REACHES THE DOLLAR MARK

September Wheat Takes a Big Jump in the Chicago Market.

FIRST QUOTATION MADE AT THAT FIGURE Closing Price Only One-Half Cent

Below Top Quotation Corn and Onts Join in the Upward Movement.

CHICAGO, Aug. 21.-The first curb quota tions on September wheat today were at 97 cents, an advance of 4 cents over yester day's closing. In five minutes 981/2 cents was asked. Corn also gave indications of a boom, the September curb price ranging from 30 to 30%c, an advance of over a cent a bushel. Ten minutes after the curb opening September wheat had sold back to 971/2

cents. December sold at 97% cents The opening price for wheat on the regular oard was 98 cents for September, a jump of 5 cents a bushel, compared with yesterday's final figures for regular trading. Sales were made all the way between 98 and 97 cents for September in the first few moments and 96% cents was touched for an instant. Ten minutes after the opening wheat was selling at 9714 cents for September and 96 cents for December, and did not vary much rom these figures for some time.

The wildest excitement was in the coarse grain. Corn was un nearly 3 cents a bushel oats up 2 cents. It was sympathetic, of ourse, with wheat. There is a great shor course, with wheat. There is a great short interest in each. Both pits were jammed with traders. On the 2½ cents advance in corn, Counselman and other cievator people sold heavily. Showers and warmer weather are predicted for the corn states tomorrow. The corn market yielded on selling by elevator interests, and on the prediction of warmer and showery weather for all the corn states. Prices went off a cent from the top.

Lynn was a heavy celler of Sentember. Lynn was a heavy seller of September wheat. His selling stopped the advance after the opening. A good deal of yesterday's wheat excitement was caused by the fact that the bull crowd had calls on 2,000, 00 bushels of September wheat, which, as the close last night, it called, increasing by that much its September line.

ALL IN AMERICANS' HANDS

Considerable Excitement Occasioned Among London Grain Speculators. LONDON, Aug. 21.-The fact that the price of wheat has reached \$1 a bushel in the United States has produced considerable exitement among grain speculators and others n London. The secretary of the Baltic said: "Of course we have been caught largely short. The rise in the price of wheat, with the uncertainties of the future, make a somewhat hysterical market. The rise of 6 pence in the price of barley, for example, today, was due to no assignable cause. There is no speculation here, as it is known in Wall street, though there is some speculation at

Liverpool. The secretary of the Corn exchange re-narked: "There is no speculation here as narked: uch transactions are generally known There has been a disposition on the part of the outside public to bear the market, but the brokers have discuaded their clients from so doing. The rise in prices yesterday morning and today was not due so much to 'dollar wheat' as to the buying by France, where the harvestings are proving disap-pointing. Our millers, too, are short. Our brokers have not made much, as they held no stocks; but it is needle s to say the rise of half a crown in the price of wheat yes-erday makes the livellest times on Mark The Americans have apparently go

t all their own way.'
The Westminister Gazette, referring to he rise in the price of wheat, says is an unmerited stroke of good luck for President McKinley's government, which ought to have been overtaken by swift calamity for shamelessly paying election debts to the trusts by the passage of the Dingley bill." At the same time, the Gazette finds comfort in the allegation that the Bryanites are made to look foolish," and adds: "The western farmers will see t once that high prices are compatible with a gold standard, and the destruction of Bryan and his panacea is bound to follow. if President McKinley's supporters are wise they will not for a minute imagine that when they dispose of the silver craze they will dispose of the revolt against the American capitalists, who have never used their so ruthlessly as since the last presidential election.

DENOUNCES "EXTORTIONS." The Westminister Gazette then proceeds denounce the "extortions" of the new United States tariff, which, it adds, "is one of the worst and most fruitless sources of corruption of public men and public servants." In conclusion, the Gazette says 'The degree of success which has attended

Bryan shows that the Americans are becom-ing alive to the rottenness of something and ext time the campaign will be directed less gold standard than to the standard of The same crowd has calls good for tonight about \$1. Lynn sold about 1,000,000 bushels of September in this morning's trading around 97. Schwartz-Dupee did most of it. December wheat gradually crept up nearer the September option, reaching 96% cents,

while September remained nearly stationary around 97% cents. The Linn selling of wheat today was regarded by many as sig-nificant, because he has, it is said, had the largest local line on the big advance in price. and was about the only trader to make a great profit. Gossip had it that W. T. Baker was also selling.

Just before 11 a. m. wheat began to sud-denly advance again, and the price jumped up to a new high point, overtopping any thing yet reached on the regular board— 8814 cents for September and 9734 cents for

The receipts of wheat at Minneapolis and Duluth for the past week were reported at 1,495 cars, against 1,614 the previous week and 2,297 the corresponding week a year ago This news was not a minute old here when the tiptop mark of even curb trading was passed, and the record was 98% cents for September and 98% cents for December. At this moment New York was up to \$1.05. Meanwhile the Schwartz-Dupee selling of corn was keeping up at 33 cents for December. This firm had up to 11:15 a.m. sold between 2,000,000 and 3,000,000 bushels of corp. Be-fore 11:30 a. m. September wheat touched 99 cents and December 98½ cents. New York started this latest advance by showing no break when Chicago yielded. Dispatches from the scaboard were to the effect that cash sales for export there were 1,700,000 bushels yesterday. there were lively fears that the calls would

Bartlett-Fraser reported that they had buy ing orders on corn from about every foreignarket. Closing continental cubics report-Paris wheat up a franc, equalling, 514 cente per bushel, contrasting sharply with yester-day's relative weightess in French markets. than five minutes letter the dollar mark was reached, and Schwartz-Dunee paid 100 cents for a lot of September wheat. When this red-letter record had been made, there was a temporary reaction to 99% cents, but a momer- as compared with yeaefrday's closing quota-

PHILADELPHIA, Aug. 21.—There was inense excitement in the wheat market again this morning when September wheat in Chicago came over the wires at 98 cents. The crowds gathered in front of the blackboards and yelled themselves hourse. There were numerous orders here for cargoes and parnumerous orders need for cargos and par-cel tots which could have been worked at lest night's closing prices, but it was im-possible to do business to any extent at the advance, although about 19,000 busiels changed hands on a basis of \$1.05% for No. Most Popular Corner in Council Bluffs---"BOB'S"

highest reached in over six years. WILD TIME IN NEW YORK MARKET.

attained yesterday and are now out hot-fool for \$1.25 a bushel in the New York market Today's opening was one of the most excit ing of the entire week. Members and others who had not been seen in downtown circles in years flocked to the floor and gallery to watch the sensational developments in wheat. At the first sound of the gong Sepember swept up to \$1.02, selling also dow o \$1.01% at the same instant in other parts of the pit. The crowd of buyers fought vigorously among themselves to get possession of the few lots offering and quickly bit the

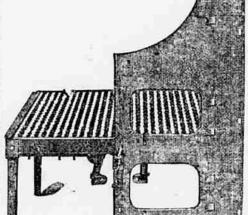

price up to \$1.03\(\frac{1}{2}\) by rapid strides of half a cent or more at a clip. The bears were nowhere. It was a feverish clamor for wheat from all sources Eleventh hour bulls, those who never come in to buy until prices have already had big advance, were particularly prominent the early dealings. December opened fro \$1 to \$1.00% and went flying after September mpelled by mad rushes to buy and general bull excitement. It soon reached 1/2 cent and then, in common with the rest of the list, cooled off a little in activity and up ward movement. For a time the wholmarket rested like some huge monster taking breath after a fray. But toward midday the restless energy of the bulls started prices climbing once more. Just before the close September reached \$1.05%, coming off to \$1.051/2, which was the official closing

During the next hour on the curb pandemonium again broke loose, for the wires anounced "dollar" wheat at Chicago. A cheer, almost as hearty as that which greeted the similar event here, went up from the pit and the bulls shook the market to its foundation with their demands for more wheat, forcing September still higher to

It was a feverish day, giving promise of sensational markets in the future. While there were several points in the news which under ordinary circumstances might bave given the bears a foothold, they had no fluence in view of the overpowering bull sentiment among traders. Cables from Liv-erpool came 4-cent to % higher than last night, but foreign houses sold as much as they bought. There were no important transactions and the spring wheat outlook was made brighter by sunshine and warm weather. Cash wheat, No. 1 northern f. o. b. affoat, closed nominally at \$1.13 a bushel. Total sales of further were 4,557,000 bushels. Exports of wheat and flour, both coasts, were 5,200,000 bushels last week while Europe purchased about 3,000,000 bushels more during the week at New York and outports. Closing figures on wheat fu-tures today were about 42 cents higher than a prominent farmer of Monroe township, ha bushels yesterday. The crowd was bearing in mind also that the bull crowd had calls on 1,500,000 bushels of September at \$1 and higher.

FIX ONE TWENTY-FIVE AS THE LIMIT | that figure for it.

New York Wheat Bulls Predict that Price for September. NEW YORK, Aug. 21.-With a rush and a leafening uproar wheat started out this strong argument in support of what he declared was the popular demand in this respect. If he could not get a flat rate of 5 cents he wanted the company to be obligated a. m. the price had reached 99½ cents for \$1.25 a bushel in this market. Every eye besse a commutation ticket for \$1, good September and 99 beats for December. In less on the floor was fixed on the big dial as the gong stroke set the excited speculative machine in motion. Round and round went the hands until \$1.02% was marked for wheat that closed officially last night at 99% and and later on the curb at \$1.01½. As fresh high levels were reached the swarm of writhing broke's in the pit became swarm of writing brokers in the pit became simply frantic, and the bewildering roar which ascended like a bedism to the living tringed gallery, reminded the spectators more of a wildly excited political meeting than of thousands of dollars were changing hands on the nod of a head or the wave of a card. The first recorded sale of September was made at \$1.02, representing an advance of 25 cents over the official close. Later it whizzed to \$1.03\frac{1}{2}, in jumps sometimes of regular business in which thousands and whizzed to \$1.0315, in jumps sometimes of half a cent, disdaining the 14.2714-cent fluctuations that usually accompany a market's action. From there it fell again to \$1.023, but subsequently bobbed back again. lest night's closing prices, but it was impossible to do business to any extent at the added fire to the bull movement. Foreign houses, however, were not so unanimous on the buying side as they were yesterday, and this writing the market is still higher, and. At it o'clock the market had quieted to the buying side as they were yesterday, and this served to partially relieve the heavy department. No man or woman can enjoy life or accomplish much in this world while suffering from a torpid liver. DeWitt's Little Early Risers, the pills that cleanse that organ, quickly. from Liverpool came 3@3%d higher, and added fire to the bull movement. Foreign

somewhat for a breathing spell, with Sepember solidly fixed at \$1.03 Corn went up a cent a bushel, and oa

ollowed moderately.

Just before the regular closing wheat again ranched out into excited trading with an attendant rise to the highest point of the DWELLINGS FRUIT, FARM AND GARDEN morning, \$1.05% for September. Later on lands for sale or rent. Day & Hess. 29 Pearl the curb it held very strongly at that figure on light offerings. Corn was also very active and strong

36½ cents for September. It was reported that nearly 1,000,000 bushels of corn had been marked for export here and out potts today.

FARMER IS HOLDING HIS WHEAT Albert Russell of Platte County Ex peets a Dollar a Bushel.

COLUMBUS, Neb., Aug. 21.—(Special.) The mills of this city are offering today 78 cents for wheat and 17 cents for corn. Even at this price they cannot get enough wheat without shipping in. The Shell Valley roller mills will close down for two weeks, during which time \$1,500 worth of new and improved machinery will be placed in the mill. The Columbus Milling company is running night and day to fill orders. Albert Russell, a little over 2,000 bushels of sixty-two wheat which he is holding for \$1. not alone in the opinion that he will realize

Corn Rates Go Up. Officials of the Pittsburg & Gulf and othe outhern lines are smiling over the action of the lines east of Chingo in advanciof the lines east of Chinago in advancing the rates on earn. Effective on September 6, there will be an increase in corn rate from Chicago to the Atlantic scaboard of the case per 100 pounds. The present rate is 15 cents per 100 pounds, and the increase will make the new rate 20 cents. Southern lines profess to see in this move of the castren lines a rare opportunity for them to get the biggest part of the hauf or western corn, taking it from the field to the gulf ports and making expert of it from there. A corresponding raise in rates by the southern lines is considered improbable.

Raise of Five Cents at San Francisco SAN FRANCISCO, Aug. 21.—The local wheat market opened this morning with an advance of 5 cents over last night's figures

PEORIA, Aug. 21.-Spencer's band brought into the Board of Trade ball this morning and played several selections

honor of wheat reaching \$1.
