MICHAEL DEFEATS LESNA AGAIN. Wins by Five Laps in an Hour's

Race.

NEW YORK, Sept. 25.-Cycle racing in this vicinity was wound up for the season this afternoon at Manhattan Beach with a rattling international match between Jimmy Michael, the Welsh champion, and Locian Lesna, the Swins rider who holds the French middle distance record. Attendance, 1400, Michael had for pacemakers four quark, one quint and two sestuplets, and Lesna had dive of the larger machines and one quad. The Welshman had the advantage of having the best pacemaking machines and decidedly the best pacemakers. Lesna's sextuplets seemed too unwielly for fast work. When the contestants lined up the little Welshman looked a pigmy in comparison with his Swins opponent, but each of them was trained to the hour and both looked if it orace for a man's life. At the crack of the pistel Michael jumped off in the lead and got the pole, right behind his quint, which, after the first lap, retired in favor of a quad. From start to finish the race was a procession, as Michael led all the way. At the end of the first mile the "Welsh Rarebit" was 120 yards ahead and he steadily increased his lead througaout the race. Lesna seemed to lose his pacemakers frequently, while Michael had no trouble in following his. Both riders strained every muscle to gain an advantage and although it was a foregone conclusion early in the race that Michael would win, buring accident, Lesna never let up and stuck to his task. At the end of the right miles and competition hour record of thirty miles and competition hour record of thirty miles and special such that an a winner by almost five laps, in 62:17-4-5.

CUBANS ARE CRUSHED.

Weyler's Statements. MEMPHIS, Tenn., Sept. 25 .- A special to the Commercial-Appeal from Chattanooga says: Owen McGarr, United States consulat Cienfuegos, Cuba, arrived here yesterday, having left Cuba August 28.

As to the condition of affairs on the island, the consul does not agree with the Cuban junta '- New York, but confirms General Weyler's utterances, insofar as his expertences have gone. Clenfuegos is in the south-eastern part of the island, in the province of Santa Clars, where there has been no fighting and where everything is decidedly Spanish. He says:

"So far as I have been able to judge, General Weyler's claim that four provinces of the western end of Cuba have been pacified is correct. I have seen no fighting and so

ay there are any insurgents." "Do you think the insurgents have a fightng chance to win?" was asked. Not the least, unless the United States accides to take a hand in the matter. seems to me they have about played out, as hundreds of the insurgent army have sur-

"Except on paper. Oh, there may be 5,000 or 6,000 of them in the eastern portion of he island in the three provinces which have not yet been subjugated, but the rest of the island is pacified as far as it is possible "There are thousands of country people centralized in the cities. Many are in Cienfuegos. The Spanish have cleared up the country districts and sent the people into the towns. Many are put into old wareouses and other such buildings to keep them rom the country. These are fed by the

government. A large percentage of these concentrades,' as we call them, are women and children who were in losurgent camps which had to be abandoned and were capured by the Spanish.
