## TRAIN RETURNS.

Just before the regular northbound passenger, No. 3 got out, the wind shifted to inshore. A number of people came to Beaumont on No. 3, saving nothing but what clothes they had on. No. 3 was run right back to render all assistance possible and move the people if there should be any danger of a tidal wave. W. K. Morley, superin-tendent of the southern division, went to Port Arthur from Beaumont to make a re it has been impossible to get anything from

1.200 people and has probably 300 houses, many of which are substantial structures. The Gulf railway owns a magnificent \$10.0 depot, and the principal hotel is a costly structure of seventy-five rooms. Port Arthur is the southern terminal of the Kan-. Pittsburg & Gulf railway and is sixteen miles inland from Sabine City. In 1886 a wave swept over Sabine City covering that place with six feet of water, destroying many houses and causing several deaths. Great distress was caused and there were many narrow and thrilling escapes. When the Gulf road was first projected land on Sabine pass, owned by Kountze Bros. of New York City, was offered the railroad company for a terminal. Both because of the fear of tidal waves and owing to a failure to reach a satisfactory price for the land the proposition was rejected. Port Arthur then became the southern me the southern terminal of the road and was built up on the strength of that

FROM RAILROAD OFFICIALS. KANSAS CITY, Mo., Sept. 13.—At the headquarters of the Kansas City, Pittsburg & Gulf Railroad company, which owns the townsite of Port Arthur, a statement con-taining brief particulars of the disaster at the gulf was given out tonight. According to the railroad reports, a heavy wind came on Sunday night, attaining the velocity of a hurricane at 6 o'clock, developing and increasing in force until 9 p. m., when the highest velocity was reached. In Port Arthur six lives were lost, about thirty houses were blown down, the second story of the bank building blown off, the Sabine hotel was damaged \$800, and roofs were blown from the roundhouse, natatorium and the

railroad company's stables. The pier, it reported, was somewhat damaged. The railroad reports do not state whether these people were killed in the hurricane or drowned, though it is stated that there Afghanistan during the present crisis. Of the disaster at Sabine Pass, which is Pittaburg & Gulf statement says:

President A. E. Stillwell of the Pitsburg & Gulf tonight wired his representatives a Port Archur that the company would sub-scribe \$10,000 to repair the damage to homes in Port Arthur and would arrange tomor-row for the expenditure of the money. whatever action has been taken by that department, and it is admitted that action has been taken, has been at the instance of the Treasury department, which is charged with the enforcement of the exclusi n laws. All that the diplomatic and consular officers abroad are expected to do is to notify the government here of the intended departure of any anarchists. This information will be communicated to the treasury officials, who must assume the responsibility for keeping the objection ble persons out of the coun-try. Respecting the authority to exercise such power in the case of anarchists, the State department officials are not clear, but leave this aspect of the case to the treasury officials. No information of the coming to this country of Louise Michel has been received as yet but it has been learned that some enarchists are en route to the United

States and it is expected that a test case will arise through an application for a writ of habeas corpus to secure the release of some alloged anirchists who may have been turned back. Secretary Gage declined to state at present what action, if any, would be taken by the government to prevent the landing of Louise Michel. Mr. Powderly is strongly opposed to allow-

ing foreign anarchists and other general dis-turbers of the peace to land, and he will take all proper means to prevent Louise Michel and others of her class from preaching her incendiary doctrines in the United States.

Financial Papers All Denounce Pro-posed Silver Bank Reserve. boyvight, 1897, by Press Publishing Company, LONDON, Sept. 13 .- (New York World lablegram-Special Telegram.)-The Times' tatement that the Bank of England had de cided to keep one-fifth of its reserve in silver has aroused the ire of the gold party. H. R. Grenfell, a leading bimetallist and one of the senior directors of the bank, writes to the Times today indicating that no such decision has been arrived at. I hear that what happened was that the bimetallist members of the bank directorate proposed the change, and a monometallist director, espying a disposition on the part of a majority of the court of directors to assent to it as a harmless if useless expedient, wrote to the Times in order to defeat the bimetalo plan by giving it premature publicity. Her shricks for help attracted the attention of a bather, who climbed up to her side and seized her just as the boulder, to which she was clinging, broke away, and thus she was saved from being crushed to death. The actress and her rescuer lost their footing and rolled down the cliffs to the sea, where they were rescued by a passing boat. While Mme. Bernhardt was only slightly bruised, her rescuer was

LITTLE EXCITEMENT. The announcement of one more case and probably another has made no change in the state of the public mind. There is still an absence of excitement, and while there are occasional departures from the city there

has been no general exodus.

The daily official bulletin of the Board of Cealth is as follows:

The Board of Health of the state of Louislana officially reports the status of affairs in regard to the yellow fever in New Orleans as follows: Besides the seven cases already reported, three positive cases of yellow fever have today been diagnosed by the members of the board of experts. These new cases are situated at the following points: One at Soniat street between Chesnut and Collseum; one at St. Charles avenue, corner Adams street; one a brother of the first and only fatal case in the quarantined house on Rampart near Urauline street. These cases are all that have occurred in New Orleans and are directly traceable to infection originating in Ocean Springs and Scranton. Strict quarantine is enforced in connection with every case when positively diagnosed as yellow fever, or only considered suspicious. No death from yellow fever has occurred here since September 6th, and all the cases under observation are progressing favorably, with the exception of two formerly mentioned, to wit the Ross and Malchar cases on St. Claude street.

D. W. MAYOR,

Mayor of New Orleans,

The above was the news given out at the board meeting tonight. Lealth is as follows:

The above was the news given out at the board meeting tonight. One of the new cases is the brother of young Gelpi, who died of the fever. Another has not been traced, while a third is Dr. Lovell, who attended a case of fever a week ago. It was regarded as suspicious, but was never de-ciared yellow fever. The quarantine has

been extended to everything east of Pass Christian, now taking in Mississippi City. SURGEON WASDIN IS TAKEN ILL.

He is Supposed to Be a Victim of Yellow Fever.

WASHINGTON, Sept. 13.—Surgeon Wagdin, who has been at Ocean Springs for come time, was taken ill this forencon. This information came from Surgeon Murray, who did not state the nature of the blness, but Dr. Wyman supposes it to be vellow fever. Surgeon Murray has engaged a nurse and will care for him. Dr. Wasdi. has been actively engaged since the out break of yellow fever at Ocean Springs and was present at the first autopsy at which the conclusion was reached that the disease was yellow jack.

In response to an inquiry as to what hos pital and camp supplies he had on hand, Surgeon Wertenbaker, at the Delaware breakwater quarantine, replied that he could send 280 wall tents, averaging ten by twelv feet, with all poles and pins, and 800 mat esses and blankets.

Dr. Goode, the president of the Alabama State Board of Health, has telegraphed Dr. Wyman that all measures have been taken to prevent the spread of the disease which has manifested itself at Mobile. The mates of the hospital where the disease appeared were quarantined and the room for merly occupied by the yellow fever patient has been thoroughly disinfected. There was

no report of suspected cases.
Dr. Gulteras has been ordered to remain in Mobile for the present, as his services are necessary for further investigation. He will make a daily report to the surgeon

Dr. Guiteras, the government expert, has reported a case of yellow fever at the city hospital at Mobile, Ala., also a suspected case and added that he apprehended a serious outbreak. At the same time Surgeon Carter telegraphed from Ocean Springs that four case of yellow fever existed at Bark-ley, that there had been eight cases known to be yellow fever, and that two exposed physicians were at VanCleve and Scranton,
