Fear Trouble at Dubots. DUBOIS, Pa., Sept. 11.-A crisis is expected in the miners' strike here before the day is over. This morning forty-eight armed foreigners marched to the mines and prevented 600 miners from going to work. The sheriffs of Jefferson and Clearfield counties are contemplated this afternoon. It is feared that this will result in serious trouble and much uneasiness is manifested.

Eight large bricks of bullion were refined and shipped to the value of any previous semi-monthly clean up. This increase was occasioned by the enlarged capacity of the company mills, while it is also understood that the ore is improving in grade. At this rate the output for the present month will be \$380,000, or \$4.560,000 a year. It has been given ou that the future clean ups will equal the last one and it has been estimated that the annual product will be at least \$1,000,000 in excess of any previous year.

There is not only a great anxiety on the part of those who have prospective land in view, whether it is or is hot to be included within the reserve, but from this time danger from forest fires will be greatly increased. The continuous hot winds thoroughly dried the underbrush in forests until it has become a tinderbox. miners' strike, which was declared on July 4, was brought to an end this evening so far, at least, as western Pennsylvania, Ohio, Indiana and West Virginia are concerned, by the action of the interstate convention of miners, which has been in session here since Wednesday. After a day of voting and wrangling the convention adopted a resolution accepting the proposition of the Pittsburg operators. The vote was 495 for and 317 against accepting the terms of settlement; eleven votes were not cast. The delegates from Illinois, who had 250 votes, were unanimously against a settlement. Indiana and West Virginia voted solidly to accept the operators' proposition, but there were scattering votes among the Ohlo and Pittsburg delegates against it. The resolution adopted is as follows:

While ten days is provided for the miners to resume work, it is probable that many of the Ohlo and Pittsburg mines will be reopened Monday. The convention adopted resolutions endorsing the action of the national executive board in recommending a scattlement on the terms proposed. The Himois miners will be called in convention at Springfield September 19 to determine what shall be done in that state. Some of the Illinois delegates are very bitter in their denunciation of the action of the convention, since they claim their interests have not been given due consideration. A resolution was adopted denouncing the action of the deputies in firing into the crowd of striking miners at Hazleton, Pa.

OTTUMWA, Ia., Sept. 11.-(Special Telegram.)-The officers today unearthed a plan to secure by force the release of Buck Murare now on the ground and wholesale arrests | ray, one of the Eldon bank robbers, which plan was foiled only in the most accidental manner. Various warnings had been given he officers by the force of Chicago detectives here, who know their man and his friends and who knew that an attempt would be made to get him away from the officers if of Murray's conviction the detectives noticed him acting suspiciously, and they guarded the doors. Nothing came of the incident at the time, but it has since developed that an armed body of his friends was at the time at the bottom of the stairs, and one of his Chicago companions was in a carriage which had been driven up under a window right under the court room. A bartender at a hotel saloon overheard the men make their plans, which were for Murray to make a run for the door, get outside and the armed men would cover his escape with their revolvers. SEATTLE, Sept. 11 .- The steamer City of Topeka arrived from Alaska at 4 o'clock this morning and brings the following letter to the Associated Press;

rivals at this port are the steamers Rosalie, Mayflower, Detroit, Willamette and Topeka and the falling off in the volume of travel is very noticeable. The majority of new-comers will remain at Juneau until spring. An effort will be made next year to turn the tide of travel by way of Sitks, going from there to Yakutal and Disenchantment bay and up the White river, the distance poing only about 425 miles from Sitka to Dawson, as against 700 miles from Junear over the present trail.

The building of a rairoad from Juceau to Lake Testin is now assured. Thorough examination by the interested parties has deided them to commence work at the earliest possible moment next year. The road will go by way of the lake, where the traveler will go by water to his destination. No doubt this will be the first railroad established, but it will propably be quickly followed by others, two prospective roads in particular having the same terminus as the Juneau road. In going into the Yuken country, the White Horse rapids and many other dangerous places will be avoided. This was only one of three mass meetings held today. Another at Harwood adopted resolutions expressing sympathy for "out murdered brothers who were shot down at Latimer" and continuing in this fashion: "For years we have been oppressed by the payment of starvation wages. They have deprived us of our liberty by compelling us to deal in their company store. They have forced us to purchase powder at five times its actual value and have otherwise tyrannized over us in ways too numerous to mention, so that we are no longer free men, but slaves. We assembled together peacefully and to seek redress for our grievances. Not one man among us was armed. Our mission was not to take human life nor to destroy property, but to go and meet

Latimer, who were in sympathy with us. We were opposed on the public highway and without provocation were shot down like

Resolved, That we deplore such resistance to the right to assemble and march. That we look upon such shooting as unprovoked and uncalled for, and that if such slaughter is not murder in law it surely must be before high heaven. That we denounce such action by the sheriff and his deputies as cruel and wilful and cowardly murder.

We place ourselves before the bar of public opinion and appeal to the good citizens of this state and county, and ask them if there was justification or warrant in such assassination.

assassination.

Resolved, That we extend our sympathy to the friends and relatives of those who have fallen, and pray to God that those now dead will live in our memories as martyrs to the cause of down-trodden labor. The third meeting was the most largely thended. It began at Hazle park, about 5 clock this afternoon, and adjourned to Donegal Hill, an open place at one end of the city, where it was in progress tonight. The purpose of this meeting was also to ex-tend sympathy and to decide upon a course of action in consequence of last night's

SUPPRESSED EXCITEMENT. Throughout the day the city has been given p to excitement, which by its suppressed

character has been more ominous than turbulance would have been. The incoming of the state troops, which began early this morning, served to cow the strikers and their sympathizers, and no further demonstration was made than the gathering at street corners of knots of men and women in mut-tered but intense discussion of the shooting. Tonight there are fully 2,500 soldiers camping in town. The first to arrive was the Ninth regiment, under Colonel Dougherty, from Wilkesbarre. Then came the Thirteenth, under Lieutenant Colonel Mettes; the Fourth, under Colonel Case; the Sixth, from Lebanon; the Twelfth, from Williamsport; battery B Phoenixville; the Governor's from Harrisburg, and the City troop of Philadelphia. The two latter bodies did not reach here until tonight.

General Gobin, commander of the Third brigade, arrived early in the morning and established headquarters in the office of the division superintendent of the Lehigh Val-ley Coal company, from which point he assigned the commande to points on the out-skirts and in the city. The Ninth was sent to Hazle park, commanding the road from Drifton and another from Lattimer, the Twelfth was sent to Donegal hill, on the opposite side of the town, holding the Janesville road. The second battalion of the Eighth regiment was pisced at Audenreid and was later joined by the Fourth regiment. The Thirteenth went to Lattimer and took up a position overlooking the mines toward which strikers were marching when the shoot-occurred. In spite of this, however, the uneasy feeling increases. The strikers have made up their minds, as several of them said today, to remain in perfect quietness until Mon-day. Resolved, That we, miners of Pennsylvania, West Virginia, Ohlo and Illinois, in convention assembled, do hereby agree to accept the proposition recommended by our national executive committee, viz., 65 cents in the PFtsburg district, all places in the above named states, where a relative price can be obtained, to resume work and con-

tribute liberally to the miners who do not receive the advance over which the fight must continue to a bitter finish.

Resolved, That the national officers, executive board and district presidents act as an advisory board for the purpose of providing ways and means for carrying on the strike where necessary, provided, however, that no district resume work for ten days for the purpose of giving miners in other districts time to confer with their operators and get the price if possible.
