

COMMERCIAL AND FINANCIAL

Beas Combination Oats About a Nickel Off the Price of Wheat.

CORN LOSES A CENT AND OATS A HALF

Foreign Markets Are Weak and Reports of Reselling by Foreigners Assist the Downward Course

Provisions Lower.

CHICAGO, Aug. 27.—Wheat furnished another sensation today. This time it was the bulls who suffered, September closing 5 1/2 cents lower and December a decline of 3/4 cents after a session in which the market trading was extremely violent and fluctuating. Weak foreign markets and reports of reselling by foreigners were ostensibly the reason for the decline, but there were plenty of rumors of a "bear" combination formed to break the market. This was also very turbulent and closed at about 1 cent decline. Oats were weak and declined 1/2 cent. Provisions closed 5/16 cents lower.

All enthusiasm had apparently leaked out of holders of wheat at the opening. Liverpool furnished a very disagreeable surprise, when, starting at 2 1/2 cents, it fell to 2 1/4 cents, and then to 2 1/8 cents, and finally to 2 1/4 cents, and then to 2 1/8 cents, and finally to 2 1/4 cents.

The consequence was that it started at 56 1/2 cents, or 1/2 cent below yesterday's close, and dropped almost steadily to 56 1/4 cents, and then to 56 1/8 cents, and finally to 56 1/4 cents.

On the other hand, the market for corn was very active and irregular. The market was weakly demoralized at the opening on account of the break in wheat, more favorable weather and higher freight rates.

The opening weakness was followed by a period of recovery, which was aided by a report of foreign buying, helped by a report of foreign buying, helped by a report of foreign buying.

The market was weakly demoralized at the opening on account of the break in wheat, more favorable weather and higher freight rates.
