Then any ing last Monday night, that he had been offered the office of commissioner of health one can bid for a certain amount and the under Mayor Moores if he would agree to bonds can be distributed among the highest vote for Martin White for chief of police. Mr. Burkley is confident that if such a sale can be legally made it will be very successful from a financial standpoint. Mayor Moores began a scarching inquiry to discover who was to blame for the canard. The tremendous demand for fity warrants during the past few months indicates that there are hundreds of people in the gity The result is to indicate that Mr. Peabody's statement towied very largely on his own conclusions which he now admits may have there are hundreds of people who are looking for a safe investment f their savings. The communication from the mayor to Dr.

Lee is as follows:

OMAHA, Aug. II.—Dr. E. W. Lee, Omaha,
Neb. Dear Doctor: At the investigation
before the Board of Fire and Police Commissioners, Monday night last, wherein the
World-Herald had made charges that \$4,000
had been offered a certain party if he could
obtain one vote for Martin White for chief
of police, it was charged that Dr. Feabody,
one of the members of the board had been
offered the position of health commissioner
under my administration, if he (Dr. Peabody) would cast his vote for Martin White.
As this charge was the first intimation that
I had heard that such an offer had been
made, in executive session, I asked Dr. Peabody to reform me who the party was that
approached him and tendered this appointment at my hands, he informed me that you
had visited him and had laformed him that
Mr. E. Rosewater and myself had authorized
you to make such negotiations.

Not wishing to doubt the integrity of Commissioner Peabody and yet feeling positive
that you would not make such a statement
without authority. I respectfully ask you to
write an affirmation or dental of this charge,
as I do not wish to be placed in the position
of one who would make a barter of official
positions for the purpose of electing any one
chief of police.

Will you kindly mail me a reply at your

will you kindly mail me a reply at your earliest convenience and oblige, your friend FRANK E. MOORES. The reply of Dr. Lee was received yes-terday and in this he made an unquali-fied denial of Dr. Peabody's statement in

the following language:

OMAHA, Aug. 12, 1897.—To the Hen. Frank
E. Moores, Mayor City of Omaha—My Respected Sir: In reply to yours of the 11th
inst., will say that Dr. Peabody is greatly
mistaken. He wholly misunderstood me at
the time of my interview with him. I was
never given authority by you, Mr. Rosewater or anyone clese to make any such
offer as is claimed by Dr. Peabody. In
fact, I have never talked with anybody regarding such a proposition. Respectfully
yours. the following language: DR. PEABOUTY EXPLAINS.

The following statement from Dr. Pea-body qualifies his previous allegation: body qualifies his previous allegation:

OMAHA, Neb., Aug. 12, 18:7.—This is to
certify that a few days after Mr. Moores
was elected Dr. Lee call d at my office and
I understood him to say that Mayor Moores
could be induced to give me the health
commissioner's office of the city if I would
help to place Mr. White as chief of police.
I told him that under no circumstances
would I accept a position under Mayor Moores, being litterly opposed to film in politics. The doctor remarked, or I understood him to remark, that it was good politics that helped a man to a good office. I replied that it might be good politics, but it was rather filthy, but he could tell his friends that when I cohecluded it was necessary to save the city I should not hesitate to vote for Mr. White, although I considered it of doubtful propriety to commit any act that might be construed to fuver one faction in preference to another. The doctor today informs me that I entirely misunderstood him as coming to me from Mr. Moores or Mr. Rosewater or any one but himself. The doctor may be correct and I have no disposition to injure him, but at the time I wrote down what I supposed he cald. I may have been so angry at what I supposed was an attempt at mild bribery that I did not hear correctly.

resting Wine Room Workers. One of the police sergeants came forward Wednesday in the police court with testimony that fully substantiates the charge of The Bee to the effect that the police officials have had full knowledge of the existence of the diegraceful wine room system and have winked at it and have allowed it to continue without hindrance in disobedience of the orders of the board to suppress it.

Over two months ago the Board of Fire and Police Commissioners gave orders to the police to else all wine rooms in the city Yet Sergeant Chamberlain testified Wednes day that in the face of these orders he had | which resulted in Irene Jackson rethe woman he was appearing against ! repeatedly in saloon wine rooms. No action has yet been taken to prosecute the salion keepers in whose places the women were found. Acting Chief Haze and City places," was the response of the sergeant, Prosecutor Miller had a conference in regard to the matter, but no informations have yet been filed. City Prosecutor Miller stated yesterday that he was ready to begin prosecution at any time that the police fur nished the necessary evidence.

Mayor Moores is determined that the dis-graceful evil outlined in the exposure of The Bee on Monday last shall be eradicated. He is not satisfied with the way his strin gent orders given to the police on last Mon day afternoon were obeyed. In these he stated particularly that all men and women who were found consorting together in wine rooms in the city should be arrested.

sergeants arrested only five women. In the report that Sergeant Mitchell made he stated that he had passed by two couples whom he found in the wine rooms because he did not know them. According to this report Sergeant Chamberlain also failed to arrest some men and women in wine rooms because the parties were not known to him. The sergeants had simply arrested the women who were known to them and had not molested their escorts. Mayor Moores says he will supplement his instructions with still more specific ones that all men and women consorting together in wine roms shall be arrested.

The police Wednesday night apparently failed to find any wine rooms open, as no acrests were made.

PLAN TO SECURE A CONGRESS

The projected Agricultural congress which being worked up by the Promotion bureau of the Department of Publicity and Promotion, to be held during the summer of 1898 in connection with the Transmississippi Exposition, has received the official sanction of the Department of Agriculture of the federal government. Secretary of Agriculture Wilson has written to the Department of Publicity and Promotion that the proposed congrees is a most laudable undertaking and will be heartily supported by his department. The secretary says that the central location of Omaha and its proximity to the great agricultureal region of the country will have a strong influence in making the congress a success. He promises that the Department of Agriculture will be represented at the congress and that he will make an effort to be present in person.

The suggestion of a congress of this nature is meeting with strong favor from the Boards of Agriculture of the several rtates, especially those of the central east. Let-ters have been received from the secretaries of the boards of these states, endorsing the idea, and promising their support in making it a success. The secretary of the Indiana State Board of Agriculture is especially en-thusiastic, and says that after their state fair is over he will take great pleasure in making suggestions regarding the details of

Wright, Edwards and others ex pressed their views on the best means to bring about a successful carnival to the effect that an organization should be effected and every state in the transmississippi region asked to participate.

It was first decided that a permanent or ganization should be effected under the name of Transmississippi Apple Carnival associa tion. The following officers were elected: A. F. Coleman, president; C Hervey, secretary and treasurer; John Stinson of Little Rock, Ark., and M. S. Ed wards of Glenwood, Ia., members of executive committee. The president and sec cetary were made members of the executive committee, and the committee was given cower to increase its membership to nine. Wright moved that the exposition com nission of each state be asked to co-operat with the association in the matter of having the state represented in the carnival. This dea met with favor and was adopted.

Various methods of carrying on the worl ere discussed, but the matter was finally eft to the executive committee to devise lan for submission to the association at The meeting was adjourned, subject to th

He thinks the two most attractive parts of the ship for exhibition here would be the figurehad of the boweprit and the large eagle which adorns the stern of the vessel The eagle is carved out of heavy oak and measures twelve feet from tip to tip. I has stood the test of time well and would make a permanent attraction for the public library. The old ship's glg, Mr. Preston thinks, might also be secured and would prove interesting. When asked if the present rise in the price of wheat was notes contradiction of the argument of the free coinage men that wheat and silver traveled side by side in value, the senator said:

"I am surprised that such a question should be asked. It is generally admitted by the press of the country and those who are familiar with conditions that the advance in wheat is due to the short crop in the world. All know that there has been no wheat raised in India this year, and comparatively little in South America. In addition to these countries it is reported on good authority that the crop in all the European countries mand for the product of this country than

"When India and the South American cour tries had a good crop of wheat, they sold it for silver and received for it about twice the value in their money that an American farmer would receive. This double price to them was in money, which they could use in paying their taxes and other fixed expenses. This created a demand for silver in those ountries, which increased its price, these countries have no wheat to exchange for silver, and are out of the field of comtetition in the silver market. Mexico has never affected the ratio between the two commodities, because that country is not a wheat producer. If there is a general good grop in all parts of the world next year, with the silver using and wheat producing coun wheat-producing countries, you will see that the price of silver and wheat will again get together, for the same conditions will affect both.
"Silver men bave never denied that the

law of supply and demand regulates the price of wheat, but the silver-using countries are better prepared to enter the markets of the with their product of wheat than the gold countries, and thereby stimulate the price of the white metal."

That country says it will enter into an agreement if England will open the India mints and something more, but is not leficite in its statements of what else it wants England to do. Then if an agreemen were made between France and this coun try, conditioned upon England's opening o the migts of India, it is doubtful if the gold men of this country would accept it. AT A LOSS.

We have an abundance of Summer Neckwear that is in our way. The room it occupies will be very valuable to us next week. We have decided to take a loss on it in order to get the space. It is this season's purchase and consists of Tecks, Strings, Bows and Fourin-Hands in Mikado and Imperial Silks and Foulards. Not a tie in the lot is worth less than a quarter. Most of them are 33-cent ties. Saturday morning we put the whole business on sale in two lots. Lot one will be 10 cents each. Lot two fifteen cents each. Corner window today.
