Menvy Gate Receipts Secure the Fianneint Success of Nebraska's Exposition Beyond the Shadow of a Doubt.

(Continued from First Page.)

men and women which, if they are less

pretentious, are infinitely more significant of Nebraska resources. The most striking effect of the change is the marked addition of color and sunshine. The bright sketches in which many-hued clouds and foliage and golden sunshine pre-dominate are in that respect a welcome change from the somber colors in which the great painters have far too often chosen to work out their ideals. The difference is apparent the moment a visitor enters the building and is generally commended.

There is also an unusual proportion of new things and of these a great deal is of more than ordinary merit. The entire north side of the building is hung with sketches and paintings that have never been on exhibition before. They are almost entirely the work of Nebraska artists and cover a wide range of subjects. Some of the ideas presented are strikingly original and effective and the general character of the execution is something remarkable when the fact is considered that few of the artists have had the advantages of competent instruction and many of them have never taken a les-son in their lives.

ARTIST AND NEWSPAPER MAN. One of the latter is Robert F. Gilder, a local newspaper man, who is represented by a dozen or more landscapes done in oil. His work is chiefly noticeable for the bright effects in which he has produced some of the characteristics of the French school. He is one of the few artists who are able to perfectly reproduce the sunlight as it filters through the clouds and gilds the foliage of his creations. Mr. Gilder's sketches are his creations. Mr. Gilder's sketches are full of life and sunlight and attract the eye of every visitor to the gallery. That he is the possessor of exceptional talent is ap-parent to even a novice and it is the opinion of the judges that adequate training would

make of him a great artist.

One of the largest collections in the galleries is that contributed by Misses Jean and Grace Thurston, daughters of Senator Thurs-ton, in which a considerable diversity of talent is displayed. This includes a num-ber of very well done pastels and a large collection of small sketches and portraits, in

which a series of illustrations of Trilby are
particularly noticed.

Mrs. Bruner of this city shows a large
deer, very well sketched in black and white.

Mrs. C. J. Schubert of Neligh is repremented by a number of old German faces done in black and white, as well as some very intricate wall paper designs and a very striking sketch of a Japanese maiden

Mrs. W. S. Poppleton of Omaha has one of the finest exhibits of amateur photography that has ever been brought to the State fair. The finish is perfect and the work indicates no ordinary judgment in

selecting the poses.

Fred Knight of Omaha shows some very creditable water colors.

Charles Hogle is represented by some

very excellent oils and an exceptionally well done piece of still life in fruit. A very creditable piece of mechanical drawing is contributed by J. A. Bortenlanger of Occaha. It is a large sketch of a vestibuled street car from the original ideas

of the artist. A study, "The Captive Teutons," by Miss Margaret Gentske of West Point, is a trifle crude, but it is not without force, and is ex-ceptionally creditable to a girl of 16. One of the more pretentious pieces is a opy of the celebrated parating represent

ing the funeral of Charles XII, by K. Tider-

A NEW FEATURE.

to work on the exposition. This is an art that flourished in the fifteenth century, but in Ak-Sar-Ben colors.

has dropped out of consideration until very The most interestin. harder the bulb is squeezed the more heat is generated. By merely regulating the lightest scorch of brown to the color of

Another novel exhibit is that or Mrs Richard Morrill of Cama, and the work a similar record. One of the best exhibits shows what a woman 80 years old can accomplish. It consists of drawings done in ney. The grass is from Cheyenne county oil and cheese cloth, and the subjects are and is the product of a field which yielded sketches of historic structures and four crops. The building is in charge of G. houses in which the various presidents were

good landscapes and figures in water colors Jacob Schield makes an exhibit of sture. Mr. Schield is another artist that the exposition has brought to Omaha and his work, as shown in the Art build-ing, is considered very creditable. His princtpal contribution is a very well executed cast of a boy robbing an eagle s nest on the side of a high cliff, while the parent birds are

Mrs. Fannie Emerson of this city con-

wery pretty water colors. Mrs. G. N. Naile shows some oil portraits which are chiefly noticeable for the bright effects in coloring.

play of the Nebraska Ceramic club, which is considered one of the best that has yet been shown. The work of Mrs. Harry Ford, Miss.

M. Butterfield and Mrs. E. R. Perfect is especially commended.

Mercantile Exhibit Not Better Than

Candor compels the admission that the display in the Mercantile building this year does not show the same improvement over to the farm. While nearly all the space is taken and a number of the booths are most handsomely decorated, the merchantile houses have not shown a disposition to the farm.

BEAUTIFUL

riant Hair with Clean, Wholesome Scalp, produced by CUTICURA SOAP, the most effective skin purifying and beautifying soap in the world, as well as purest and sweetest, for

The fact that the jobbing houses are without exception engaged in handling a big fall trade which occupies the time of every employee is another. SPACICUS GROUNDS PACKED WITH PEOPLE fall trade which occupies the time of every employe is another reason why some of them have not been able to make extensive exhibits at the fair. To make an exhibit that would be creditable would involve a considerable expenditure of time and this is ex-actly the commodity that they are least able

The booth of the Stoecker Cigar company

fast foods.

The exhibit of the Standard Rope and The exhibit of the Standard Rope and Twine company contains a curiosity in the shape of several bunches of manila hemp from the Philippine Islands. One of these is fully six feet long and almost exactly resembles a head of waving blonde hir. Paxton & Gallagher have their usual large display of coffees and other grocers' specialties, and samples of their goods are served to visitors. The Rector & Wilhelmy company has a very handsomely decorated to make first; James Barrett Omaha, second. Mare any age, five entries: Patrick Brothers, Omaha, second. Mare any age, five entries: Patrick Brothers. to visitors. The Rector & Wilhelmy company has a very handsomely decorated booth, but no display of goods. Any deficiency in this respect is more than offset, however, by a huge punch bowl from which a most delicious beverage is served to the thirsty patrons of the building.

The Low-Clarked-Andreasen company has

The Lee-Clarke-Andreesen company has one of the most attractive and original exhibits in the building. Its booth is very richly ornamented, and displays a variety of builders' hardware and pocket knives. The Baum Iron company has a large exhibit

ing Exhibit. The Alfalfa building, perched on the slope just south of the main entrance, is at all times an object of curio ity to the visitor. With its green sides of baled alfalfa, surmounted by its roof of five towers, the building can be seen from every point on the grounds. The building, though not large, contains a quantity of material which cannot fail to interest those who follow the agricultural progress of the state.

The central portion of the structure is taken up with the display of the Colorado Colony company, whose headquarters are located at Sterling, Colo., in the famous South Platte valley. All kinds of grains, fruits and vegetables, the latter of mammoth proportions, are shown. The grain is firm and the berry free from blemish. Of alfalfa there is a large display. Never in the history of the west has there been such a prolific crop of this product. Many fields have produced three and four cuttings, and those which furnished two are too numerous A NEW FEATURE.

Among the new features is an exhibit of pyrography, or the art of drawing on wood by heat, which is contributed by W. Fischel.

who recently came to Omaha from Chicage for the inspection of those in search of information. The whole building is decorated

recently. The drawing is accomplished by a strategier of needle which is attached to one end. In the northwestern portion of the building of a small tube which passes through a twenty even countles, mostly of the westreservoir of benzine. At the other end is a ern tier, are represented. The specimens bulb which is operated like a syringe, and show the crops to be of excellent quality, the harder the bulb is squeezed the more prominent among which are those from Chevenne and York countles. One field in the pressure on the bulb the needle is made the last named county broke the record by to leave a mark which varies in color from yielding four cuttings of the grass, each being of mature growth. Many fields in Cheyenne county yielded four crops, and many other western counties followed with

SHOWN BY THE MANUFACTURERS.

of the Factories of the State Are Represented. The Manufactures building is replete with exhibits of the handiwork of man, and attracts its share of the visitors to the fair. Some of the displays made are of more than ordinary interest and these are surrounded by crowds all the day. There are an unusua number of firms showing coffee and coffee substitutes, and each of these serve the beverage free to those who wish it, and thereby secure considerable attention, esps. cially from the thirsty. There is not much opportunity for decoration in the building, but there is more action in the exhibits, which is a novelty equally effective as artistie arrangement.

Hene & Co., manufacturers of cigars, for instance, have always a crowd in front of their booth, as three workmen are constantly engaged in the work of making the weeds and this proves of much interest to

many people. Krug Brewing company has a pretty exhibit. It has a neat booth nicely painted which is a permanent fixture in the build-ing, and the bottles of beer, with the clear glass, make an exceptionally pretty exhibit. The Omaha Tea and Coffee company dis-plays its coffees and to prove the virtues of the brands samples are served by femining attendants to that portion of the public which has a mouth for the beverage. The Omaha Brewing association also has an attractive display. It has a permanent booth artistically arranged, and the exhibit of beer of sufficient strength to create a well de-

veloped thirst in a large portion of the multi-The American Chicory company holds its share of the people who are passing through the building. This article is comparatively new to most people and they improve the op-portunity to learn more about it, especially

In addition to these the State Fair board has in this building an exhibit of matured corn, embracing thirty-four varieties, the samples being from Nebraska, Kansas and

and delivery wagons.

POULTRY MEN AND THE EXPOSITION Plan to Make an Exhibit at Next Year's Big Show. The Nebraska Poultry association held its semi-arnual meeting in the tent of the Nebraska Agricultural society at the State Fair grounds yesterday afternoon. The meeting was called with special reference to arrangements to be made for the exhibit of poultry at the Transmississippi Exposition. President W. H. Haven of Fremont acted as chairman, with I. L. Lyons as secretary.

Those present at once took up the subject
to be discussed. It was resolved to appoint
the board of managers of the society a committee to confer with the board of directors of the exposition. The committee will place a proposition before the directors, requesting that the Nebraska association be allowed to place a poultry exhibit upon the grounds which shall be continued during the period which shall be continued during the period covered by the exposition. The committee was directed to report at the next meeting of the society, which takes place at Fre-mont January 18-21, next.

Sons of the Green Mountain State. The Sons of Vermont held a reunion in he public tent at the State fair grounds yesterday afternoon. It drew out quite a following of New Englanders. W. R. Barton of Tecumseh acted as chairman, with George A. Loveland of Lincoln as secretary. About an hour was passed pleasantly in the recital of anecdotes of the old New England homes and the meeting then adjourned to meet at a date not yet decided upon. Those who delivered addresses were: Rev. William Murphy, Seward, H. R. Corbett, C. S. Lobinger, Omaha; Edward McIntire, Seward, A. A. Welch, Wayne; F. L. Stone, Holdrege; Dr. S. R. Towne, Dr. A. B. Summers, Omaha; F. W. Perry, Elmwood; Palmer Blake, Tefollowing of New Englanders. W. R. Bar-F. W. Perry, Elmwood; Palmer Blake, Te-cumsch; G. A. Loveland, Lincoln; Mrs. A. B. Summers, Omaha; Mrs. W. R. Patrick, Elm-wood, and Mrs. F. W. Perry, Elmwood.

FIREMEN HAVE A BUSY NIGHT

Bluzes. The fire department had barely returned to quarters after the false alarm from the New York Life building, when it was again summoned on a still alarm to Tenth and Harey streets. The main thoroughfares through which the apparatus had to pass were still thronged with people, but by good luck and excellent management, no one so far as known was hurt by the flying engines. The fire was found to be in car No. 5 of the Harney street line. The blaze was caused by a short circuit, which set fire to the wooden flooring of the coach. A stream from one of the hydrants quickly quenched it. The car, in order to place it out of the way of the other trunk lines traffic, was pushed to the corner of Tenth and Dodge streets. After the blaze was extinguished it was run into the power house at Twentieth and Harney streets. The loss will be in the neighborhood of \$75.

A third alarm came in from Nineteenth and Martha streets twenty minutes after the firemen had entered their houses. The blaze proved, however, to be a small one. No

THIEVES WORK RAILROAD TRAINS. Steal Satchels Containing Much Valuable Property.

Sneak thieves descended upon the Union depot yesterday in wholesale fusition. They worked with such willing hands that four valises, containing goods and valuables, were the record of about ten minutes' work. It is thought the thieves boarded the trains at Mo; Omaha Wilkes, b. g., C. Ressi, Omaha; Council Bluffs and awaited their chance.

Council Bluffs and awaited their chance. When the passengers were engaged in looking from the windows at the approaching city, satchels were appropriated and the thieves jumped from the platform.

The thefts were divided in all equity among the Rock Island, the Burlington and the Union Pacific. John Strain of Allegheny, Pa., on the former, lost a fine satchel containing besides wearing apparel, a valuable gold watch. A. T. Stocking of Cleveland, a traveling man, is the loser of a number of fine samples of combs and brushes, besides a one-half carradiamond, valued at \$50. A missing grip of H. C. Holthoff, with the E. P. Allis Machinery company of Milwaukee, contained circulars and advertising matter, G. S. Rumbaugh of Mansfield, O., will also be obliged to postpone changes of clothing until he reaches home.
