All Europe Derides the Latest Break of Germany's Emperor.

HIS COBLENTZ BLAST ELICITS RIDICULE

"Blaring of a War Horn of the Aucient German Gods."

THUS THE ROMAN PRESS DESCRIBES IT

Significant Note of Warning Sounded in William's Cwn Realm.

CONSTITUTIONAL RIGHTS ARE IN DANGER

Berlin Press Draws Parallel Between Roman Emperors of the Byzan-

tine Period and Other "Half-Mad Autocrats."

(Copyright, 1897, by the Associated Press.) BERLIN, Sept. 4 .- Emperor William's Coblentz rhodomontade has been received abroad with derison. Even the Roman press cannot swallow the emperor's "vice regency of heaven," and is describing the blast at Coblentz as the blaring of a war horn of the ancient German gods. Austria manifests considerable uneasiness on the subject, and throughout Germany a more significant note of danger has been sounded. Emperor William's speech is generally in-

terpreted as meaning that his majesty is determined not to yield to the wishes of Parliament and the newspapers, though not daring to say so openly, clearly intimate that the emperor's idea of his mission does not agree with his constitutional position. While his majesty may be responsible to nobody but God, it is added, the responsibility for the emperor rests upon the ministers, whose work the nation intends to control, no maiter how omnipotent or omniscient his majesty proclaims himself. The thoughtful and libacclaiming the speech.

The liberal newspapers are hoisting the danger signal. The Vorwaerts on Thursday drew a parallel between the Roman emperors of the Byzantine period and other "half mad autocrais," saying: "The emperor evidently contemplates, for the good violation of the people's constitutional

Even so loyal and moderate a paper as the National Zeitung guardedly but decidedly takes the emperer to task, reminding him that under the constitution his own duties and prerogatives and those of an army at Coblentz, Wurzburg and Nuremthe cabinet and the Reichstag are bounded berg upon the occasion of his visits to those by certain limitations which no one can transgress with impunity, adding: "His paraded four army corps before himself, the latest speech is unwelcome confirmation of empress, the king and queen of Italy, the

toasts have been becoming altogether to frequent of late, and they further hold that they are injuring the authority and dignity of the crown, the Tageblatt declaring that his najesty is reintroducing the mental unwisdom of Frederick William VI.

ANOTHER SPEECH COMING In spite of the flood of criticism, the emperor is said to be preparing to make another speech, in the exchange of toasts be tween himself and the king of Italy, at

Hamburg, as a counter blast to the Cronstadt glorification and as a fresh consolidation of the Dreibund.

The correspondent of the Associated Pres here understands on good authority that the time for Prince Hohenlohe to step out of office has been fixed for October, soon after the Reichstag resumes its session, and that the emperor will no longer try to hold the prince, since the latter, on July 2, declared through the North Gazette his inability to accede to any bill for the reform of military procedure which is not in accord with the chancellor's promise to the Reichstag namely, in accordance with modern ideas of justice and humanity. But it is just pos sible that his majesty may change his mind at the last moment. His present intention is to make Baron von Bulow the next chan cellor, and in political circles the impres sion prevails that Baron von Thielmann, the late German ambassador at Washington and present secretary of the treasury, will be

made secretary of foreign affairs. At the national convention of German Catholics just held at Landshut, Bavaria, resolutions were passed regarding the restriction of the temporal power of the pope. The convention was largely attended from

all parts of Germany. The military excesses of the past week or two have been much commented upon At Carlsruhe, during the course of an orgic held by the officers of the One Hundred and Eleventh regiment, First Lieutenant Knoll was suddenly and murderously assaulted with a saber by Major von Jacobi, and a general fight ensued, lasting an hour. Two noncommissioned officers of the Guards' Ar- late owner's state room, surrounded with tillery regiment, at Spandau, wantonly attacked and nearly killed with sabers two citizens with whom they quarreled on the yacht's officers and the old crew, which had

an enthusiastic crowd.

SHOUTING IN CONCERT FOR PEACE.

LONDON, Sept. 4 .- Public attention still centers in the dual alliance, though it has been interrupted by the shoutings of Emperor William of Germany, England remains apathetic, in spite of the fact that the center of gravity of European affairs has been shifted to St. Petersburg. Commenting on the present situation the Spectator re-

the arrangements binding Europe, the clearer it becomes that no one of the various powers can move without Russia. In some way or other every power except Russia is bound either by express agreement or by interests not to alter the status quo."

bury, though fully aware of the French jeslousies of England, place great reliance on the influence of the czarina over the ezar, and believe the alliance really makes way for peace.

Germany finds solace in the bitter chagrinof Emperor William's remark at St. Petersburg: "According to my conviction, we skimmed the cream."

Prince Bismarck, too, is softening German susceptibilities by explaining the weakness of the meanings of the words employed by the czar.

lirium continues. Rusalan names are given to every possible article of commerce or luxury. The streets will be rehaptized, wherever men cheer for the czar they lift their hats, and the statue of Strasburg is gaily decorated with floral wreaths in respense to the almost universal conviction that Russia means to compel Strasburg's return. Although the French manufacturers are already disappointed at not securing Immense Russian contracts, Russia certainly intends to do much to gratify French ambition. The first step announced is the es tablishment of a Russian legation at Tanglet to support French views in Africa, and France feels for the first time since 1871 that it is strong enough to have its own

President Faure is quite delighting Paris with the gossip of the Russian court. What astonished him most was the informal and eral minded in Germany feel much abashed entirely unaffected manners of the emperor and, naturally, the conservative and the and empress. The imperial couple, he exwhole of the reactionary press are loudly plains, live exactly like private people, in a small cottage with their children, dogs and | Cautious English Underwriters Do Not | photographs about. The ezar dislikes a military escort near him, goes about practically unattended and is immensely popular with the people. This last statement is confirmed by the reception that his majesty met with at Warsaw this week. There the Poles have of the fatherland, to reign hereafter in given him a great reception, and much importance is attached to his majesty's visit to Peland.

Between the intervals of the universal shouting for peace, the heads of the various nations are busy perfecting the effectiveness of their armies. Emperor William paraded cities, and today at Homberg his majesty the rumors which have been current for king of Saxony, the king of Wurtemberg, the months regarding the emperor's intentions." regent of Bavaria, the Grand Duke Nicholas A number of the leading papers protest of Russia, the duke and duchess of Connaught, the duke of Cambridge, Prince an Princess Henry of Prussia and many other

The army maneuvers proper do not begin intil Monday next, when 143 battalions of infantry, 115 squadrons of cavalry, 111 bateries of artillery, twenty-one technical companies and three companies of military eronauts will be divided into two armies of Prussians and Bavarians. The Germans have ctually mobilized a larger force than they ad on the French border in 1870, within ten lays of the declaration of war, and the troops are in the very positions they would occupy

f mobilized for war today. Though army maneuvers on a grand scale re occasionally occurring in the Crimea, the czar at the Warsaw maneuvers will witness the operation of 4,500 officers and 122,000 men or 176 battalions of infantry, 152 squadrons of cavalry and 644 guns. The mancuvers will e particularly directed toward solving the difficulty of supplying the troops with hot food in the field, improving the bicycle, postal telegraph and ambulance services.

e held in the north of France will bring two

OGDEN GOELET'S FUNERAL SERVICE. Brief Ceremony on the Mayflower

LONDON, Sept. 4 .- (New York World Caolegram-Special Telegram.)-The widow Goelet, accompanied by her son and daughter, sailed for New York today on the California in order to receive Ogden Goelet's yacht Mayflower. Before they left Cowes Rev. John Bailey, chaplain of the Royal of Erroll, the head of the Hay family. Yacht Squadron, conducted a funeral service on board the yacht. The body lay in the floral tributes. Besides the family, there were present Michael and Mrs. Herbert, the een on the White Ladye. The rest of the Mayflower's crew were in the adjacent saloon. The body lay in a lead coffin with a glass plate showing the placid features of the dead. On the plate on the cover of the outer casket was the inscription: "Ogden Goelet Born June 11, 1846; died August 27, 1897." Subsequently Mr. Kinkead, the American consul at Southampton, in the presence of Dr. Dawson and Skipper Jones, formally

The Mayflower sailed today for Southampton to coal, as a southwesterly gale rendered the operation impossible in the Cowes roads. She may be ready to sail for America to morrow. The voyage across the Atlantic is expected to take cleven days.

had been removed to the main saloon.

The Americans at Marienbad have been repeating a story that the prince of Wales the queen certainly was not haptized in the may offer to buy the palatial Mayflower, as he was immensely taken with her when aboard at Cowes. It is further said that if he should offer to buy the yacht, Mrs. Goelet would sell on terms which would make it virtually a present. But, however the easiest way out of a difficulty. The queen much the prince might like to have the Mayflower, she would be a white elephant to him, for he could not afford the \$250,000 a year it would cost to keep the yacht up. Besides, he has the use of the royal yachts whenever he wants them, and there is now hullding a new royal yacht, bigger than a visit he made to Rome. The queen re- rages, were shot at and seriously wounded the Mayflower, which also will be at his dis-

FOR THE TRANSMISSISSIPPI EXPOSITION AT OMAHA, 1898.

MANUFACTURES BUILDING.

The Greek Ionic style of architecture characterizes the Manufactures building. The order is of heroic proportions, carried out with great artistic care in every The principal feature of the lagoon facade is a circular dome 150 feet in circumference, rising to a height of seventy-five feet. The dome is supported on a row of fluted Ionic columns, and the space enclosed by them and under the dome is open, forming a grand, open, domed vestibule for an approach to the g. The inner dome is richly designed with ribs and panels and is to be decorated in colors, while the outer is formed by a series of steps rising in the form of a cone to the apex, which is crowned by a richly decorated base for a flagsta?. The outer row of dome columns is detached and the entable latter is broken around them at the base of the dome, and over each column is a statue and pedestal having as a background the stylobate of the dome. This treatment is very monumental in effect, and while in good taste and harmonious with the architectural style it is at the same time original and interesting. Over the doorway leading from this vestibule into the building are three large panels between the pilasters to receive paintings which will be emblematical of the character of the exhibits. Flanking the central dome are beautiful Ionic colonnades which form covered ways along the entire facade, stopping at the corner towers. Over these colornades are balconies capable of holding large numbers of people and opening from the interior galleries of the building affording a fine point from which to obtain an elevated view of the lagoon and the beauties of the grand court. The four corners of the building are marked by square plain towers surmounted by ornate, open, columned pavillons, circular in form and to serve for electric lighting. The Manufactures building is 300 feet long and 140 feet wide. It was designed by S. S. Beman of Chicago.

Insurance Companies Do Not Want the Argonauts at Any Price.

TOO MANY OPPORTUNITIES FOR FRAUD

Care to Tempt Unscrupulous Seeker for Wealth by Offering Him a Chance.

Copyright, 1897, by Press Publishing Company.) LONDON, Sept. 4.-(New York World fond of politics, and she at once flamed up Cablegram-Special Telegram.)-The insurance companies here absolutely decline to take any risks on voyagers to the Klondike. Not merely the privations and dangers of the climate, but the possibilities of fraud by means of sham death certificates and the tendency to contract drinking habits have

conduced to this decision. The English company's promoter is naking what hay he can out of the boom while the sun shines. Several companier had the audacity to invite subscriptions for

the World on the Graeco-Turkish war under the title of "The Battlefields of Thessaly." He dedicated the work to the Turkish so!diery, on whom, as in his dispatches to the World, he lavished the highest eulogiums. The book is awaited with considerable inter- chance of success without the support of the forced to look about for another place in on being hot, and with the brisk south wind est, for Sir Ellis has become a "prophet in his own country," owing to the fulfillment of his prediction of the trouble in India as a result of Lord Salisbury's anti-Turkish policy.

AMERICANS IN FAVOR AGAIN. Resentment at American competition in two widely separated professions has declared itself this week. The report that D'Oilly Carte is about engaging Lillian Russell for the leading role in his projected revival of Offenbach's "Grand Duchess" has drawn down upon him the severest criticism of theatrical writers for neglecting in-Lillian comes to the Savoy, she will succeed Ilka von Palmay, an Austrian, and Carte is asked why no English soprana is good enough for him. > American correspondents of London uewspapers report that society in the United States is greatly exercised over the question whether Queen Victoria would assent to a union of Prince Alexander of Teck, who is to visit America, with an American beliess. Seeing that there is not the remotest human possibility that Alexander or any of his children could come within measurable distance of succession to the throne, the queen is not likely to trouble about the matter. The duchess of Teck certainly would welcome a a well-dowered daughter-in-law, for financial troubles have been the bane of her life and she has not a cent to leave to her sons. Alexander is a handsome young fellow, closely resembling his sister, the duchess of York, and he has the pleasant manners which are dis-

tinctive of the family. VICTORIA AND ROME. Stanch Protestants are greatly alarmed by the claim put forward by a leading Catholic journal here that Queen Victoria was baptized a Roman Catholic. It maintains that Anglican church; that the duchess of Kent (her mother), whose Catholic tendencies were well known, had her baptized by a Catholic priest, and that at the coronation both baptism and confirmation were conferred as herself is patiently friendly to Catholicism. and just now she has given striking proof of her regard for that religion. Rev. Jacob Primmer, a fierce anti-Catholic preacher sent the queen a copy of a book he had just published, giving a characteristic account of turned the volume immediately with a curt in- last night by a supposed anarchist, who was

WORST OUTLOOK IN FIFTY YEARS

Never Since the Awful Time of 1847 Has the Situation of the Irish Pensantry Been So

Desperate.

Copyright, 1897, by Press Publishing Company.) LONDON, Sept. 4 .- (New York World Cablegram-Special Telegram.)-"America has the whip-hand over Europe, which it ought to use prudently in order to get the full advantage of its exceptional opportunity, But it seems as if as long as the bulls and bears have a go at each other you Americans don't care what happens to the legitimate operator."

Thus spoke to your correspondent today Samuel Woods, the editor of Dornbusch's Trade Circular, admittedly one of the most experienced and trustworthy of the authorities on the London market. His predictions last October in the face of the then sudden boom were signally verified. When seen today he had just left the Baltic exchange. "Do you think prices likely to fall, owing

to the New York manipulations?" the correspondent asked. "No. Wheat is not going to be any cheaper," Mr. Woods answered. "There was a fall of nine-pence yesterday, from so appreciable cause, except the performances of the speculative element on your side. None except the Russian farmers are coming forward with stocks more freely.

PRICE WILL STAY UP. "But there can be ue flood of supply, although high prices will draw a free flow of wheat by the end of September. But you may confidently take it that prices are to be higher for the season. There will be no barking back to summer rates."

"What about the French crop?" "Well, the French appear to have overbought themselves in their excited way last week. Many are now sellers to get the enhanced prices, but the market is not affected by that, as it was discounted and the conviction prevails that prices will rule at or about the present level or higher if anything."

"Has the English crop been materially damaged by the break in the weather?" "The English requirements are not likely to be affected by the spell of bad weather. The quantity of the crop remains the same.

in the best possible condition." "Have you made any independent estimate of the European yield this season?"

"Yes. From special reports I estimate the total yield will be 157,570,000 quarters, as against requirements of 206,000,000 quarters. This yield is about 35,000,000 below 1896, and the reserves are unusually deficient. My in-Although the prediction for yesterday was dependent estimate last year was only 5 per

It is pointed out that if These conflicts, however, involved the ex- with an extended coast line from the north William J. Bryan, the first utterance after them labor and support. I have had some penditure of nervous power, and especially down to the east coast, almost to Inverness three months of travel and observation, durwhen, at the period of the constitutional con- castle, which is one of the most ancient in ing the return of prosperity. Among other those who have to deal with the wants and necessities of the poorer classes to be precared for what I firmly believe will be one

"The potatoes are all poor and in the mountain districts are hopelessly gone. I hay are rotting on the ground. Turt has been most difficult to be saved and now christen the new German battleship which is the salubrity of climate. Though we have ness of the republican position than the Joy cannot be drawn out of the bogs and mounmanifested by the republicans over events tains. I trust, therefore, that a word of

Up to the adjournment of Parliament Mr. "But have you the right of purchase?" he publicans desire to claim credit for the high Dillon was urging Irish Secretary Gerald price of wheat they must assume the re- Balfour to adopt measures to meet the an-A ticipated distress in the western seaboard counties of Ireland, but Mr. Balfour says: "In their reports to the local government Mr. Bryan says that the joy over the in- board the inspectors have stendfastly maincrease of money from wheat is evidence that tained that nothing exceptional need be an-

The Daily News correspondent more than face. Reports from all parts of the country tell the same woeful, depressing tale, The hay is rotting. The oat crop is beaten down into the earth, where the ear in not a few cases has begun to shoot again and what was early cut is badly tainted with mildew. But the worst, the most terrible of all for the poorer classes, is the dreaded erop. When all else has failed, the potato poverished Irish tenant. Should that crop grave in the extreme. Yet such a failure, unless there is immediate and complete change in the weather, may be regarded as a certainty.

"The boom in the wheat is not a matter for rejoicing in Ireland; it only helps to give deeper tinge of darkness to a picture al-

ready nufficiently black. "There still is hope that there may be a hange for the better in the weather, but even at the best the prospect is gloomy and all the gloomier on account of the bright pros-

nects two months ago." EDWARD MARSHALL

Duke Calls I pon Minister Woodford MADRID, Sept. 4. - The Spanish minister for foreign affairs, the duke of Tetuan, called oday upon the new United States minister to Spain, General Stewart L. Woodford
