

THE OMAHA DAILY BEE

E. ROSEWATER, Editor.

PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION: Daily (except Sundays), One Year, \$1.00; Six Months, \$0.60; Three Months, \$0.35; Single Copies, 5 Cents.

OFFICE: Omaha, Neb., 11th and F. Street. Telephone 1111.

ADVERTISING: All communications relating to news and editorial matters should be addressed to the Editor.

STATEMENT OF CIRCULATION: State of Nebraska, Douglas County, ss. I, George H. Douglas, Secretary of the Bee Publishing Company, being duly sworn, depose that the actual number of full and complete copies of the Daily Morning News and Sunday Bee printed during the month of August, 1897, was as follows:

Table with 3 columns: Date, Copies, Total. Rows for various dates in August 1897.

Sworn to before me and subscribed in my presence this 21 day of September, 1897. N. P. Felt, Notary Public.

THE BEE ON TRAINS.

All railroad newsboys are supplied with enough Bee to accommodate every passenger who wants to read a newspaper.

Omaha and Nebraska are the best advertised city and state in the union and it will not be long before the good effects of this advertising are seen.

South Dakota is one of the states that is enjoying unprecedented crop conditions and South Dakota's share of returning prosperity is bound to be big and bright.

In accord with the eternal fitness of things an ex-penitentiary bird has been elected president of one of the so-called A. B. C. Lincoln clubs where A. B. C. is said to be integrity, fidelity and purity.

A republican club organized to hold the republican candidate for county clerk before any one knows who that candidate will be a misnomer. It should be called an anti-republican club.

The European powers seem to be rediscovering the fact that the island of Crete was at the bottom of the late unpleasantness between Greece and Turkey which they have been spending months in trying to patch up.

Ex-Governor Altgeld of Illinois has become a rampant advocate of government ownership of nearly everything that is now owned and operated by corporations.

Yellow fever is a dread visitation, but medical and sanitary science has made such marked progress in recent years that it is practically impossible to suffer a yellow fever epidemic such as formerly proved so destructive to life in the southern states.

The slot machine gambling mania is increasing from day to day and it would not be surprising if the proprietor of some one of the numerous resorts offered to donate one day's proceeds to some worthy charity just to start it as a society fund.

Bryan tells the public that he thinks the separation of silver and wheat prices will help rather than hurt the cause of free coinage. On that theory the greater divergence the greater the impetus to the free coinage movement.

The popocratic nominee was the real choice of none of the three conventions that nominated him. He was forced upon unwilling delegates by the state house machine.

The more populists for principle reflect on the fact that they permitted the head of their ticket to be nominated for them by two parties which together cannot muster one-half the populist voting strength in Nebraska.

It would naturally be supposed that the fusion sentiment would be strongest in Colorado, which is held up as the silver stronghold but it seems that the so-called silver parties in the Centennial state have each put into nomination tickets of their own.

Dr. Jekyll-Peabody is one of the police commissioners who thinks he has been insulted by the intimation that he has been using police patronage to pay political debts.

MEASURE OF NATIONAL PROGRESS.

In his speech at St. Louis on Labor Day Mr. Bryan said: "Not only must any real prosperity begin with those who toil, but the nation's progress toward a higher civilization must be measured by the progress made by the producing classes."

Compare the present condition of the producing classes with that of forty years ago, just before the civil war. Everybody familiar with the history of that time knows that the great body of American workmen are very much better off now than they were then.

The same is true of the agricultural producers as a class. Very generally the farmers of forty years ago led a hard and dreary life. It is recreatingly true that many do so now, but relatively the number of such is less than it was four decades ago.

The producing classes of this country have certainly had a severe experience during the last few years, but still on the whole they have made progress and they are now started on a course of more rapid material advancement.

The reports of the suffering already being experienced in the Klondike gold region by the men who went there with an insufficient supply of provisions forebode what may be expected later on.

The reports of the suffering already being experienced in the Klondike gold region by the men who went there with an insufficient supply of provisions forebode what may be expected later on.

With two exceptions—that of C. V. Gallagher and E. H. Hemming—there has not been a man or woman added to the Omaha police force except by the vote of Mayor Moore.

The council has decided as a measure of retrenchment to reduce the pay of the special agent of the legal department from \$83 to \$60 a month.

POPOCRACY'S DIVIDED HOUSE.

W. J. Bryan, in Lincoln, September 1: "All other reforms must await until the money question is settled."

Ex-Governor Horace Hoar, Marshalltown speech: "Free coinage of silver at the rate of 16 to 1 is the best issue."

Ex-Senator Preffer, interview in Kansas City Star: "Free coinage of silver is not the only issue, nor is it the most important."

John P. Altgeld, in Philadelphia, Labor Day: "The most serious problem that confronts the American people today is the aggression of corporate monopoly."

Chicago Tribune: Bryan says: "Internationally bimetallic exchange being proposed until an international agreement becomes probable."

New York World: Bryan speaks of a rise in the price of "one grain staple, wheat." But there has been a rise in nearly all the great staples.

Philadelphia Ledger: More than \$21,000,000 is the estimated value of the real estate in the city of Philadelphia. More will go to a part of the country where it is sorely needed.

Springfield (Mass.) Republican: One of the West Virginia judges has now carried out the plan of the general benevolent association to limit the number of lawyers in the state.

Baltimore Sun: There has been no such increase of the world's volume of money of any kind since last November as Mr. Bryan's theory demands.

Chicago Post: Mr. Bryan is not as discreet and modest as Teller or Bland or other veterans of free silver.

Detroit Free Press: In the presence of a practical demonstration that makes denial of the question of "specialization" in the great law of supply and demand a foregone conclusion.

St. Louis Republic: The St. Louis Republic wakes eloquently accurate in pen picturing the late leader of the sacred ratio who tarried in the necessary to secure proper representation at the exposition.

Lawrence Washington of Alexandria, Va., has been appointed an assistant in the Congressional office of Mr. Bryan.

President Ingalls of the Chesapeake & Ohio road emphasizes his confidence in prosperity by placing an order for 2,000 new freight cars.

There are several people now shedding tears over the famine in India who could have been saved by the contribution box sent around last year.

The St. Louis Republic wakes eloquently accurate in pen picturing the late leader of the sacred ratio who tarried in the necessary to secure proper representation at the exposition.

The destruction of the conspicuous scenic beauties of the Hudson river goes on undisturbed by the authorities.

The horseless carriage has struck Omaha, but what Omaha most needs at this time is a horseless mayor who will not hand in any old communication written for him by those who oppose the present board of fire and police commissioners.

The council has decided as a measure of retrenchment to reduce the pay of the special agent of the legal department from \$83 to \$60 a month.

The new hall that has passed by the late fusion legislature is a frightful jumble at best and will inevitably be destroyed in different ways by the different officers upon whom devolves the duty of carrying it into effect.

OPINION ON THE CONSTRUCTION OF THE SECTIONS RELATING TO THE APPOINTING OF JUDGES.

It is not likely, therefore, that he would feel anxious to restore Sigwart, who he also knew in the light of the disclosures of existing police retrenchment to be unfit for any position on the force.

First Witch—When shall we three meet again? In thunder, lightning, or in rain? Second Witch—When the hurly burly's done, when the battle's lost and won.

Under the provisions of the charter authorizing the council to order pavements within 3,000 feet of the court house without petition of property owners, the council is in position to contract for the pavement of Nineteenth street, from Douglas to Dodge.

Chicago Tribune: Bryan says: "Internationally bimetallic exchange being proposed until an international agreement becomes probable."

New York World: Bryan speaks of a rise in the price of "one grain staple, wheat." But there has been a rise in nearly all the great staples.

Philadelphia Ledger: More than \$21,000,000 is the estimated value of the real estate in the city of Philadelphia. More will go to a part of the country where it is sorely needed.

The popocratic nominee was the real choice of none of the three conventions that nominated him. He was forced upon unwilling delegates by the state house machine.

The more populists for principle reflect on the fact that they permitted the head of their ticket to be nominated for them by two parties which together cannot muster one-half the populist voting strength in Nebraska.

It would naturally be supposed that the fusion sentiment would be strongest in Colorado, which is held up as the silver stronghold but it seems that the so-called silver parties in the Centennial state have each put into nomination tickets of their own.

Dr. Jekyll-Peabody is one of the police commissioners who thinks he has been insulted by the intimation that he has been using police patronage to pay political debts.

REVISION NOT PRESSING.

The Omaha Bee expresses the belief that the common impression that there is a practically unanimous sentiment in financial and business circles favorable to the revision of the currency proposed by the reformers is erroneous.

The September issue of the Strand is a most interesting number. Timely articles are fully illustrated by excellent pictures.

Chicago Tribune: Bryan says: "Internationally bimetallic exchange being proposed until an international agreement becomes probable."

New York World: Bryan speaks of a rise in the price of "one grain staple, wheat." But there has been a rise in nearly all the great staples.
