were adopted unanimously:

The republicans of Box Butte county in delegate convention assembled unqualifiedly and heartily endorse and proclaim allegiance to the principles and precepts enunciated in the St. Louis platform of 1898.

We view with pride and confidence the excellent record and wise acts of that brilliant soldier, statesman and disciple of protection, President William McKinley, it., and confidently assert that the further passers. tection, President William McKinley, jr., and confidently assert that the further passage of time will give to our country and people increased and yet greater-reaching prosperity. That his promises and that of the republican party have brought better conditions, placed the country on a safe financial basis and opened for people of all classes the promised era of good times, we elte as a fact that cannot successfully be disputed. His foreian policy, and especially acts looking toward the amexation of the Hawalian islands, we commend and approve.

We also point with pride and satisfaction to the splendid record of Senator Thurston, Especially noteworthy are his patriotism and zeal for the Cuban cause, his bold attitude in the Venezuelan controversy, his mant achievements and standing

We denounce the narrow-minded and partisan attempts of Governor Holcomb to jure our state and people by unamerican zeal for party and office; for his cowardly and evasive answer to the inquiry of the press regarding the reduction of the indebtedness of the people of the state.

OFF TO LOOK FOR HIS SPOUSE

William Sisk Journeys to Iowa in Search of a Missing Wife. WATERLOO, Neb., Aug. 22.-(Special.)-William Sisk started last night for Villisca

In in search of his missing spouse. One day recently William drove his team to Fremont and when he arrived home late in the evening he was dumbfounded to find his house dark and deserted. On the dining room table he found instead of the supper he yearned for a note written by his wife stating that sle had decided to paddle her own canoe and that it would be useless for him to waste time endeavoring to find her. At first Mr. Sisk was wrought up to a very high pitch, but he gradually cooled off and sat down and did a lot of thinking. After mature reflection he acknowledged that he had been hoodwinked and played for a sucker. Yesterday Mr. Sisk learned that his star boarder had departed for Villisca, Ia. and he journeyed thither in hopes of finding his spouse somewhere in that vicinity. Should his suspicions prove to be well founded, unless he weakens when the time for a showdown arrives, there will be a very furld time in that old town, or locality.

## HAVE THEIR OWN TROUBLES

Douglas County Democrats Whetting Their Knives for Harmonious Primaries.

Michael . AFTER THE SCALP OF THE STATE MACHINE

Rank and File of the Party Preparing to Hit a Few Repugpant Hends on Next Thursday. .geT.

The democratic primaries to select delegates to the county delegate convention are scheduled for Thursday afternoon, and the outlook is promising for one of the most hotly contested political scrimmages that has been noticed in this section in neveral. campaigns. The split in the ranks of the democrats is not a matter of speculation, but an accomplished fact. It is openly admitted by both factions and the more hot headed partisans do not attempt to conceal their determination to dig up a knife if the other crowd should turn them down in the The differences date back to the days of

the late lamented legislature when it is alleged that the deal was made in which the support of the Douglas county delegation Minneapolis ...... 2 7 1 0 5 2 2 0 \*-19 for W. H. Thompson of Grand Island for Grand Rapids ...... 0 0 0 0 0 0 1 0 1-2 supreme judge was a consideration. The democrats who opposed Thompson assert that Senator Howell, Thompson and various other members of the state house crowd, entered into an agreement while the legis-lature was in session which was designed to promote their mutual interests in opposition to the expressed wishes of a strong element n their party.

There were three distinct numbers on the program. First, Howell was to receive the nomination for mayor of Omaha. Then Martin White was never to be allowed to be chief of police, and Thompson was to receive the nomination for supreme judge. Those opposing the deal say that they were familiar with the facts at the time and for that reason did not favor Howell's candidacy for mayor. But they refrained from openly opposing him for the sake of harmony, hoping that an open fight in the party might be avoided. The action of Howell and his immediate political supporters in the chief of police matter is recent history, and that wing of the party is said to be actively promoting the Thompson boom in this county Under these circumstances the anti-Thomp son men declare that they swallowed Howell's candidacy with as good grace as possible. They have seen Martin White turned down by the same influences, but now they assert that they will not swallow Thompson. Not only are they preparing to make a vig-orous light Thursday to elect anti-Thompson lelegations to the county convention, but they openly announce that if Thompson is nominated they will take off their coats and work for some other candidate.

MACHINE BEHIND THOMPSON. On the other hand the candidacy of Thompson is supported by a large number of democratic workers, who profess to represent a decided majority of the party in Omaha. They declars that the movement against their candidate is in the interest of Judge Scott, who will undoubtedly be nominated by the silver republicans, and Howell and his friends are vigorously opposed to anything which contemplates a democratic indersement of Scott. They declare that Scott sold Howell out in the last campaign They assert that Scott refused to speak at the Howell meeting at Boyd's opera house One of the Tollion boys, near North Platte, principal speakers, and gave the republican candidate for mayor at least a tacit sup The port in return for the appointment of his

Their opponents deny that they are for

Scott any more than anyone else. They simply will not support Thompson, but will C. H. W. Busse, near Golden, had seven acres of rye that averaged sixty-two bushels per acre, by machine measure. It would an indorsement of Scott as a good stroke be more by weight, for the rye is clean and of political diplomacy, while others favor of excellent quality. Mr. Busse states that Judge Sullivan of Columbus or Judge the straw was so rank he could not gather it all, on account of it being down, and thinks he lost about three bushels to the principles as his supporters would have PEOI declare that on that occasion Thompson. after having been put on the committee to represent the Bryan democrats, was one of the men who signed the minority report, which recommended that the administration delegates should be declared entitled to the contested seats. They contend that he has always coqueted with the adminis tration wing, and does not represent the real principles of the Bryan democracy. All this is as steadfastly denied Thompson's friends, but the issue has been made and the controversy between the factions has acquired a degree of bitterness that promises to last through the campaign. The democrate who are fighting Thompson expect to carry South Omaha, half of the country precincts, and at least five of the nine wards of the city. They have made a pretty thorough organization and will make a stubborn fight in every ward except the Sixth, which they concede to the Thompson crowd. While their expectations are more sanguine than the situation warrants, they will make things lively at the primaries and are likely to constitute a troublesome

element in the convention. SHRINKAGE OF THE SEAL HERD. Dr. Jordan Gives a Resume of His Investigations.

GAMES OF THE LIVELY AMATEURS.

By defeating the wearers of the blue, the Havdens recorded their ninth successive victory. The game was won by opportune hitting and daring base running. Welch was in the "stall" for the Haydens and his pitching was superb. He was very effective, except in one inning. Duncan, for the soldiers, was batted rather freely and was replaced by Salsman in the fifth, who fared little better. The feature of the game was the "bagging" of a long fly by O'Connor in the right garden. Summary: Base hits, Hayden, Il; Soldiers, 6. Errors: Haydens, 3; Soldiers, 4. I am now informed by one of the earlier friends of Prof. Lesell that the money came through Mrs. Whitman, his mother-in-law, but as to this, I venture to Mr. Lasell's wife herself, who, inheriting from her mother, was glad to turn the money to the accomplishment of a cherished pose of her husband. JUDGE SHIRAS DELIVERS AN OPINION Published Tariff Rates Are Accepted as Reasonable Intil Shown to

the Contrary by Com-

petent Authority.

Grain men here and in Iowa have been creatly interested in the recent suits brought by western grain shippers against various railroad companies for the recovery of damages because of "unjust, unreasonable and excessive charges" for the shipment of grain. Much attention has been attracted to the suit of C. L. Van Patten of Manning, In., against the Chicago, Milwaukee & St. Paul railway for the recovery of damages to the

amount of \$54,000. The defendant maintained that all of the rates paid by him on shipments of grain from Manning, Ia., to Chicago that were in exerce of 17 cents on corn and 20 cents on wheat, per 100 pounds, were exterionate and unjust to him and the town of Manning. His petition covered twenty-three counts based on ahipments of grain nucle from 1891 to 1896, inclusive.
The opinion of Judge Shiras of the United States circuit court, overruling the demurrer of the plaintiff to the answer of the de-fendant, was filed some time ago, but has not been published. For the guidance of grain men in future cases of this nature Joseph Connor, a prominent grain dealer of this city, recently secured a copy of the opinion. It is a most comprehensive expesition of the interstate commerce act in gard to the prohibition of unjust and unreasonable charges for transportation services. The following are extracts from the

concluding paragraphs:
"The proposition of the plaintiff is that
after the carrier, in obedience to the requirements of the act, has adopted, printed and posted a schedule of rates, and for the p.et five years has received and transported grain, charging the schedule rates therefor, and the chipper without protest or demur delivered his grain for chipment, knowing the schedule rate, and has paid the charges in conformity with the catablished rate, he of the statute of limitations being in action at law for damages, not on the ground that more than the schedule rate was exacted, or that the schedule itself provided for unsqual and therefore unjust rates, but solely upon the ground that the schedule rates, though uniform and property proportioned, were greater than they should have been. Thus the question is presented whether the inter-state commerce act, considered as a whole, Score Sittings, sutherizes and provides for an action of this the holding that it was the intent of ecu gress to place upon the courts and juries of the country the duty and burden of establishing the rates of transportation for interstate commerce, and upon the common carrier the burden of transportation with the right to ultimately retain as pay therefor the rate fixed by the verdict of a jury rendered, perhaps, five years after HOUSTON, Tex., Aug. 22-Ado'ph Toep-perwein of San Antonia, Tex., made a re-ing based upon shipments made from a different point, and at each point the ship-ments were made at many different times within the limits of from one to five years. It is self-apparent that no matter how intelligent the jury might be nor how conscien-Fires of a Day.

The buildings cov. but the standard of reasonableness under the ered three acres and contained expensive act is that which results from free competimachinery. Only three of the smaller build- tion among the carriers, which can be ings were saved, which included the office known when the carrier undertakes the duty cabin when the vessel took fire, had a tained upon the contention advanced in sup without the means of knowing what refor the work done. If the plaintiff's contention be sound every person, who, within five years past, more or less, has secured transportation for his property or person over a ine of railway engaged in interstate businers, can now sue the company, claiming damages on the ground that the rate charged and paid without demur was unreasonable, and in each case it will be for the jury to letermine as best they may what a real able rate is and award damages accordingly. It is sufficient to say that the consequence AUBURNDALE, Mass., Aug. 17, 1897 .- To would speedily wreck every railway in the

Morcover, it would render it not only possible, but a matter of comparative ease for the carrier and favored shippers to provide for rebates upon the schedule rates. The shippers can pay the scheduled rates; at the proper time suit can be brought to re-cover damages for an unreasonable charge; Jury can be readily convinced, in the absence of a vigorous defense, that the claim for damages is just, and a verdict follows; and thus the rebate is secured."
