh in good faith and owing to a recent decision the cost should not be charged up against the property, the council decided to allow a portion of the bill to be paid by the garbage master. The city attorney has been instructed to commence suit against certain property owners to recover the amount paid to Lenagh, and to recover the city hopes to be reimbursed. In speaking about the garbage muddle yesterday, Mayor Ensor said that there was one way out of the difficulty now, and that was to create a garbage fund and levy a tax for the removal of garbage. Of course this cannot be done this year, as the amount has been voted for in the next available. He will, however, make the recommendation that such a fund be created next year. The mayor considers that this will be the best way to get the garbage removed from all of the property now occupied. Further than this the creating of a fund and the making of a levy would reduce the expense of the taxpayers materially. The cost of removal per lot would not be nearly so great as at present, and the levy on the mills would not amount to much when figured in the total. The matter would thus be disposed of in a manner satisfactory to all concerned. After the Inauguration. Regarding the meeting of stockmen by tinhorn gamblers in the lower N street resorts, Mayor Ensor said yesterday that he proposed to notify the proprietors of these places that the practice must stop or their liquor licenses would be forfeited. This may be done if the person floundering would come to him he would go right to the proprietor of the resort and compel him to disgorge. In case the money was not forthcoming the resorts would follow. He said, he would be cleared of this class of undesirable citizens. The great trouble has been to induce the stockmen to buy and produce. As a rule the person freed is anxious to get home as soon as possible and avoid publicity. After this when complaints are made the person who would come to him he would go right to the proprietor of the resort and compel him to disgorge.
