(Copyright, 1997, by Press Publishing Company.) blegram-Special Telegram.)-The death his just occurred in Yorkshire of one of the most remarkable English self-made men of the century, Sir Lease Holden. The san of a miner, he began life as a weaver's boy, educated hmiself, became a schoolmaster and then a bookkeeper in a Tweed mill. He Invented first a wool combing machine, which made his fortune at 40. He also invented the lucifer match, but this idea he did not patent. When the protective tariffs abroad injured the Bradford woolen trade, Holden opened mills at Calais, Rheims and Lille, where the younger branches of his family have since made fortunes. He lived to be 90, though a man of extreme delicacy of constitution, and he always attributed his longevity to his spare diet, which consisted mainly of fruit and vegetables. He had lish government is playing a very tricky strawberries on his breakfast table all the game just now, its object being to get a year round, his one extravagance being his permanent hold of Suda bay in Crete as a expenditure on the cultivation of fruit. It has been made perfectly clear during the past . ssion that the Unionist party steadily gravitates toward the leadership of Chamberlain. The suggestion is made by one of them that he should be accalled and driven out of Sir Isaac Holden's Rise from Poverty to public life for his dishonorable conduct in connection with the Jameson raid and his championship of Rhodes. Seeing that this attitude was taken up by Chamberlain to square with the avowed tory sentiment. FOLLOWS UP THE EMPEROR WILLIAM their animus toward him will be apparent. He treats these attacks with assumed indifference, but it is more than suspected they have their origin among his own cabinet colleagues. The tories can't get rid of him any way, for he will change his policy to suit every passing popular breeze, and whatever policy he adopts he can advocate it with more effect than any of them. LABBY DOESN'T MIND IT.

Henry Hess, editor of the African Critic, ontinues his compaign of personal vilification of Henry Labouchere on the ground of his alleged former stock rigging achievements. Labouchere has entirely ignored these attacks, but has informed his friends that the fac simile letters that have been published in support of the charges are forgeries. Only a few years ago a secretary of Labouchere's forged his name to checks to the value of £70,000 and was sent to penal servitude. Their writing was scarcely distinguished from the other. These attacks of his constitute the retort of the Chartered company ring on Labby for his exposure of the Rhodesian scandals. A private correspondent at Constantinople, intimately acquainted with the inside facts concerning the aims of European diplomacy there, says in a letter received this morning: "I am certain we are nearing a big crash here. (Copyright, 1997, by the Associated Press.) LONDON, Aug. 14.-The arrangements for the visit of President Faure to St. Petersburg are practically completed. He will leave Dunkirk Wednesday afternoon aboard the French war ship, Pothuau, escorted by the Bruix and Surcouf and will arrive at Cronstadt Monday, August 23. The first day of his sojourn in Russia will be devoted to his reception at Cronstadt and at Peterhof, to the exchange of official visits, a banquet at the Peterhof palace and a gala performance at the Imperial theater. The precident and the ezar will start for St. Petersburg August 24. There M. Faure will be welcomed B the municipality of St. Petersburg and will receive in audience delegations from the principal cities of the empire. He will also on Tuesday lay the cornerstone of the French hospital. In the evening the president will give a banquet at the French embassy in honor of the ezar. There will be a grand review at Krasnoe-Selo on August 25, followed by a grand military dinner. At night there will be a fete in the gardens of the Peterhof palace.

After a review of the combined French and Russian squadrons in Cronstadt roads the president will bid farewell to the czar and exarina and will return on board the Pothuau, which will start immediately for France, reaching Dunkirk on August 31. Magnificent decorations are projected at

St. Petersburg, including a Faure fountain in the middle of the historic Kazan square which will remain a permanent memorial of the president's visit.

MEDALS FOR DISTRIBUTION. A medal which President Faure will disribute to the guard of honor and to the various functionaries attending him during his visit to Russia bears on one side the profile of an effigy of the republic and the words: "Republique Francaise." On the obverse side is a wreath of laurels surrounding the date, August, 1897. Three hundred medals of this description in gold and platinum, eighty of silver gilt and twenty of dull gold have been struck.

Referring to the coming visit, the Russian ewspapers are discussing a scheme to be efit France by sending stalwart Russians to intermarry in France and stem the falling birth rate of that country.

LONDON, Aug. 14.—(New York World CAUSES CAUSTIC CRITICISM IN BERLIN Cablegram-Special Telegram)-Said Richard Croker in his room at the Hotel Bristol, at Carlabad, today: "There is one thing which I especially want to say through the New York World, that concerns certain statements which have been made about my relations with Mr. Sheehan, and what I want to say I can say in a very few words. I am anxious to have Mr. Sheehan secure and a same control of Tammany. This is an Anti-English Combine is Made Stronger authorized interview, and I want all my friends to take it as such. In it I want to ask all my friends to stand by Mr. Sheehan as they would stand by me. I believe Mr. Sheehan to be an able man; I believe him to be a square man-a man who will look out, first, for the interests of the city of Greater New York, and, second, for the interests of the Tammany organization. That is what we all want. No man who knows can want a man as leader who has not got the best interests of the city at heart. The city's best interests are Tammany's best interests.

Gunboats Being Built to Carry English Troops Forward to the Front_Serious Fighting is Expected Soon.

(Copyright, 1997, by the Associated Press.) LONDON, Aug. 14 .- The Spectator, discussing the "provocative and unfriendly tone of American politicians of both parties toward England," says:

"We are obliged to write as we never dreamed of being forced to write of a country only less dear to us than our own. We should fall in our public duty if we did not point out in the etrongest manner the grave risks which are likely to ensue from this attitude. Unless the United States assumes a very different tone, the gravest crisis is cycle squads will be employed for the first certain to ensue. Public opinion in England time as an adjunct to cavalry. Besides has greatly changed in the last few months, and even if Lord Sallebury is anxious to ignore such indiscretions as that of Secretary Sherman's the people would not permit it, and hereafter American demands, if urged in unfriendly language, will be resisted, no matter what the risk. If America does not keep a better watch over her politicians they will hurry her into a conflict with this coun-

try, whereof no one is able to see the end." The disaffection in the ranks of the conservatives must be wideepread, judging from the amount of correspondence on the subject in the newspapers and from the murmurs of rebellion heard at the clubs and in the different jolitical centers. Joseph Chamberlain, the secretary of state for the colonics, is the standing grievance among the onservatives. The old tories say he is driving the party into an abyes of socialism. However, there is no fear that the grumblers will take any radical steps, for if they transformed their words into acts the result would be a defeat for them, which would probably make Mr. Chamberlain supreme

when the next crisis arisec. EASTERN QUESTION. Gunboats are now being built in England or transportation in sections to Abdul Hamid whence there is open water to Khartoum. These gunboats are powerful. They draw only two feet of water, steam fourteen knots an hour and are armed with 15-pounders and Maxim rapid-fire guns. It is announced that the whole flotilia will be ready to move south from Abdul Hamid early in It is positive, however, that Berber, the next important point on the Nile, may be seized before long, without waiting for

the naval reinforcements After the Anglo-Egyptian forces are gathered at Abdul Hamid, Berber, Swatak and probably Kaseal, the final advance on Khartoum will occur. Serious fighting is expected before the Mahdists are routed, hence the necessity for British troops to supplement the Egyptians. It is reported that the Khalifa has 250,000 soldiers under his command. But in all probability this is an exaggerated

The Turkish newspapers, evidently inpired from the palace, are printing lurid pictures of the disaffection in India said to caused by British outrages, and, in short, here is a regular propaganda upon the part f Turkey to create troubles for Great Britain in Mohammedan circles, as an offset to

ondon's abetting the Armenian agitation. The officials of the India office admit that Afghan officials have been concerned in the recent risings in India, and the strong reinforcements of British troops which are now being pushed to the front show that the authorities are fully alive to the dangers existing. It is strongly binted that the long ized, but circumstances hardly warrant this

NEW METHODS IN TELEGRAPHY. The postoffice officials here are deeply interested in the experiments in telegraphy made by Prof. Crehore of Dortmouth college and Licutenant Squier of the military school at Fortress Monroe, who claim that their device enables messages to be transmitted with extraordinary rapidity. The inventors said to a representative of the Associated "The experiments over short circuits in the

been entirely satisfactory. The inventors, however, are reticent pending full demonstration of the practicability of their scheme, They seem to fear possible rivalry. It is claimed that their device will transmit enough natter in an hour over a single wire to fill

An official of the British postoffice said to he Associated press: "There is no doubt the Amoricans have a most valuable idea, which may result in greatly cheapening telegraphing. We are not yet quite satisfied of its practicability, but the experiments of next ventors than their own home."

The inventors are thinking of going to France and Germany to show their schema to the telegraph officials of the governments of those countries.
