Discussion of Motor Franchise by Citi-

zens and Council is Delayed. The city council was to have met as a committee of the whole last evening for the pur pose of permitting the objectors to the passage of the motor company's ordinance to have another inning. The council as a committee of the whole was to have met a committee of eight citizens representing the obfectors and discuss the charter with them. Chairman Sims of the citizens' committee informed the mayor yesterday that for him t his request impossible present, and at the meeting was deferred until this evening, when the friends of the ordinance, the cit mens' committee and the aldermen will talk the matter in a friendly way. ever conclusion is arrived at will be recognized by the council when it meets on Tues

The new ordinance that the council is now considering is almost the same as that passed suit at the coming term of the district court recently by the city council of Dubuque ex-tending the charter of the street car com-pany in that city for a period of fifty years. It is broader and much more liberal in its provisions than the charter originally given the motor company under which it is now operating, provides for the commutation 5cent ticket over the bridge line for the accommodation of workingmen and clerks who work in Omaha and live in Council Bluffs. meets in many respects the demands the citizens. The motor company objects to some of the provisions and has notified the council that it will refuse to accept it if they are not eliminated. The opposition to the extension of the franchise has been greatly modified within the last

There is a general feeling now that the council will pass the charter ordinance, and a desire on the part of the public that the company should accept it as it nowstands.

Aged Mother of the Sheriff of Pottawattamle County is Brutally Treated by Two Masked Men.

Sheriff Morgan received a letter from his sister, Mrs. Byrne, living near Lewis, this county, yesterday afternoon containing information of an outrage that was perpetrated upon their aged mother on Tuesday night. Mrs. Morgan lives on the old farm homestead several miles west of Lewis, and oc cuples a little cottage by herself, while the daughter and son live near by. On Tuesday night between 12 and 1 o'clock Mrs. Morgan was awakened by a rap on the door. She called out to ascertain who was there and was told that it was a messenger with an important letter. The voice from the outside was that of a man hoarse or muffled and strange to her. The aged woman was family have returned from their summer residence to 554 Broadway, Council Bluffs, their parley unlocked it and opened it far enough to permit the alleged message to be handed by p. m., Sundays included. All sick and afflicted who desire health come and be forced by violatile against it and forced by violatile against it and

forced it violently open. Mrs. Morgan was thrown on the floor and her mouth stuffed with rags, after which she was firmly bound with cords. The men then proceeded to search the house. While they were engaged in this work Mrs. Morgan managed to get the gag from her mouth and told the me if robbery was their object they would find nothing by searching, for she had no money or valuables in the house. The men again forced the rags into her mouth, bands firmly behind her and tied her to chair. The robbers then took their time to search the house. Their search was rethe same organization in South Omaha, was warded by the discovery of her pocketbook married Thursday evening at Vincennes, containing 40 cents, which was all the

money there was in the house. After the burglars satisfied themselves that there was nothing else of value they returned to the room where they had left the helpless woman, and after readjusting the gag and tightening the cords that bound her they left the house and closed the door. The camping outfit was snugly packed in Mrs. Morgan was bound and gagged until two prairie schooners and the party camped her daughter called in the morning and her daughter called in the morning and found her. Mrs. Morgan is 70 years old, and the rough treatment to which she was seriously affected her.

Sheriff Morgan said last evening that they had good reasons for suspecting a couple of men and had some strong circumstantial evidence, but feared there would be considerable difficulty in identifying the men, as the house was dark, or but dimly lighted in a short time. The pion, if it was reciously contemplated, of removing it and the men wore masks. His mother con Des Moines has been abandoned. NOTES FROM THE DISTRICT COURT Lake Manawa Rattrond Company Succ

for Damages by Wend's Estate. F. D. Wead, administrator of the estate of the late Frank H. Wead of Omaha, begar a suit in the district court yesterday against the Lake Manawa Railway company and Receiver Hannan, asking judgment for \$15,-000 damages for the accidental killing of Frank H. Wead last summer. The accident occurred on June 20 last year. Wead and a party of Omaha friends were returning m the lake in a large carryall hired from an Omaha livery stable and driven by a man in the employ of the stable. As carryall approached the point where wagon road crosses the motor line north of the lake, the driver observed the train running parallel with the public highway and going in the same direction he was driving. He overlooked the fact that the railway track made an abrupt turn just ahead of him and crossed the road and reached the crossing just as the motor train struck it. The driver realized his danger in time to swing the four-horse team parallel to the tracks, but the vehicle was close enough to be hit. Wead was sitting on the rear steps of the carryall, and when it was whirled around he was thrown day evening for the purpose of taking what under the wheels, and received in is now expected to be final action upon the from which he died four hours later.

Iowa State Fair. Secretary Fowler of the Iowa State Fals association has been in lively communication with the agricultural implement men and other exhibitors in this city relative to the importance of making a creditable showing at the state fair, that will be held at Des Moines from September 9 to 18. Secretary Fowler assures the exhibitors that the the best in all respects ever held in the state. He calls attention to the fact tha lows is just now in the best condition that is has known since 1892, and the people will have plenty to show in the way of exhibits and money to spend in preparing their exhibits. It is probable that Council Bluffs wi have a fine exhibit. The fruit growers are also urged to unite in getting up the great fruit display that is possible, and it is likely that some concerted effort in this line will be made. The secretary predicts that the at-tendance will be larger than ever before, and that the people will be well entertained for

their visit to the state's capital.

ROBBERS GAG AN OLD WOMAN CONSOLIDATING WOMEN'S CLUBS Determined Effort to Get Them Into

Central Organization.

Mrs. George T. Phelps and several other public spirited women have interested them selves in a practical effort to consolidate the women's clubs of the city. There are a score or more of them, and they cover a wide range of social and economic aims. It has been the desire of the members of about all of them to secure a federation that would not inter fere with the individual aims of any of the clubs, but would unite all for the consummaion of any particular thing desired. This cooperation is especially desirable in connection with the proposed work of Council Bluffs the Transmississippi Exposition Individually no club could have a very great influence, but acting in concert they would have a power that is potent and would be felt whenever exerted. Mrs. Phelps has taken the lead in the effort to effect this consolidation, and has been proceeding in a practical way. She has leased the suite of up for the use of all of the club women and invited each club to make it headquarters. The rooms are provided with hardwood floors and ornamented with all of the cozy little luxurice that women love. They have not een opened yet for the reason that details of the proposed plan for a consolidation rebe perfected. STATUS OF CUBAN QUESTION

Our Ministers Abroad Directed to Sound the European Governments.

WHAT THEY THINK OF INTERVENTION

Lord Salisbury Not Likely to Oppose Action by United States Spain Likely to Be Called to Time.

WASHINGTON, Aug. 20 .- Officials of the State department were very reticent today when asked concerning a report in circulation that instructions have been given all our foreign ambassadors and ministers to European countries to sound and ascertain the attitude of European governments, in case the United States should interfere in Cuba. While denials were made by some of them, the others admitted that the United States was ready to assume the position taken by President Grant in 1874 in his instructions to Minister Cushing. Although it never appears that these instructions were carried out and there is no knowledge what Spain would have done in the premises, it is possible that Minister Woodford will have a different report to make.

It can be stated on information received here that there is no truth in the report that Lord Salisbury has sent an unfavorable answer to a suggestion that the United States should interfere, the fact being that he has not replied at all to the attempt to sound him on the subject, and that his attitude practical solution of the problems presented gives reason to believe he will not oppose such action as our interests may make neces-

sary.
Minister Woodford's instructions are to intimate to Spain that the United States will intervene unless the situation in Cuba speedily improves. This in effect was the instructions which were given Mr. Cushing by Mr. Fish, and it is understood that the attitude of the United States is almost identical with the position taken during General Grant's administration. Then, as now, the good offices of the United States had been tendered to Spain to bring about a settle-ment of the war, "but," said Secretary Fish, "the well intended proffers of the United States were unwisely rejected by Spain." The secretary reviewed the situation, which resents many similar phases to that which exists now. President Grant said the secretary regarded independence as the necessary solution of the Cuban question. The attitude of the present administration is said o be in the same line, and it is said Minster Woodford will make it plain to the Spanish authorities that our interests will make intervention imperative unless somehing is done speedily by Spain to improve the present situation, disastrous to our in-

Editor New York Journal, New York City; Nebraska produced in 1895 nearly 300,000,000 bushels of corn, quite a percentage of which yet remains in the state. The corn crop this year will equal or excel that of last year. Her crop of wheat this year is enormous, reaching from 40,000,000 to 50,000,000 bushels, which, because of active foreign demand; is being disposed of by farmers at much more satisfactory prices than has been received of late. Live stock interests have assumed large proportions and are constantly growing. Even with prevailing low prices these and many other branches of industry add materially to business activity. Nebraskans have been buying but little during the period of business depression, using their means to meet pressing obligations. They are now beginning to buy, carefully and only when they have the means to pay. No indebtedness is being contracted except when ability to meet it is certain. Business is generally being conducted on a safer basis than heretofore. I regard Nobraska as equal to any other part of the country in which to do a satisfactory business under present general conditions. With bimetallism instead of single gold standard, a tariff in the interest of the consumer and producer in place of the present monopolistic and trust-breeding act, and satisfactory laws probibiting trusts, Nebraskans will be on the high road to permanent prosperity. permanent prosperity, SiLAS A. Surveying Party Now in the Field

Surveying Party Now in the Field and Five Thousand Men Will Be Put to Work in the Spring.

SAN FRANCISCO, Aug. 20.—A special correspondent of the Bulletin, writing from Juneau, Alaska, under date of August 11. says that railroad communication between Juneau and Dawson will be one of the things of the near future. Next spring 5,000 men will be at work, and the road will probably be completed before next fall. The proposed road is to start from the head of steamboat navigation on Taku river and run to Lake Teslin. Light draught steamboats will be operated from each end of the new road, and it will take four days to make the journey from Juneau to Dawson. There is a surveying party already in the field consisting of W. A. Pratt of Wilmington, Del., chief engineer of the Yukon Mining, Trading and Transportation projected railroad; T. C. Jentransportation projected railroad; T. C. Jentransporta Transportation projected railroad; T. C. Jenney, assistant engineer; P. I. Hacker, the assistant. Another road is being surveyed to start from Skagway bay, crossing the White pass. This road will be built by an I must English company.

ONE IN TEN MAY MAKE THE TRIP. Poor Chance to Get Into Kloudike This Year.

PORT TOWNSEND, Wash., Aug. 20.-In a etter received here from C. M. Weymouth, who left here on the last trip of the Mexico. dated Lake Lindemann, August 7, Weymouth says he is disgusted with the trip ever the pass and would return but for the terrors of returning over Chilkoot pass. Weymouth's opinion Dyea will become ious as a horse market for the reason that orses cannot etand the usage there longer than a few days, when their hoofs, regard ers of heavy shoes, become so broken as to entirely incapacitate them for further Weymouth is with W. J. Jones, the Un tates commissioner for Alaska, and a well known newspaper correspondent, which party was the first to land at Lake Lindemann since the Klondike rush began. Both Jones and Weymouth give an opinion that not one in ten of those who are now at Dyea enroute will be able to cross the divide this year.

The social butterfly is really not so much an idler after all. She works hard. She keeps late hours. She manages a household-plans entertainment for her guestssuperintends the buying of furniture, the making of dresses, the ordering of dinner; is worried by her social duties, by servants, by a thousand things, and with it all she must perform the duties of wifehood and motherhood. Is it so very wonderful that her health fails? It fails as other women's health fails. The beginning is some slight derangement of functions peculiarly femi-nine. From the beginning the progress of disease is swift and appalling, unless it is quickly checked. The frightful prevalence of "female weakness," over thirty years ago caused the invention of Dr. Pierce's Favorite Prescription. It is a sure, perma-nent cure for the ills common to women. It is equally valuable in keeping women well. Taken during the expectant period it greatly lessens and sometimes entirely climinates the pain and danger of child birth.

GOOD COMPLEXION

comes from good digestion and good health, and these often come from the cure of constipation by Dr. Pierce's Pleasant Pellets. Stipation by Dr. Pierce's Fleasant Fellets,
J. B. Stone, Esq., of 21 Marshall Street, Hartford, Ct., writes: "Dr. Pierce's Fellets, were recommended by a neighbor who thinks there is
nothing like them. I am subject to acidity of the
stomach and indigestion. As soon as I feel it, or
have eaten too heartily, I take a 'Pellet;' or if I
find that my dinner or supper does not act right
I take one pill. A good many pills that I have
taken cause an unplessant feeling all the next
day, or a weak 'gone' feeling that the 'Pellets'
do not cause. They seem to straighten me out
all through the system without tearing me up."
