ul men closely observant of stock market onditions, be a test day likely to indicate the tendency of the market for the rest of the week. If there be shown strength, if the market proves itself able to with-tand profit taking sales and professional hammering that may be conspicuously in vidence, then in the opinion of veterans the coming week will be one in which the advance will continue. If, on the other hand, a weakness sets in, Wall street will ook for a week of irregularity. Fully appreciating this fact, the reaction-sts and bear traders will probably put forth their best efforts on Monday, hoping thereby to make an impression at a time when the street is ready to receive one. But, judging from Saturday's market, their fforts will meet with but little success. They have tried hard to bring about lower prices at the close of the week, but com-nicsion houses, coming in with scemingly infinited buying orders, made these bear peraitions look insignificant. Monday is usually the best day of the week for com-nission house purchases, as it is from this source that the bears will meet oppo-diton. Chicago is more largely interested in the sittion. Chicago is more largely interested in the present market than has generally been disclosed. A New York newspaper says that Norman Green Ream, John Cudahy, Philip D. Armour and "a score of other Chicago millionatres" are indulging in im-pertant operations. One Chicago man now in Europe is credited with having bought 250,000 shares of St. Paul and Burlington during the present week.

Financier says: The bank statement for the <text><text><text><text><text><text> week ended August 14 reflects more ac-curately than usual the revival of business.

London Weekly Money Review. LONDON, Aug. 15.—The week has wit-

nessed a revival of interest in the money

London Wool Market.

LONDON, Aug. 15.-The wool market luring the week was quiet. There were a

hesitate to inflict upon other people, and with absolute impunity, because the person of a small boy is regarded as sacred, however much of a nulsance and evil he may become. There is not one case in a hundred where children are trained to yield implicit obedience to their parents or to have that respect for their elders which was the rule

fifty or sixty years ago. fifty or sixty years ago. "Without some cerious, honest exercise of home influence and discipline the crop of boys coming up will to a considerable ex-tent result in hobos, tramps, loafers, black-legs, and idle and worthless characters, while the girls will be seeking or forced into divorces to be got rid of. The politicians, as the result of such impotent rearing, will pearly all turn out to be boodlers. nearly all turn out to be boodlers, embez zlere, and untrustworthy men, destitute o all moral character. The business men wil all moral character. The business men will be unreliable. Few of them will believe that honesty is the best policy or a good policy in business. Their idea of business will be to cheat, jockey, over-reach, and de-ceive all they can. That is the present idea of smartness. Still others will grow up into professional criminals. "The lock of home training is the principal

of smartness. Still others will grow up into professional criminals. "The lack of home training is the principal cause of all this lawlessness, and the school has set the example by liberating children from wholesome correction. So long as a

from wholesome correction. So long as a hoy is not punished at home and cannot be puni hed at school it is no wonder that he from wholesome correction. So long as a determable condition to receive with profit boy is not punished at home and cannot be punished at school it is no wonder that he feels at liberty to do what he pleases. He knows that he will not be held to any re-sponsibility, and hence he gives free rein to his vicious propensities. He knows that he is safe from discipline at home and that he is est libble to police interference. This one through the sense of seeing. There is

the American Educational association at Milwaukee was a central theme both in the general session and in the department of clementary instruction, writes Andrew Meredith in the Independent. The need o increased expenditure upon these schools was universally conceded, but to secure this continual local efforts are necessary. report urges that meanwhile the funds al ready available should be used more advan

tageously than at present. This can be done by consolidating the country schools wherever that is necessary and possible. The creation of central schools, to which the children from a central radius are

The question of "College Entrance Re-

of my life, dating back as far as February. 1864. On coming up from the depot the thing that attracted my attention most was steady. the dirty, unpainted condition of so many of both the public and private buildings.

The conclusions seemed to be forced upo me that the painters were all dead and that the Woodman Oil company and the Carter

white lead works had gone to the funeral and had concluded it would not pay to come

You are advertising your city very exten You are avertaing your city very exten-sively and are inviting the people of both continents to attend your Tranamississippi and Inernational Exposition next epring. You are expending much valuable time and money in making preparations to receive and entertain the strangers. This time and money is being contributed by a compare money is being contributed by a compara-tively for persons, and out of all this every respective owner expects to receive a certain amount of benefit. This being true it places at the door of every property holder a cor-responding amount of responsibility. If he was not able to contribute in money to the

back.

come through the sense of seeing. There is no logic so forceful as the object lesson. Talk ever so glibly of your great "packing house interests," and of your immense "smelting works," of the granaries of your

farmers burstlag with fatness, the stranger that rides through your city and notes the evidences of neglect, poverty and decay written on so many of your once beautiful homes will be presented with an object lesson that will successfully refute the most powerful argument that may be presented. With pure linseed oil selling at from 30 cents to 35 cents per gallon, and white lead rom 5¼ to 6 cents per pound, there can be

no valid excuse for most of the property owners for not doing much of the needed work. Brush up, rub up, clean up and paint up. Examine your premises. Do something to improve them. Let everybody do this. You never can accomplish so much at so small an outlay as now.

at so small an outlay as now. The next object lesson that especially at tracts the stranger's attention is the ragged, split, half-gone, faded-out, fiithy old signs that ornament your frontis pieces and windows. Here is a truthful street scene: A few days ago I stood on the southwest corner of Fifteenth and Farnam streets. A gentleman approached me' with a check in hand. "Sir, can you tell me where I can find the bank on which this check is drawn? They

ferent and timid parents are new sowing. It will not be long before the usefulness of the home as well as of the schools will be destroyed." **RURAL SCHOOL AND COLLEGE. The Recommendations of the Educa-tional Committee of Twelve.** The report of the "Committee of Twelve. The report of the "Committee of Twelve. The man came: "Why, that bank is right here. Don't you see the place where the gold let-ter sign has all fallen off from the win-dow?" Farther cast on Farnam 1 noticed another bank fully as bad. These are not isolated case. I refer to them as samples of many, and they certainly- cannot plead poverty as an excuse. poverty as an excuse,

Gentlomen, correlation to the flames one-quarter of your signs. Paint and re-letter the fallen. Make them look fresh and lathe failed, an according the failed and the viting. The passerby may take the hint that there is some one alive inside. If you cannot afford gold leaf, use aluminum. If not aluminum, use eilver; that's cheap enough. But do not use wheat flour paste to atick it

cn. That's too expensive. CALIFORNIAN VISITOR. FINISHING NEW MEDICAL COLLEGE.

stendy at 48 ed. New York Dry Goods Market. NEW YORK Aug. 14.—The dry goods market closed the week with great strength shown in both firsts and jobbing quarters. The week has been an emimently sathfactory one. Taken all in all, it has beaten any record made since the summer of 182, and the month bids to be like-wise a banner often trade. Up to the close advances were made on all staple cotton Russ and farther upward reaches are confidently ex-perted. The demand for prints, though not so pronounced as the movement in blanched brown and coarse colored cottons, has been of a note-worthy character. Woolen goods show a firm prine recorded, and selers and buyers looking forward to a further advance. This has caused a very active demand for goods in all grades, and the sales of the week have been extremely satisfactory. Print cloths are firm at 28c, with a beller prevailing that they will advance still more. Articles. Manchester Textile Trade Review. Manchester Textile Trade Review. MANCHESTER, Aug. 15.—The situation shows little alteration from what it was a week ago. Yarns are firm, but builness is only moderate and prices show but triffing changes, though stocks are growing. Cloth is flat, with little demand from any quarter except at rainous raise. This manufac-turers have accepted considerable lines in eastern goods for forward delivery, hoping that the fail in cotton will protect them against zerious loss. Print goods are dull and fine goods difficult to sell. The home-buyers only take for current needs. \$1,19. SUGARS-Cut lonf, \$5.54; granulated, \$5,21; standard A, \$2.09.
