BITS OF FEMINE GOSSIP.

One of her best things invented for her or her own benefit is a portable electric propeller, says the Ladies' Home Companion.

The propeller can be used on any ten to eighteen-foot boat, for pleasure, fishing or shooting, both in shallow or deep waters.

Women are working successfully in almost every field. Vick's Magazine states that according to the census of 1890 there were 212 commercial greenhouseers.

Another novel method of propelling a boat is by simply turning a crank, when your craft sails off at the rate of ten miles an hour.

AUTUMN GOWN OF GRAY CLOTH FROM HARPER'S BAZAR

The matinee girl was a product of the times when actresses were the leading character of the lives of young women.

Two interesting women are just now meeting daily in one of the most charming situations in the Latin Quarter in Paris.

Paris, Sept. 18. (Continued.) Islands, per S. S. Warrington (from Vancouver) close here daily after September 1st.
