LINCOLN, Sept. 10 .- (Special.)-The labor bureau has received reports of the number and amounts of morigages filed and released during the first six months of 1857. from all the counties of the state, excepting Banner county. Some of the reports are incomplete, and in a few counties the law seems to have been misunderstood, as the foreclosures or sheriffs' sales were not included in the totals of releases. If this has been done the total amount released would be somewhat larger. It is noticed that the countles which the assessment rolls the countles which the assessment rolls show to have the largest number of cattle, the new chattel mortgages filed run up to large amounts, indicating that there have been large purchases of cattle for feeding.
