HARVEST PROSPECTS DISHEARTENING

Most Calamitous Feature is the High Price of Foreign Flour—People Dazed with Despair and Disorganization.

(Copyright, 1897, by Press Publishing Company)

LONDON, Sept. 9.—The following information has been obtained from eminent Irish ecclesiastical and British statesmen on the winter outlook for Ireland. Earl Cadogan, viceroy of Ireland, voices the ministerial view and the fact of his giving an opinion to the world shows the profound anxiety of the government concerning the aspect of the universal cry of alarm in all parts of Ireland. Archbishop Croke, one of the most distinguished and experienced of the Irish hierarchy, speaks with exceptional knowledge and ripe experience, while the dioceses of the bishops of Ross, Clonfert and Galway are among those most acutely affected by the failure of the harvest. William O'Brien has unsurpassed knowledge of Irish conditions and resides in one of the poorest and most congested districts of Connacht.

Earl Cadogan, viceroy of Ireland, directed the following message to be sent the world: "DUBLIN CASTLE, Sept. 9.—In reply to your telegram the lord lieutenant desires me to say that reports which would characterize as most alarming and the predictions of a famine in Ireland you mention are, in his excellent opinion, entirely unfounded."

REPORT IS DOUBTED AT COLON

Story of British Control of Panama Canal Not Credible.

LONDON, Sept. 9.—The following report, which was published in the "Times" of Sept. 8, has already been widely and seriously raised the price of bread. I have never been able to obtain any definite view of those who regard high prices and dear food as a blessing to mankind. It is not only the reports which are most severely on the decline of the community who are most likely to bear the brunt of the price of the food, but also the very people who are most likely to be benefited by the increase of the price of the food. The fact that an artificial famine is being created in Britain has secured the franchise, and would control the waterway between the Atlantic and Pacific. I am informed from Bogota, a city in the interior of Colombia, that the report is untrue. The canal company has suspended payment. At Los Cascales the unpaid workmen became riotous yesterday, and a strike of the workmen followed in the order. A short conflict ensued, and one laborer was killed and four wounded.

More Fanaticism in Russia.

LONDON, Sept. 10.—According to a dispatch to the Standard from Moscow, a fanatic monk has given another curious illustration of a form of religious delusion now spreading in the Russian empire. The monk, who is named "The Holy Fool," has been buried in a cave near the town of Ural'sk, the capital of the government of the same name. Victoria is Planned.

LONDON, Sept. 9.—The queen has written the following letter to Earl Cadogan, the lord lieutenant of Ireland, with reference to the recent visit of the duke and duchess of Devon.

Prospect is Disheartening.

MOISTURE ST. MARY'S, Galway, Sept. 9.—The prospect is disheartening. Spring seeds were sown into the soil at a late date in the season, owing to continued rain. The result is a crop of inferior quality. The outlook is not bright. The prospect is disheartening. Spring seeds were sown into the soil at a late date in the season, owing to continued rain. London Paper Offers Advice.

LONDON, Sept. 10.—The Daily Mail, in this morning's editorial on the reported preparations in the United States for a fight with Spain, warns the American government and the Americans that they had better content themselves with writing warlike articles and firing shots in the air, instead of rushing into battle with "wild Europeans who mean business and deal bullets."

Deny the Suicide Story.

ROME, Sept. 9.—The rumor of the reported attempt at suicide of Piero Mascagni, the popular composer of "Cavalleria Rusticana," "L'Amico Fritz," etc., which the Gazzetta del'Espresso published under the fullest reserve, is officially denied at the offices of the ministry of fine arts here, which department by the government made an inquiry into the startling report.

Keeping Track of Anarchists.

LONDON, Sept. 9.—In response to the request of the government of the United States the authorities of Scotland Yard have been directed by her majesty's government to furnish information to the United States authorities on the names of persons known to be assisting the United States authorities in their efforts to suppress anarchism.

Minister Arrested for Begging.

LONDON, Sept. 9.—Edward Gwynne, who says he is a doctor of divinity of Brown university, was arrested on the charge of begging, at Bow Street police court today. He was discharged on a Congregationalist minister undertaking to take care of him.

Know Nothing of the Purchase.

BERLIN, Sept. 9.—The Norddeutsches Allgemeine Zeitung writes that the German government has not yet received any news known in semi-official circles as to the truth of the report from China via San Francisco that Germany has purchased the harbor of Tung Yung Row, near Poo Chow, for a naval station.

Mary Anderson in Concert.

LONDON, Sept. 10.—Mrs. Mary Anderson, according to the Daily Mail, says she will appear on the concert platform in London this autumn. She has been studying vocal music for two years with Maude Vieux.

Offer for Brazilian Railroad.

LONDON, Sept. 10.—An Anglo-German syndicate, including the Rothschilds, is announced to have offered the Brazilian government \$15,000,000 for the Central Railroad of Brazil.

NEW ORLEANS, Sept. 9.—Up to tonight there has been no change in the fever situation. Two or three cases had been reported to the Board of Health—a material falling off from yesterday, which were thirty-seven. These were investigated with the usual results. This evening Dr. Olliphant and his corps realize they have but one battle to fight—that of preventing any more importations from the coast towns, Biloxi and Ocean Springs.

THE NEWS FROM THE MISSISSIPPI SOUND

was satisfactory today and disappointing—satisfactory in that Dr. Gutierrez and the other government experts had declared that yellow fever existed at Ocean Springs and Biloxi, confirming the judgment of Dr. Olliphant and his associates, and disappointing because the fears of the public had been realized. Of course, the declaration of Dr. Gutierrez has set at rest all fear that yellow fever exists at Ocean Springs, but the peculiar condition of affairs here has not been explained.
