HAWKEYES AT KING AK-SAR-BEN'S COURT

Intense Interest in the Omnha Affair Results in a Busy Time for the Hostelries of Council Bluffs.

The indications around Council Bluffs are that the majority of the people in western Iowa are attending the Nebraska State fair Every incoming train yesterday was loaded and all had extra coaches attached. The passengers on the early morning trains were sufficiently numerous to pack the street cars that were waiting at the depots. Later trains brought such a multitude that the street car facilities at the stations were entirely inadequate to provide means of transportation, and several hundred people walked up town and took their chances of catching Omaha motors at the Pearl street junction. Every train that came in during the day was rowded with fair visitors, and even the trains that came in after 5 o'clock last evenng were loaded with passengers who took the motor trains for Omaha as quickly as they could find one that was not already paded to its capacity.

The rush of the farmers from the surounding country was something phenomenal. By noon yesterday every livery stable and feed yard in the city was filled with farm-ers' teams and wagons and family carriages. The jam was so great around the Neumayer feed yards that the alley and the two streets on which the yards are located were so nearly blocked that only narrow passage-ways were left for the regular traffic. The farmers left their teams and went to the fair via the motor and will be the contract. fair via the motor and railway lines. A conservative estimate places the number of strangers in the city on route to the fair at 10,000, and when to this is added the usual number of Council Bluffs people, the size of the crowd that Iowa contributed can be estimated. The people of western lowa are taking a deeper interest in the Nebraska fair this year than any previous year.

The transportation facilities were taxed of the fullest last night to accommodate the rowds who desired to see the big parade. Every hotel in the city is filled with guests and all of the private boarding houses have een taxed to furnish accommodations. On Wednesday night the last Omaha motor trains brought full loads of people in search of hotel accommodations, and many of them andered around the streets until after 2 clock yesterday, importuning the police of leers to assist them in finding places to Every assistance was given in directing them to private boarding houses and places where cots could be secured.

RUSH TO GET OVER TO OMAHA. Motor Company Has a Big Task to

Handle the Crowds. At 9 o'clock last night there were very few people left in Council Bluffs, and they for public speaking. consisted chiefly of those who lost courage n the struggle to get on the street cars for Omahs. The rush continued until nearly 9 o'clock. The motor company switched all of its through trains at the Pearl street junction, and from 6 until 8 o'clock the streets at that point were almost blocked. The motor company used every car in its barns, including a big baggage car and some of the horse cars. Manager Dimmock fixed a schedule to send trains from the junction every five minutes, but the trains made little better time than was expected, and for a portion of the time a train carrying from seventy-five to 150 passengers left the junc-tion every three minutes. Half a dozen policemen were on duty keeping the crowds from becoming too impetuous, and assisted in loading the cars. There was no delay, for a car would be loaded while it was switching and was ready to start back within two minutes from the time of arrival. "How we are going to get these people back tonight ls a question that is bothering us now," said Manager Dimmock at 8 o'clock last night. Our trains have been jammed all day, and not one-tenth of those who went over dur-ing the early part of the day have returned. I used four tons of soft coal the whole winter. The stove does all that is laimed for it. The special feature about the tove besides its economy is the steady, even heat, just like a hard coal base-burner, and it is just about as clean. E. P. Smith, 1911 Fourth avenue.

Mr. Smith easily saved the cost of his tove last winter, as any other stove, either hard or soft coal, would have used up at least \$28 or \$30 worth of fuel. We guarantee it to save one-third the fuel over any soft coal stove made and to be as economical with hard coal as a base-burner. See it in or tion at our store. Cole & Cole, 41 Main

Yates Gets \$1,000

The hearing of the Yates civil damage suit was finished in the federal court yesterlay and given to the jury. The instructions of Judge Munger were commented upon as being remarkably clear and strong and his conduct of the case free from error. The case was given to the jury at 11 o clock and at 3 o'clock a verdict was reached. Judge Munger was anxious to return to Omaha but waied patiently around the federal building until the announcement was re-ceived that the jury had agreed. The ver-dict gives Yates \$1,000. He sued for \$30,000 for damages for personal injury received in a collision on the Union Pacific five years ago. Witness Forfeits Bond. Six months ago Chris Hildebrandt, Idaho miner returning from a visit to his former home at Danville, a small town near Burlington, Ia., stopped over one train in ouncil Bluffs to see the sights and get ac quainted with something new. At the Union Pacific transfer he met William Brown, a negro, Jack Kessell and W. R. Nice, white men. Hildebrandt had considerable money in his possession and it was not long until he found himself in a condition to apply to the police for assistance in finding the men who hid robbed him. The three men were arrested, and part of the money was found in their possession. They were held to the grand jury and Hildebrandt was required to give bond to appear and prosecute them when they were called for trial. He was kept in jail here nearly a week while he was ar-ranging a bond for \$200. The bond was ring in two rounds, as finally filed by a local bank upon satisfactory threw up the sponge.

Many similar depredations have been committed in various parts of the city, and the rascals who have committed them. Wednesday night Officer Claar brought three boys to the station for investigation. He found them between 9 and 10 o'clock in the vi-cinity of a vacant house, and in the immediate neighborhood of the ingoldsby place. A cellar window had been removed and there was good reason for believing that the boys had removed it and were in the act of getting in when they were alarmed by the aprouch of the officer. As he came up a short low whistle was given, evidently by some one on watch, and the boys attempted to run away, but were caught. PRESIDENTIAL PARTY REFRESHED. Weather Not of the Best for Outdoor

Exercises.

NORTH ADAMS, Mass., Sept. 23.—President McKinley and the other members of his party rested today. It was nearly 7 o'clock when President and Mrs. McKinley made their appearance at the breakfast table at of weariness and care had disappeared. The Misses McKinley and McKenna, the younger members of the party, arose early and enjoyed a walk through the beautiful grounds before breakfast. Attorney General Mc-Kenna, who was slightly indisposed yester-day afternoon, was in the best of spirits this morning. Secretary and Miss Lone came over from the residence of O. T. Plun-kett, a brother of the president's host, where they are being entertained, shortly after the merning meal was over, and the entire party enjoyed a quiet hour upon the broad plazza. The weather this morning was not of the best. There were numerous clouds in the sky and now and then a slight rainfall.

Shortly after 10 o'clock, Colonel Albert Clarke, secretary, and Major Charles A. Stott of Lowell, president of the Home Market club, and other well known republicans called on the president. Immediately after their departure the president called a meeting of that portion of his cabinet which is in Adams with him and for two hours they were in secret consultation in the parlor of the Plunkett residence. After the meeting adjourned the president and Secretary Long went for a short walk through the Plunket

estate.

At 3 o'clock a delegation from George E. Sayles' post, Grand Army of the Republic, waited on the president and extended an invitation to him to attend the ceremony of laying the cornerstone of the new memorial public library building at 4 o'clock Saturday afternoon. The president accepted the invitation. After the Grand Army delegation returned the entire party entered carriages and were driven through the town and afterward visited one of the large cotton mills. President McKinley and Secretaries Long and Alger and Attorney General McKenna were taken for an hour's drive down the valley. The route led past the High school just as the pupils were leav-ing. There were fully 400 boys and girls, and when they recognized the distinguished party they set up a tremendous cheering. The carriage was instantly surrounded by a multitude of larger school children, eager to shake hands with the president

WEEKLY IRON TRADE REVIEW

Heavy Purchases of Bessemer Pig in the Pittsburg District. CLEVELAND, O., Sept. 23.-The Iron Frade Review says: The buying of Bessemer plg iron in the Pittsburg and other central the last two weeks being estimated at close to 100,000 tons. Further purchases are pending, since it is well known that large steel companies are consuming considerably more pig iron than they produce. While \$7.85 in the valleys was the highest transaction reported last week, \$10 has been done since this being for 1898 delivery, and \$10.25 is now the miniadvance of about \$1.50 from the lowest re-port. Northern sellers of sundry iron have stiffened their prices in sympathy with the advances in other grades, and southern sellers, finding order books well filled for four months ahead and orders steadily com-ing in, have held firmly to the advances noted last week. The Tennessee company is intimated, will make a further advance of 25 cents this week from the Birmingham basis of \$7.25 for No. 2 foundry and No. 2 soft, \$7.75 for No. 1 foundry and No. 1 soft, and \$6.75 for gray forge. It is evident that southern iron is now very close to the point at which exports will be prohibited. would have been the case now but for the recent advance in pig iron in England. The foundry buying of the past week has been of good volume. Some buyers hesitated to pay higher prices for deliveries in 1898, and ellers are likewise chary of business for next week.

We had but few days that could be called pleasant, so that we could do nothing," he said. "After we left North Sydney we saile: to Turnavik island, on the coast of Labrador From there we went to Baffinsland on Revo-lution island. What I consider the most important discovery was my finding of the relics of Greeley's expedition. These I found on Cape Sabine, but would prefer not to discuss them row.
"We touched the meteoric island August

25, and proceeded to get the big meteor on board. It was just large enough to go into the hold. It measured 12 by 18 feet, and weighed 100 tons. It is a beautiful specimen in fact, the best I ever saw. I have tested it and find the composition in it is almost similar to that used on plate armor on United States ships, and looks like nickeled steel.

LEGISLATORS CREATE AN UPROAR. Lively Times at Opening of the Austrian Unterhaus.

VIENNA, Sept. 23.-Premier Badena, upon the reassembling of the Reichsrath today, opened the Unterhaus amid a hostile demonstration of the members of the Scholner group, which is a section of the German oppoby the German left. A member asked if the Dr. Kathrein of the opposition was elected president of the Unterhaus without a vote

being taken and amid incessant tumult and violent altercations between the Bohemianwhile endeavoring to make a speech,

Dr. Pergelt protested against the election of Dr. Kathrein as president of the Unterhaus and moved the adjournment of the house. The motion was lest by a vote of 195 to 103.

A series of motions were offered, aiming at the impeachment of the ministers. The German popular party demanded an im-peachment of Count Hanoni because of the conduct of the representatives of the gov-ernment at public meetings. The German radicals and the Schoener group want him mpeached for prohibiting a meeting of German Bohemians at Egar, Bohemia, and they fall for the impeachment of Count Gleisph, minister of justice: Dr. Berlinski, minister of finance, and Baron Glanzdelcha, minister of commerce, for an alleged violation of their ninisterial powers by the issuance of ree authorizing the official use of the Czech anguage in Bohemia.
