He is empowered assist the strikers in every possible way; to help them to gain their demands from the operators, and to arrange for the prosecution of the sheriff and deputies. Later in the day he said he had received word that a check for \$1,000 from the National Polish alliance, which recently mot in Philadel-phia, has been sent on for the aid of the iners, and that he has promises of addiand other cities. There are 12 000 Poles in the United States. A number of Polish priests from New York, Buffalo and other

places are expected to arrive tomorrow. Dr. Thorotovitch, secretary at the Austrian consulate at Philadelphia, is participating in a meeting tonight, considering methods of prosecuting the deputies. He obtained affidavits from a number of the miners who were in Friday afternoon's affair which throw new light on the shooting. They declare, in sub-stance, that on the morning of that day a messenger arrived at Harwood and asked the foreigners to come to Latimer, as the employes of Colliery No. 1 at that place were about to strike. Later a second message to the same effect arrived and then the men started over to Letimer. At Hazle colliery, so the affidavits continue, Sheriff Martin met them and warned them not to go through Hazleton, but to go around the other way. They did so, but arriving at the fatal bend in the road near Latimer, they again found themselves confronted by the sheriff this time backed up by the army of deputies. As soon as they reached the spot, it is declared, Sheriff Martin stepped out and roughly grabbed the foremost man by his coat collar. With his other hand he thrust revolver into his face and used abusive The miner knocked the sheriff language. revelver arm from in front of him and tried to wrench himself from the official's grasp. Almost instantly, the affidavit says, the order

to fire was given. The deputies were lined up in a hollow square, the fourth side of which was formed by the body of strikers. This would possibly account for the fact that so many were shot in the back and side. SCENES AT THE FUNERALS.

The funerals today made a spectacle of tragedy that, humble as were the accessories had in it something that was almost sub-lime. Buta and Ulrich had lived in Harwood and Yurrek in Humboldt, but when the procetsion was started the latter party joine the others and the cortege wound way through the mountain passes, over the dusty lanes into Hazleton and then into St. Jo-seph's church on the outskirts, where Father Aust and Rev. Dr. Hauser held brief ser-vices. At the head of the line there was a brass band playing the Dead March with

muffed drums. A heavy mist had crept over the hills, a chill drizzle of rain was falling and the scene backed by the line of hills and looming coal breakers was weird and gloomy. There were but a few carriages, but nearly 1,600 men were in line at one time or another, and most of them continued until the end. MAY RESUME WORK AT ONCE Pittsburg Operators Expect the Ten-

Day Clause to Be Ignored. PITTSBURG, Pa., Sept. 12 .- The Pitts-

burg district coal operators believe that this week will find many mines in this region in full operation and to further this belief the majority of the mine owners have announced that their pits will open in the morning in readiness for all of their men who may wish to ignore the ten-day proviso of the Columbus settlement. It lieved that many of the strikers will take

advantage of the opportunity. Secretary Warner of the Miners' associa tion says the Columbus agreement will be strictly adhered to. It is not believed that the officials of the district will raise their hands to stop the men from going to work

Immediately. A district convention of the miners has been called for Wednesday morning at which 'matters of great importance are to be discussed." The convention is presumably called to devise ways and means for con tinuing the fight against such firms as will refuse to pay the district price and it is thought the advisability of breaking the ten days' proviso and returning to work at one will be acted on.

The Pittsburg operators are discussing an offer they intend to make to the men, offer-ing them inducements to break away from the national organization and form an asso ciation taking in only this district, the idea being to fight the Ohio and western districts. It is known the New York & Cleveland Gas Coal company has had erected close to its Sandy Creek mine a temporary boarding house for the purpose, it was supposed, of housing imported workmen. Tonight it said many of the old men are sheltered in the iouse and ordered to go to work in the morning. The district officials are hastily arranging for a special demonstration in the morning in order to, if possible, prevent the threatened stampede.

Burwell was still in ignorance of the fate of his victim, while hoping for his speedy recovery, in his cell at the county jail. Shorily before 6 o'clock he was summoned by Jalier Shand into the jall office and ap-prised of Boyce's death. A deathly pallor overspread his face at the announcement of unwelcome news. I have hoped all along that he would get well. The doctors told us at first that he would. I know that if he had he would never have testified against me. We were always the best of friends. Last June, when he came to my house, he feared the police were after him for a robbery which he swore to me he was never guilty of. I took him in and as he was handy about the place we lived together from that time on without a bit of trouble. Toward the last I suspected he paid too much attention to Mrs. Burwell, but 1 never spoke to him about it. I did talk to my wife about it though, but she denied it.

MINERS USE VIOLENCE.

Stories of violence on the part of the strikers long before the outbreak of Friday are coming to light. It is said that in marches from mine to mine they used brute force to make individual workers join their ranks. Rev. Dr. David H. Shields, an asnigned appointee of President McKinley to a chaplainship in the army, said that as early as Tuesday of last week this had gone so far that the people became frightened. By Thursday terror was in the air and many persons were buying firearms and hiding ammunition in their houses. Dr. Shields, himself one of the most conspicuous advocates of peaceful measures in the emergency. said he advised asking for state troops in the early part of the week. He spoke in a big tent at Hazle park, where some of the militia are stationed, this afternoon. The militia are stationed, this afternoon. The took no issue, but declared that the tragedy has been approaching for four years. Both sides were to blame, in his opinion, he afterward remarked; the operators in steadily reing wages and refusing to meet miners committees, thus leaving nothing for the men but the marching; and the miners, in going on strike, as they often had over trivial causes, such as the discharge of a

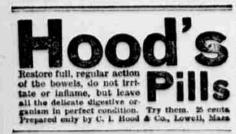

mule driver for neglect of his work. In the office of the Lehigh Traction com

pany is a brown cutaway coat, which one of the men, now dead, wore on Friday last. There are three bullet holes in it, one through the front, one through an arm and the third through the tails. pocket was found a cheap nickel 32-crilibre "buildog" revolver. This had not been used in the riot, because the chambers contained neither empty nor loaded shells and it could cen fired before the man was shot because he would have had no time to unload it. It is established that this was the only weapon contained in the whole mob of miners, and the conditions indicate that the t could not have come from their There were three companies of deputies and one of these made up of men who have as mine police in the past, had had much trouble with the strikers on previous occasions and were said to be in revengeful

need against them. Rumors flew thick and fast today. There was one in the morning that a deputy's body had been found in the woods and another in the afternoon that a soldier had been shot. It was also whispered that Governor Hastings had arrived by special train and was closet 4 with General Gobin. All proved baseless, the latter arising from the arrival of Colonel Wilbur of the Lehigh Valley railroad, who conforred with the brigade commander, to what effect could not be learned. All All was quiet in the camp throughout the day, sev-

eral of the bodies, including the city troop of Philadelphia and the governor's troop, taking practice drills.

During the day rumors were current that

ime he received a telegram from General Gobin stating that the troops are well quarered and have plenty of supplies. The ger eral also telegraphed that there was no trouble and he did not look for any outreak.

General Gobin will keep a close watch on the funerals and will prepare to suppress any disorders. Should the miners and operaor's adjust their differences at Tuesday's conference the troops, with the exception of a battalion of infantry and a troop of avalry, will be withdrawn. The first brigade is still held in readiness, but it is thought here that all danger of another outbreak is Governor Hastings has abandoned his visit o the Blue mountains and will stay here until the troops are withdrawn.

BIOTERS ARE TAKEN TO JAIL

Eight Poles Are Placed in Custody a Clearfield.

DUBOIS, Pa., Sept. 12 .- Sheriff Smith tool eight of the rioting Poles to the county jail at Clearfield last night and has three others under arrest who will be taken there tomorrow morning. The sheriff returned here this afternoon and with a force of depa ties will proceed to Rochester mine at 3 o'clock tomorrow morning to protect miners when they go to work, and to arrest any foreigners who may interfere. The for eigners were greatly excited last night when they learned their leaders were to be taken to jail. Threats of attempting to rescue them were made, but the sheriff slipped away with his prisoners at 11 o'clock before any serious disturbance occurred.

The miners' executive committee met here oday and issued notice that all mines of the Clearfield and Jefferson Coal Mining company were working on Saturday except at Dubois and Reynoldsville and recommended that the men at those places return to work.

ENGLISH COMMENT ON THE FIGHT

London Times Recalls the Molly Maguire Seenes of Twenty Years Ago. LONDON, Sept. 13 .- The Times in a special article on the Hazleton catastrophe asks whether history is going to repeat itself in son, besides a mother and several brothers a duplication of the Pittsburg riots of 1877. It recounts the horrible "Molly Maguire" scenes witnessed in that year and gives a general history of the strikes that have taken place in that region, testifying to the besotted brutality and ignorance of the miners. The Times adds: "Had the sheriff shown a moment of weakness the miners would probably have hammered him and his posse to death in ten minutes and would then have begun murdering and pillaging right and left." The Daily Mail says editorially this morn-

ing: "There is no necessity for America to fight Spain after all. An outlet for her fighting energy is provided by the indiscreet vigor of a Pennsylvania sheriff. The European governments whose subjects are among the victims of the massacre at Hazleton will unquestionably demand reparation."
