SYMPATHY SHOWN FOR THE STRIKERS

PITTSBURG, Aug. 22.—Religious services were held in the strikers' several camps today and all were largely attended, but notwithstanding the religious air pervading strikers took place in the afternoon, during which three strikers were badly hurt, but none are in a serious condition. Five of the men who are working for the New York and Cleveland Gas Coal company this afternoon went to William Zamon's boarding house, about one-half mile from Oak Hill tipple, where a number of strikers are quartered, for the purpose of persuading the strikers to go to work. The meeting was a stormy one and resulted in Antonio Podasky being shot near the heart, the bullet going nearly through the body. Gonrong Pimold was shot in the eye and Batiste Dalmesc was cut with a razor. The injured men are all etrikers. This was the only disturbance recorded at the camps today. The aggressive workmen escaped before the men on the Oak Hill camp were aware of the fight. The report that Sandy Creek camp will be abandoned is denied by the strikere

In addition to the general missionary work for the week the leaders have decided to direct especial work to the prevention of operations at the Sandy Creek mine. The strikers say they will resume their marching tactics in the morning, claiming that under the ruling of Judge Goff in the West Virginia cases, they are given this right. Samuel De Armitt says tonight that 150 to 175 men will be at work in the Plum Creek

mine tomorrow.

It is announced that the New York and Cleveland Gas Coal company will make eight more evictions tomorrow from eight different company houses. It is not probable

there will be any trouble.

The sheriff does not say tonight what course he will pursue in the morning should marching begin, but thinks he is ready to

meet every emergency.

Sympathy for the strikers by the farmers and citizens is not diminishing in the least. Today there were about 700 visitors to the camp at Sandy Creek, many of the farmers who came bringing wagon loads of provithey had plenty of food for the men an wanted them to call on them when needed. DISRUPTION PROBABLE.

Developments in the coal mining situation in the Pittsburg district will be watched with unusual interest this week. Both sides were apparently at rest today, but it was developed that at the conference tomorrow there will probably be a disruption. By many it is believed that M. D. Ratchford, the national president of the miners' izations will not be present. It is claimed he will stick to his original assertion that he will not agree to arbitration unless all states involved are represented. It is a well known fact that the operators of other states will not join local operators in a move-ment for arbitration. If Ratchford is ob-durate the conference will be useless.

This, in brief, is the situation, and it is apparent that both sides are making prepara-tions for movements that will be to their penefit. From a reliable source Was learned that if the operators start the mines on the lines laid down, other mines will also be started by the miners. It is proposed at the conference and who are friendly to the miners. They will be given permission to mine coal at the rate demanded and the coal stored. By this means it is expected to get a fund from the union miners that happen to be working and with this fund ply the expenses of a fight against imported labor. The miners' officials are making ar-rangements to have a fund on hand to send foreign labor home just as fast as it arrives. With mines operated under the jurisdiction of the labor leaders, and with operators that are friendly who reap a profit, they hope to have no available and large fund. This plan has been outlined and will be submitted to national officials if the conference proves

Superintendent Thomas P. De Armitt said tonight, in referring to the trouble between his workmen and the strikers, that as near as he could learn the strikers had fired the first shot. The place where the collision occurred, he says, is a speak-easy and in-stead of his men going there to influence the strikers, they had been requested to go there for the opposite purpose. He says an investigation will be made and if his men are to blame, they must suffer the conse

Miners Working Steadily.

DUBOIS, Pa., Aug. 22.-Vigorous efforts have been made during the past week by agitators to induce the miners of this place to join the strikers. The alleged labor leaders have been unable to get a meeting of the miners and have met with little encouragement through personal solicitation. Cont Makers Strike.

NEW YORK, Aug. 22.-The 1,500 operators on fine coats, members of Progressive Tallors' union No. 11, of the socialist section, went on a strike today. An increase of 25 today and they say that the men will be cents per garment is demanded, weekly sent there from Plum Creek and Turtle payments, the recognition of the union and a nine-hour working day. This strike will close 120 shops. Owing to the long standing contention between the Progressive Tailors union and the United Brotherhood of Tailors, it is more than probable that the member of the latter organization will take the places of the strikers. One hundred and six east side cigarette makers are on a strike for higher wages.

What Ratchford Thinks. COLUMBUS, O., Aug. 22.-President Ratchford said tonight before leaving for Pittsburg that he expected the result of the conference tomorrow with the Pittsburg operators would be that a general conference of all the coal operators and miners of the entire country would be called for the near future to consider the question of a settle-ment of the strike. He did not anticipate any other result from today's conference. Secretary Pearce will also attend the con-

The place of meeting next year will not be decided until the general committee meets in October, but Albany, N. Y., has the call and there is little doubt that the convention will be held there. CANDIDATES FOR OFFICE. Among the later announcements of candidates to succeed Commander in Chief Clarkson are the names of John C. Linehan of New Hampshire, George H. Innis of Massachusetts, James A. Sexton of Chicago, and J. P. S. Gobin of Pennsylvania.

Colonel Winans of Commander in Chief Clarkson's staff estimates the number of visitors to Buffalo during the week at 200, making the largest encampment ever. In speaking of the choice of the veterans for the next encampment, Colonel Winans said that so far as his information went there was but one choice among the lelegates, and that was Cincinnati. There seem to be a feeling, he said, among some of the eastern people that San Frincisco wants the encampment, but that is a mistake. San Francisco is preparing to make a bid in 1899. With regard to the encampment being held in Richmond, Va., he asserts there is nothing in it. The people down there do not want it and the veterando not care to go there. The chief objec-tion, he said, was the certainty of unpleasant complications over the color line. Notwith standing this view the Young Men's Business association of Richmond has opened headquarters here and is making an effort to secure the encampment. Colonel Winans says Pennsylvania will send the most people o the encampment, with New York second

The negro, named Andrew Green, was jest-

His wife one evening, disobeying his commands, came to the village from their commands, came to the village from their home at Garbutts Mills, some miles from Lovett. Andrew pursued her. On arriving at the station he found her seated on some cross ties near the depot in conversation with another woman and a negro man. Without a word of warning, he opened fire with a platol, shooting wide of his mark. He fired three times, two of the shots taking effect in the thigh and side of the unoffending woman who happened to be in conversaing woman who happened to be in conversa-tion with his wife. The negro fled in the direction of Garbutts Mills. In a short time the people of the town learned of the tragedy and a posso of fifty men well mounted and armed acht in hot pursuit of the murderer. John George, the husband of the innocent negro woman who had been wounded, had by this the posse and Green was captured in short order and brought to the mills. He was tried and whot in ten minutes. Total, 1896, \$7,920,458; 1897, \$1,580,663.

As the percentage of increase in the quanof the corresponding periods in 1896, is treble the percentage in the increase in the total quantity of their receipts as compared with the same period, it is happily demonstrated that the large increase in the quantity of sawn and otherwise finished lumber prod-ucts we are furnishing is not only at the expense of our wood exportations, but that ooth show a handsome improvement, diverted from the countries which usually enjoy the lion's share of the results of bettering conditions in the British markets. During the year ending June 30, 1897, wo furnished the republic of Mexico with lumber to the value of \$2,181,098, against a value of \$1,611,477 for the preceding twelve months, an increase of over 35 per cent. The average value of boards, deals and planks exported from the United States during the month of June, 1897, was \$16.13 per 1.000 feet board measure, the highest price ANTI-JEWISH DEMONSTRATIONS, recorded. This is an increase of \$1.39 per 1,000 feet board measure over the average for the twenty-four months ending June 30, 1895-96.

On Thursday night, however, he grew violent and his nurse and valet, who accom-panied him, began to realize that Mr. Deacon panied him, began to realize that Mr. Deacon was demented. The attorney who has charge of Mr. Deacon's affairs was sent for and responded at once. Shortly afterwards Mr. Deacon became demonstrative and discharged his nurse. Another nurse was summoned and all day Friday Mr. Deacon was almost uncontrollable. Finally it was thought advisable to send Mr. Deacon to McLean hospital as a precautionary measure. When pital as a precautionary measure. When there he quieted down and appeared contented. He looked haggard and seemed but a shadow of his former self. His hallucinations are that enemies seek to do him harm and the hospital influence seems to have relieved his mind on this point.
