

ECHOES OF THE ANTE ROOM

During the next week Omaha representatives will be hard at work in an effort to secure another exposition year convention for this city.

Senator John M. Thurston is expected to do the biggest part of the work in securing the encampment. He is Nebraska's delegate to this year's assemblage.

There is a fair chance that the convention will be captured, as the city's representatives go with a pack of inducements.

The encampment would probably bring somewhere between 2,500 and 3,000 visitors to Omaha during the week that it is in session.

The Indianapolis people have made considerable arrangements to entertain the visitors to the encampment during the coming week.

Woodmen of the World. W. Y. Teetzel, consul commander of Alpha camp and delegate to the celebration at the Nashville Centennial, and Sovereign Clerk John T. Yates returned last week and report that there were gathered at the celebration delegates from camps in Tennessee, Kentucky, Alabama, Mississippi, Arkansas, Georgia, Louisiana, Ohio and Nebraska.

On August 26 the Woodmen assembled at their unique building on the Centennial grounds. On account of the extreme heat the regular program was dispensed with and no parade was had, but an informal meeting was substituted which was very enjoyable in its nature.

On last Thursday evening Alpha camp gave a reception in honor of Sovereign Clerk Yates and Consul Commander Teetzel in the lodge rooms, Myrtle hall. A program was rendered consisting of recitations by Alpha camp band, songs by Messrs. Brady and Gleason, selections by a mandolin club, recitations by Prof. Goodrich, Mr. R. B. Clausen and addresses by Consul Commander Morgan, George M. Wilson and C. A. Tibbets, all of Council Bluffs.

On the evening of September 15 representatives from the different camps in this city and South Omaha will meet at the sovereign offices to make arrangements for a big joint turnout in one of the parks of this city. It is the intention to have a big body of men in line.

Campbell, superintendent-in-chief of the Burlington's experimental farm, and editor of an agricultural journal, known as Soil Culture, is in the city, after a trip through the farm lands of North Dakota along the line of the Northern Pacific. He says he never saw the western country look so well from an agricultural standpoint. In every transmissouri state, according to his statement this morning, the prospects for large crops of good quality are unusually bright.

Prof. Milton Whitney of the Agricultural department at Washington, accompanied Mr. Campbell on his recent trip, and expressed his admiration for the results he saw obtained from the Campbell system of soil culture.

The Russian government recently sent to this country two representatives to study scientific methods of farming in operation in the United States. These two gentlemen have spent some time in looking over the system of farming country with Mr. Campbell.
