THE BEE ON TRAINS.

All railroad newsboys are supplied with enough Bees to accommodate every passenger who wants to read a newspaper. Insist upon having The Bee If you cannot get a lice on a train from the news agent, please report the fact, stating the train and rallroad, to the Circulation Department of The Bee. The Bee is for snie on all trains.

INSIST ON HAVING THE BEE. PARTIES LEAVING FOR THE SUMMER

Parties leaving the city for the summer can have The Ree sent to them regularly by notifying The Bee business office in person or by mail. The address will be changed as often as desired.

A folding bed is the cause of a law suit in Kansas City. The folding bed has now been blamed for almost everything in the catalogue of human woes.

The European anarchist who wants to secure admissions to the United States is warned not to print his vocation on his calling card if he hopes to elude the restrictions of the immigration laws.

An original package has just been defined once more by a indge of the federal court for the district of South Carolina. The only sure way to tell an original package is to draw out the cork and sample the contents.

FLOATING IN A BOTTOMLESS TUB. When asked if the recent rise in the price of wheat was not a contradiction of the argument of the free coinage men that wheat and silver always traveled side by side in market value. Senator Henry M. Teller of Colorado declared to a reporter of The Bee last week:

> e asked. It is generally admitted by the as sacredly guarded against judicial press of the country and those who are fa- usurpation as against the encroachments miliar with conditions that the advance in of power-grasping executives. The freewheat is due to the short crop in the world. dom of conscience and of speech and the Silver men have never denied that the law right of the people peaceably to assemble supply and domand regulates the price of wheat, but the allver-using countries are better prepared to enter the markets of the world with their product of wheat than the against invasion from whatever source gold countries, and thereby stimulate the and under all circumstances. Only in a

wived for it about twice the value in their noney that an American farmer would reeive. This double price to them was in noney which they could use in paying their

taxes and other fixed expenses. This created demand for silver in those countries. which increased its price. Now those countries have no wheat to exchange for silver,

and are out of the field of competition in government justifies serious apprehen-This is another example of the difference between before taking and after taking, Senator Teller's logic in 1897 is most decidedly at variance with the logic of Senator Teller and the other free silver leaders in 1896. In the standard free sliver text book known as Coin's Financial School, this doctrine

is laid down as an axiomatic principle of economics; An ounce of silver bulllon would buy a

bushel of wheat in 1873 and it will buy a oushel of wheat now. Two ounces of silver cullion would buy a day's labor in 1873 and wo ounces will buy a day's labor now. The declaration that an ounce of silver bullion should exchange for a bushel of wheat at all times and at all

places was accepted as genuine coin last year among all the silver camps thority. from Maine to California and Mexico to Alaska. The demonetization of silver was held up as the sole cause of low prices, not only of wheat, but of all other products of the farm and factory, which were said to be gauged by the price of silver. But silver and wheat have parted company and refuse to travel together in 1897. It now takes nearly two ounces of silver to buy one bushel of wheat on the New York market. The discrepancy between the theory of 1896 and the facts of 1897 must be reconciled, and therefore Senable ator Teller reverses his former teaching and admits that the price of wheat is governed by the laws of supply and

demand and not by the price of silver bullion any more than by the price of Twelve months ago Teller, Bryan. Harvey and the other silver apostles

proclaimed from every stump that the American farmer could not compete and contempt for law that breed turbuwith the India farmer so long as an lence and stimulate lawlessness. Englishman could buy his wheat in

India for silver without regard to its market value and could sell India wheat bought with silver in competition with American wheat paid for in gold. That fiction is now exploded by Senator Teller himself. With the great diverhe is signing and he can not evade regence between the prices of silver and sponsibility for the mandates he issues wheat staring him in the face he claims by whomsoever they are framed. If ig-

that the India farmer has the adnorance of the law is no defense for vantage of the American farmer ben ordinary citizen, how much less is i

The advantages of having a governor who is also a practical farmer are becoming system of England during the last ten year demonstrates in a remarkable manner i popularity with the people. In 1886 ther were 6.562,395 depositors. In 1896 they ha more apparent every day. Had Mr. Mount bees an amateur agriculturist or a mere green city man, with the vague general idea increased to 11,384,977. In 1886 the value the that everything that grows in the ground must be planted in the spring, he would 696,852. 660. In 1886 the interest paid to depositor have appointed Arbor day for April or May or placed to their credit was £1,169,590. instead of October, as he has dor -and then most of the trees planted would die. 1896 the interest paid to depositors amoun to f2.222.545. The total amount standin to the credit of depositors jumped from £59, 874,338 in 1886 to £97.868,975 in 1896. 1

1868 there were only eighty-one such bank in Canada, and the balance to the credit depositors then was \$205,009. In June 189 there were 800 banks, and the balance du-depositors amounted to \$31,000,000." A new sect has developed itself in central There is little doubt that an institution and western New York, and this fact recalls the query why New York of all states, should be especially gifted in developing freak religions. There seems to be someof the kind would be largely patronized i the United States. At the same time, ho e some-ew sect almost endless amount of trouble in its or Canan-ganization and conduct. The most seriou on the shores of Lake located question that would arise would concer the securities or investments. The chief these are the government bonds. In answ its belief is the pet swear-word of economical men and begins with an "h." Victims to this the Chicago Chronicle, which this creed frequently have bysteria and visions of what they have escaped. One and prese the scheme, says that the amount One such bonds available for such investment the entire members of to brim-the United States, under the present polic of the articles in the creed is that the entire world, with the exception of the members of the freak sect, is destined to brimstone and blazes, and it would seem as if this prespect ought to keep a person of will be extinguished in a quarter of a cer if this prespect ought to keep a person of average sensibilities in hysteria for the rest look to other investments for the funds aris f at least one natural life. The name of this new people is the Holy ing from the system and at the present tim-there are apparent only those securities is which the ordinary bank deals. These, fo

Rollers, and when about to be converted they lie on the floor and roll over and over from the greater part, are of variable or fluctuat end to end of the building, until the devil ing values, and it is evident at once that a rolled out. This edifying performance government banking system that would dea ometimes lasts for several hours, and as he victim rolls by the audience he is in such securities is out of the question In his report of 1892 Mr. Wanamaker fur nished the following interesting and seem

obliged to answer questions about the con-dition of his soul. The new religion evi-dently does not agree with worldly pride or ingly practicable plan: "Designated postoffices to receive on de onal cleanliness, unless the church floor crubbed very clean before each holy posit sums of not less than \$1. which may is scrubbed very clean before each holy roll. It is and to have to any it, but a good be in postage stamps on cards to be furnished interest to be added from the beginning o unsympathetic doctor and a well-directed the next month after deposit, on sums of no stream of water from a garden hose would less than \$10. All deposits to be transmitte hose would less than \$10. All deposits to be transmitted supply from Hawaii there would be less back to unhysterical sin. at the beginning of each half year, fix the at the beginning of each half year, fix the

will soon be an accomplished fact, the New York Herald says there are only two remaining puzzles. "Somebody must discove he secret of the fish's tail, which puts ou best propeller to shame as a sort of stage oach affair, and then we shall have rapi ransit across the ocean with a vengeance ome one clse must find the secret of the wing, and then we shall shins for passengers and merchandise When we have made these two discoverie and applied them we shall look for the mil lennium.

country,

ald says:

GOLFING

Is a very popular pursuit, and it has had its influence on the clothing styles of the season. Half the men who wheel do so in golf suits.

The bicycle suit, precisely speaking, is a different thing, but every one to his taste. We half golf suits and bicycle suits in every desirable style.

Everything else that goes with an outing suit is in our Furnishings Department too.

And for those stayat-homes that don't want knickerbockers, here are attractive light-weight summer fabrics made up in the most desirable styles, and at prices that are positively as low as can be.

Our guarantee with every garment.
