## Thinking Men Listen

### That Tariff on Wool

...Is bound to materially advance the price on all woolen goods. Long before the tariff became a law we bought our woolsens and ordered our goods made up, purchasing an enormous stock at the prices prevailing then. That is the reason why we are able to undersell every other clothing store in America today. It was a business foresight that cannot fail of great results. Tomorrow we propose to start an Early-Fall-Before-the-Tariff Sale of men's, boys' and children's fine suits at prices 20 to 40 per cent lower than they can possibly be again while the tariff is a law. It is a common sense proposition, and we invite the people of Omaha, South Omaha and Council Bluffs to make a rigid inspection of our magnificent stock. Every garment cut in fashion and all new goods. Not an old suit is shown in our house. Remember, our personal guarantee goes with every suit.
