

OTHER ISSUES THAN SILVER

Gilbert M. Laws Doesn't Think the White Metal Counts Everything.

POPOCHATS SHOULD BROADEN THEIR FAITH

Government Ownership and Government by Injunction Offer a Scope as Enticing as That of Finance or Tariff.

Lincoln, Aug. 19. (Special.)—At the Popochat conference, held at the Board of Transportation rooms last night in preparation for the coming legislative session, G. M. Laws, who holds an appointment as one of the secretaries of the Board of Transportation by virtue of his position as a free silver republican, expressed himself as strongly opposed to having the principal speakers, such as Bryan and Weaver, address the separate conventions. He believed that the speeches should be made to a mass meeting so that a democrat like Mr. Bryan might not be hampered in discussing political questions before a popular convention, or Mr. Weaver be embarrassed before a democratic gathering. The speakers should be permitted to speak before a mixed crowd, so that they would not have to be careful in the expression of their views. Mr. Laws was interviewed regarding the matter today and was asked if a discussion of the silver question would not be sufficient at this time. There were some matters of equal importance upon which the three parties agreed, such as government ownership of railroads and government ownership of the post office. These questions, and indicated in his opinion, that he considered them of more vital importance than the silver question.

Mr. McAllister and family are out on a camping trip. The family had left the steamer and other more valuable articles for a number of hours before they were discovered. It is believed that the thieves were successful in securing much.

Exeter, Neb., Aug. 19. (Special.)—A third manufacturing industry has just been launched in Exeter, which, to the farmers of Nebraska at least, and other states as well, will prove a great boon. The medicine has only been in operation a short time, but has saved thousands of dollars worth of hogs in this community. He has had a larger number of hogs treated than any other veterinarian in this county. He has had three hogs which had contracted the disease, and all recovered. The doctor claims that the remedy will prevent the disease, and that he has saved thousands of dollars worth of hogs in this community.
